Coleman 765870

Coleman 120-Quart Cooler User Manual

Model: 765870

INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your Coleman 120-Quart Cooler. Designed for durability and efficiency, this cooler is ideal for keeping a large volume of items cold, such as up to 190 beverage cans. Its robust construction and thoughtful features ensure reliable performance for your outdoor activities.

SETUP

Before first use, ensure the cooler is clean and dry. No assembly is required for this product.

1. **Initial Cleaning:** Wipe the interior and exterior surfaces with a damp cloth and mild soap. Rinse thoroughly and dry completely before use.
2. **Pre-cooling (Optional but Recommended):** For optimal performance, pre-cool the cooler by placing a bag of ice or ice packs inside for a few hours before loading with contents.

OPERATING INSTRUCTIONS

Follow these guidelines for effective use of your cooler:

- **Loading Contents:** Place items to be kept cold inside the cooler. For best results, fill the cooler as much as possible with ice or ice packs. The cooler is designed to hold 2-liter bottles upright.
- **Lid Operation:** The hinged lid is designed to stay open, providing easy access to contents. Ensure the lid is securely closed after each use to maintain internal temperature.
- **Handles:** Utilize the two-way handles for transport. When the cooler is full and heavy, it is recommended to use both handles and have two people carry it to prevent strain.
- **Seating Function:** The lid is designed to be sturdy enough to serve as a seat.
- **Cup Holders:** The lid features molded-in cup holders to keep beverages stable and within reach.
- **Additional Storage:** The lid is designed to accommodate 24-inch elastic cords (sold separately) for securing additional dry storage on top of the cooler.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your cooler.

- **Cleaning:** After each use, empty the cooler and clean the interior and exterior with mild soap and water. For stubborn stains, a mixture of baking soda and water can be used.
- **Drying:** Ensure the cooler is completely dry before storing to prevent mold and mildew growth. Leave the lid slightly ajar during storage to allow air circulation.
- **Storage:** Store the cooler in a cool, dry place away from direct sunlight.
- **Rust Prevention:** The cooler is designed to be rust-proof and leak-resistant. However, regular cleaning and drying will help maintain its integrity.

TROUBLESHOOTING

Common issues and their solutions:

| Problem | Possible Cause | Solution |
|------------------------------|---|---|
| Ice melts too quickly. | Cooler not pre-cooled; insufficient ice; lid not sealed properly; exposed to direct sunlight. | Pre-cool cooler before use. Use more ice or ice packs. Ensure lid is fully closed. Keep cooler in shade. |
| Odor inside cooler. | Improper cleaning or drying; food residue. | Clean thoroughly with mild soap and water, or a baking soda solution. Ensure cooler is completely dry before storage. |
| Lid does not close securely. | Obstruction; warped lid (unlikely). | Check for any items blocking the lid. Ensure hinges are not damaged. |

SPECIFICATIONS

| Feature | Detail |
|-------------------------|--|
| Brand | Coleman |
| Model Number | 765870 |
| Capacity | 120 Quarts (approx. 190 cans) |
| Color | Blue |
