Shad D0RI60

SHAD D0ri60 Chromed Backrest Instruction Manual

Model: D0RI60

1. INTRODUCTION

Thank you for choosing the SHAD D0ri60 Chromed Backrest. This accessory is designed to enhance passenger comfort on motorcycles equipped with compatible SHAD top cases. This manual provides essential information for the correct installation, usage, and maintenance of your backrest. Please read these instructions carefully before proceeding with installation.
The SHAD D0ri60 backrest is compatible with SHAD top case models SH37, SH40, SH45, and SH49.

2. SAFETY INFORMATION

- Always ensure all components are securely fastened before riding. Loose parts can pose a safety hazard.

- Do not modify the backrest or its mounting hardware. Unauthorized modifications can compromise safety and void the warranty.

- Regularly inspect the backrest and its mounting points for any signs of wear, damage, or loosening.

- Ensure the backrest does not interfere with the operation of the motorcycle or the comfort/safety of the rider.

3. PACKAGE CONTENTS

Please verify that all the following components are present in your package:

- SHAD D0ri60 Chromed Backrest Pad

- Mounting Plate/Bracket (if separate)

- Mounting Hardware (screws, washers, nuts)

- Installation Template (if applicable)

If any items are missing or damaged, please contact your retailer or SHAD customer support.

4. SETUP AND INSTALLATION

The SHAD D0ri60 backrest is designed for straightforward installation on compatible SHAD top cases.

Required Tools:

- Screwdriver (appropriate type for provided screws)
- Drill (if holes are not pre-marked or pre-drilled on your top case)
- Measuring tape and marker (if drilling is required)

Installation Steps:

1. **Prepare the Top Case:** Open your SHAD top case. Locate the designated mounting points for the backrest on the lid. Many SHAD top cases have pre-marked or pre-drilled holes for this accessory.

2. **Position the Backrest:** Align the backrest's mounting plate with the holes on the top case lid. Ensure the backrest is centered and correctly oriented.

3. **Drill Holes (if necessary):** If your top case does not have pre-drilled holes, carefully mark the positions using the backrest's mounting plate as a template. Drill pilot holes of the appropriate size, ensuring not to damage the interior of the top case.

4. **Secure the Backrest:** Insert the provided screws through the backrest's mounting plate and the top case lid. Secure them from the inside of the top case using the washers and nuts. Tighten all screws firmly but do not overtighten to avoid damaging the plastic.

5. **Final Check:** Close the top case and gently test the stability of the backrest. Ensure it is firmly attached and does not wobble.

Image 1: The SHAD D0ri60 Chromed Backrest securely mounted on a compatible SHAD top case, providing enhanced comfort for the passenger.

5. USAGE

Once installed, the SHAD D0ri60 backrest provides a comfortable support for the passenger. Ensure the passenger is seated correctly and comfortably against the backrest. The backrest is designed for passive support and should not be used as a grab handle or for securing luggage.

6. MAINTENANCE

- **Cleaning:** Clean the faux leather pad with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, which can damage the material.
- **Inspection:** Periodically check all mounting screws and hardware for tightness. Re-tighten if necessary. Inspect the backrest pad for any tears, cracks, or excessive wear.
- **Storage:** If the motorcycle is stored for an extended period, ensure the backrest is clean and dry.

7. TROUBLESHOOTING

Issue: Backrest feels loose or wobbly.

- **Solution:** Check all mounting screws and nuts from inside the top case. Tighten them securely. If the issue persists, inspect the top case lid for any damage around the mounting points.

Issue: Difficulty aligning mounting holes.

- **Solution:** Ensure the backrest is correctly oriented. If your top case has pre-marked holes, ensure you are using the correct ones for the D0ri60 model. If drilling, double-check measurements before drilling.

8. SPECIFICATIONS

Feature	Detail
Model	D0RI60
Brand	Shad
Material	Faux Leather
