## DELTA 41624

# Delta Faucet 41624 Traditional Grab Bar User Manual

Model: 41624 | Brand: DELTA

## PRODUCT OVERVIEW

The Delta Traditional Grab Bar, model 41624, is a 24-inch decorative safety bar designed for use in bathrooms. It features a polished chrome finish, a 1.25-inch diameter bar, and extends 2.75 inches from the wall. This grab bar is engineered for concealed mounting, providing a clean and integrated appearance while offering reliable support.

## SAFETY INFORMATION

**WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).**

Always ensure the grab bar is securely mounted to structural blocking or studs capable of supporting the intended load. Improper installation can lead to serious injury. Consult a qualified professional for installation if unsure.

## SETUP AND INSTALLATION

The Delta Traditional Grab Bar is designed for wall-mounted installation with concealed mounting hardware. For detailed step-by-step instructions, please refer to the official installation manual.

- **Tools Required:** Drill, measuring tape, level, stud finder, screwdriver.

- **Mounting Surface:** Ensure the mounting surface is structurally sound and capable of supporting a maximum weight of 500 pounds.
- **Concealed Mounting:** The design features concealed flanges for a clean aesthetic.

For comprehensive installation instructions, download the official PDF manual: [Delta Faucet Grab Bar Installation Manual \(PDF\)](#).

## OPERATING INSTRUCTIONS

The Delta Traditional Grab Bar is a static safety device. Its operation involves providing stable support for balance and assistance when moving within the bathroom environment, particularly near showers, bathtubs, or toilets. Always apply pressure directly downwards or horizontally towards the mounting surface. Avoid excessive lateral force or using the bar for purposes other than support.

## MAINTENANCE

To maintain the polished chrome finish and ensure the longevity of your Delta Grab Bar, follow these cleaning guidelines:

- Clean regularly with a soft, damp cloth.
- Use mild soap and water if necessary.
- Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- Dry the bar thoroughly after cleaning to prevent water spots.

## TROUBLESHOOTING

Most issues with grab bars relate to installation or perceived looseness. Here are common troubleshooting steps:

- **Bar feels loose:** This indicates improper installation. The bar must be securely fastened to wall studs or appropriate

blocking. Re-check installation according to the manual. Do not use if loose.

- **Finish discoloration:** Ensure only mild, non-abrasive cleaners are used. Hard water spots can be removed with a vinegar-water solution, followed by rinsing and drying.
- **Difficulty installing:** Verify that you are using the correct tools and following the installation manual precisely. If walls are not standard drywall (e.g., lathe and plaster), specialized anchors or professional installation may be required.

## SPECIFICATIONS

<b>Brand</b>	DELTA
<b>Model Number</b>	41624
<b>Material</b>	Metal
<b>Color</b>	Polished Chrome
<b>Size</b>	24 Inch
<b>Bar Diameter</b>	1.25 Inches
<b>Extension from Wall</b>	2.75 Inches
