## 1. INTRODUCTION

Thank you for choosing the KETER TITAN Storage Chest. This multifunctional chest is designed for outdoor use, providing a waterproof and ventilated storage solution for cushions, garden tools, and other outdoor equipment. Its robust resin plastic construction ensures durability and protection against the elements. This manual provides essential information for the safe assembly, operation, and maintenance of your new storage chest.

Figure 1.1: The KETER TITAN Storage Chest in its closed position, showcasing its sleek black and grey design. This chest is ideal for outdoor storage, offering a secure and weather-resistant solution for various items.

## 2. SAFETY INFORMATION

Please read all safety instructions carefully before assembling or using the product. Failure to follow these instructions

may result in injury or damage to the product.

- Keep all packaging materials away from children to prevent suffocation hazards.
- Ensure all components are present and undamaged before assembly. Do not attempt to assemble if parts are broken or missing.
- Assembly should be performed on a flat, stable surface.
- Use appropriate personal protective equipment (e.g., gloves) during assembly if necessary.
- Do not overload the chest. Refer to the 'Specifications' section for maximum capacity.
- Do not allow children to play inside the chest to prevent entrapment.
- Periodically check all fasteners and connections to ensure they remain secure.
- This product is designed for storage. Do not use it as a step stool or seating unless explicitly stated.

## 3. SETUP & ASSEMBLY

The KETER TITAN Storage Chest is designed for quick and straightforward assembly, typically taking about 15 minutes. It is recommended to have a second person assist with certain steps.

### 3.1 Unpacking

Carefully remove all components from the packaging. Lay them out on a clean, flat surface. Verify that all parts listed in the assembly diagram (not provided in this manual, refer to included instructions) are present and undamaged.

Figure 3.1: The KETER TITAN Storage Chest packaging, indicating the product's design and key features. Ensure all components are carefully removed from this packaging before assembly.

### 3.2 Assembly Steps (General Guidelines)

1. **Base Assembly:** Connect the side panels to the base panel, ensuring they click securely into place.
2. **Wall Panel Installation:** Attach the front and back wall panels to the assembled base and side panels. Apply firm, even pressure to ensure all connections are tight.
3. **Lid Attachment:** Secure the lid to the chest using the provided hinges. Ensure the hinges are correctly aligned for smooth opening and closing.

4. **Final Checks:** Once assembled, gently test the stability of the chest and the functionality of the lid. Ensure all parts are firmly connected.

*Note: Detailed, step-by-step assembly instructions with diagrams are included in the product packaging. Please refer to those for precise guidance. Some users have reported that the assembly instructions can be challenging; take your time and ensure parts are correctly aligned to avoid damage. The plastic material, while durable, can be susceptible to breakage if forced incorrectly.*

## 4. OPERATING INSTRUCTIONS

### 4.1 Opening and Closing the Lid

To open the chest, lift the lid using the integrated handle. The lid is designed to open smoothly. To close, gently lower the lid until it rests securely on the chest. The chest features a latch closure mechanism for added security.

Figure 4.1: The KETER TITAN Storage Chest with its lid fully open, revealing the spacious interior. This view highlights the robust hinge mechanism and the ample storage capacity for various outdoor items.

### 4.2 Storage Capacity and Usage

The KETER TITAN Storage Chest has a capacity of 300 liters. It is suitable for storing a variety of outdoor items, including:

- Garden cushions and pillows
- Small garden tools

- Children's outdoor toys
- Pool accessories
- Beach towels

The chest is waterproof, ensuring contents remain dry and ventilated, making it suitable for year-round outdoor placement.

Figure 4.2: The KETER TITAN Storage Chest positioned in an outdoor patio area, demonstrating its integration into a garden or balcony setting. It is shown with cushions inside, illustrating its practical use for outdoor storage.

### 4.3 Security Features

The chest is designed to be padlockable, providing an option for enhanced security of your stored items. A padlock is not included and must be purchased separately.

## 5. MAINTENANCE

Regular maintenance will help prolong the life and appearance of your KETER TITAN Storage Chest.

- **Cleaning:** Clean the chest periodically with a soft cloth, mild soap, and water. Avoid abrasive cleaners or harsh chemicals, as these can damage the resin plastic material.
- **Inspection:** Annually inspect the chest for any signs of wear, damage, or loose connections. Ensure the lid hinges operate smoothly.
- **Winter Care:** While designed for outdoor use, clearing heavy snow or ice from the lid can prevent undue stress on the structure.
- **Ventilation:** The chest is designed to be ventilated. Ensure vents are not blocked to maintain air circulation and prevent moisture buildup.

## 6. TROUBLESHOOTING

| Problem                      | Possible Cause   | Solution  |
|------------------------------|--|---|
| Lid does not close properly. | Obstruction, misaligned hinges, or uneven assembly.                | Check for items blocking the lid. Inspect hinges for damage or misalignment and adjust if possible. Ensure the chest is assembled on a flat, level surface.   |
| Water inside the chest.      | Lid not fully closed, damaged seal, or extreme weather conditions. | Ensure the lid is securely closed. Inspect the chest for any cracks or damage. While waterproof, extreme prolonged exposure to heavy rain may allow minimal ingress if seals are compromised.                               |
| Difficulty during assembly.  | Parts not aligning, forcing components, or unclear instructions.   | Refer to the detailed assembly instructions provided with the product. Do not force parts; ensure correct orientation before applying pressure. If a part seems broken upon unboxing, contact customer support immediately. |
| Chest appears unstable.      | Uneven ground or incomplete assembly.                              | Place the chest on a firm, level surface. Re-check all connections to ensure they are fully engaged and secure.   |

## 7. SPECIFICATIONS

| Feature                | Detail  |
|------------------------|---|
| Model Number           | 9763000_0270  |
| Brand                  | Keter   |
