3. OPERATING INSTRUCTIONS (HOW TO PLAY)

The Melissa & Doug Wooden Fire Truck offers various interactive features for engaging play:

1. **Driving the Fire Truck:** The fire truck features smooth-rolling wheels, allowing it to be pushed across various surfaces for rescue missions. The three firefighter figures can be placed in the front cab of the truck.
2. **Operating the Ladder:** The gray ladder on the back of the truck can be lifted and rotated. One firefighter figure can stand in the bucket at the end of the ladder for elevated rescue scenarios.

3. **Using the Hose:** A yellow rope, representing the fire hose, is attached to the side of the truck. This hose can be unrolled and threaded through a hole in the firefighter figures, allowing them to 'hold' the hose and simulate spraying water. The hose can then be wound back up using the gray knob on the side of the truck.
