

Shad D0RI40

Shad D0RI40 Backrest User Manual

Model: D0RI40

1. INTRODUCTION

This manual provides essential information for the proper installation, use, and maintenance of your Shad D0RI40 Backrest. Please read these instructions carefully before installation to ensure optimal performance and passenger comfort. This backrest is designed to enhance the comfort of a passenger when used with compatible Shad top cases.

2. PRODUCT OVERVIEW

The Shad D0RI40 Backrest is an accessory designed to be mounted on specific Shad top cases, providing additional lumbar support and comfort for the passenger. It features a durable construction and is engineered for a secure fit.

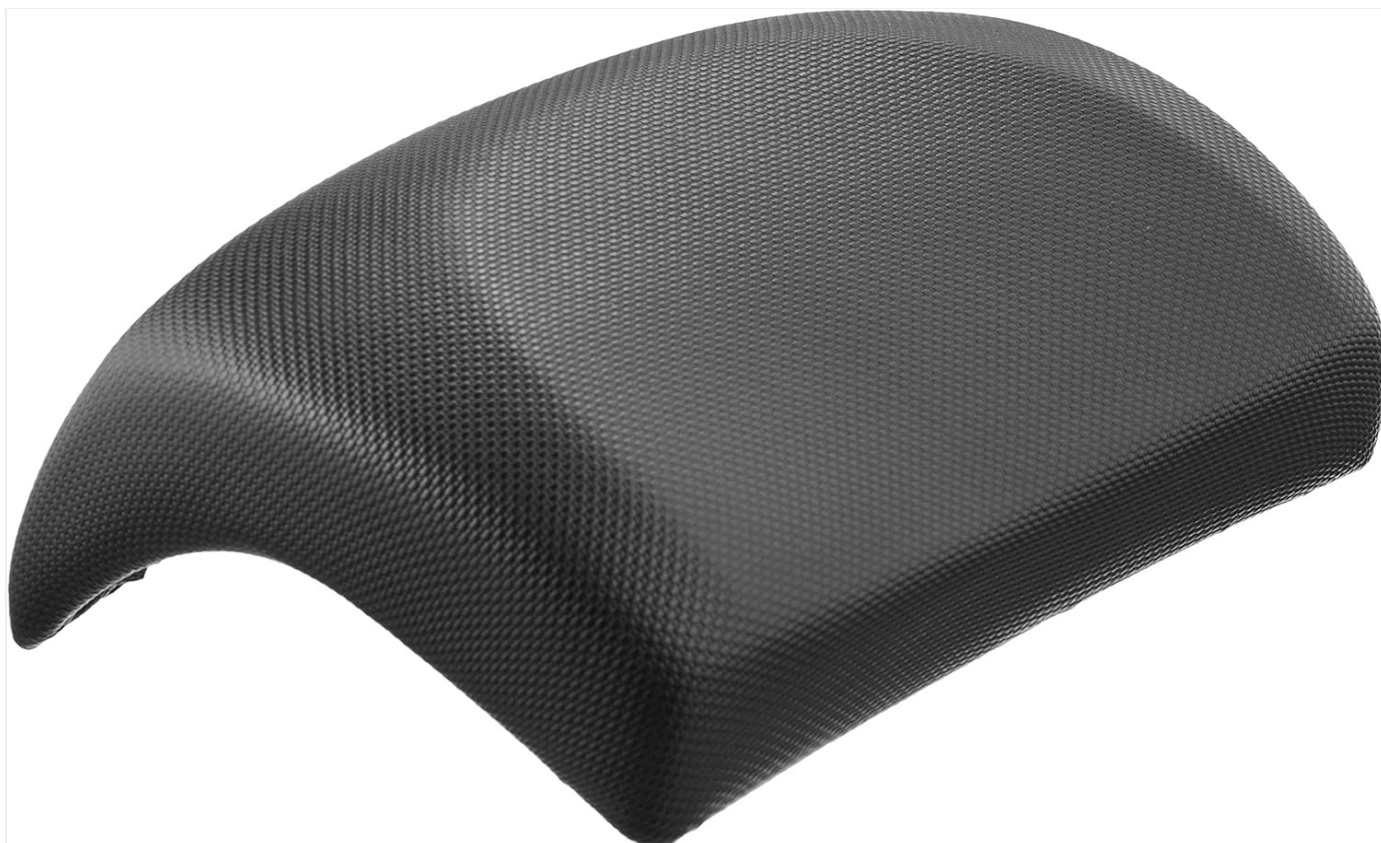

Figure 2.1: Front view of the Shad D0RI40 Backrest, showcasing its ergonomic shape and textured surface.

Figure 2.2: Top-down view of the Shad D0RI40 Backrest, highlighting its overall dimensions and design.

3. PACKAGE CONTENTS

Verify that all components are present in the package:

- 1 x Shad D0RI40 Backrest Pad
- 1 x Hardware Kit (screws, washers, etc.)

4. COMPATIBILITY

The Shad D0RI40 Backrest is specifically designed for use with the following Shad top cases:

- Shad SH-26 Top Case
- Shad SH-29 Top Case
- Shad SH-33 Top Case

This backrest is intended for street-sport motorcycles equipped with one of the compatible Shad top cases.

5. SETUP AND INSTALLATION

Installation of the D0RI40 Backrest requires drilling into the top case. Professional installation is recommended if you are not comfortable with this procedure.

Required Tools:

- Drill
- Appropriate drill bit (refer to hardware kit for size)

- Screwdriver (compatible with supplied screws)
- Marker or pencil
- Measuring tape or ruler

Installation Steps:

1. **Positioning:** Carefully place the backrest on the desired mounting location on the top case. Ensure it is centered and aligned properly for passenger comfort.
2. **Marking Drill Points:** Using the backrest as a template, mark the exact locations for drilling the mounting holes on the top case. The underside of the backrest (Figure 5.1) shows the pre-drilled holes for alignment.

Figure 5.1: Underside of the Shad D0RI40 Backrest, illustrating the integrated mounting points for secure attachment.

3. **Drilling Holes:** Carefully drill holes through the top case at the marked locations. Ensure the drill bit size matches the supplied screws to allow for a snug fit without stripping.
4. **Attaching the Backrest:** Align the backrest with the newly drilled holes. Insert the supplied screws from the inside of the top case through the drilled holes and into the backrest's mounting points.
5. **Securing:** Tighten the screws firmly but do not overtighten, as this may damage the top case or the backrest. Ensure the backrest is securely attached and does not wobble.

Note: Some users have opted for alternative mounting methods like industrial-strength Velcro to avoid drilling, though this is not the manufacturer's recommended installation method and may affect security.

6. USAGE AND COMFORT

Once installed, the Shad D0RI40 Backrest provides a comfortable and secure resting point for the passenger's back during rides. Its design is intended to complement the aesthetics of compatible Shad top cases while offering enhanced passenger experience.

7. MAINTENANCE

The Shad D0RI40 Backrest requires minimal maintenance.

- **Cleaning:** Wipe the backrest surface with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners that could damage the material.
- **Inspection:** Periodically check the mounting screws for tightness. Vibrations from riding can sometimes cause fasteners to loosen over time.
- **Storage:** If removing the backrest for extended periods, store it in a clean, dry place away from direct sunlight and extreme temperatures.

8. TROUBLESHOOTING

Most issues related to the D0RI40 Backrest are installation-related.

Problem	Possible Cause	Solution
Backrest feels loose or wobbly.	Screws are not tightened sufficiently or have loosened over time.	Tighten all mounting screws. Do not overtighten.
Difficulty aligning mounting holes.	Incorrect marking or drilling.	Ensure precise marking before drilling. If holes are slightly off, consider using washers to secure.
Backrest does not fit the top case.	Top case is not one of the compatible models (SH-26, SH-29, SH-33).	Verify your top case model. The D0RI40 is only compatible with specified Shad top cases.

9. SPECIFICATIONS

Feature	Detail
