2. INGREDIENTS

The formulation of Soak Laundry Soap includes:

Aqua, Coco-Glucoside, Glycerin, Lauryl Glucoside, Sodium Cocoamphoacetate, Sodium Cocoyl Glutamate, Sodium Lauryl Glucose Carboxylate, Glyceryl Oleate, Parfum, PEG-7 Glyceryl, Cocoate, Phenoxyethanol, Ethylhexylglycerin, PEG-120 Methyl, Glucose Dioleate, Propanediol, Potassium Sorbate, Benzophenone-4, Citric Acid, Tetrasodium EDTA.

Note: All Soak formulations are consistent, with the exception of the Scentless variant, which does not contain fragrance (parfum).

3. SETUP FOR HAND WASHING

Prepare your washing area by ensuring it is clean and free of debris. You will need a basin, sink, or tub large enough to comfortably submerge your items.

Recommended Dosage:

- Add 1 teaspoon of Soak Laundry Soap per 1 gallon of water.
- Adjust the amount of soap and water based on the volume of items you are washing.

4. OPERATING INSTRUCTIONS

Hand Washing Delicates:

1. Fill a basin or sink with cool to lukewarm water.
2. Add the recommended amount of Soak Laundry Soap (1 tsp per gallon of water).
3. Submerge your delicate items completely in the soapy water.
4. Allow items to soak for approximately 15 minutes. No rinsing is required after soaking.
5. Gently squeeze excess water from the items. Avoid twisting or wringing forcefully to prevent damage.

Image: Visual guide demonstrating the simple three-step process: adding Soak to water, soaking for 15 minutes, and drying flat.

Machine Washing (Delicate Cycle):

While primarily designed for hand washing, Soak Laundry Soap can also be used for machine washing on a delicate cycle. Use a small amount of detergent and select a gentle, cold water cycle. Always refer to your garment's care

label for specific machine washing instructions.

5. MAINTENANCE AND DRYING

After gently squeezing out excess water, lay your items flat on a clean, dry towel. Roll the towel and item together to absorb more moisture. Unroll and then lay the item flat on a drying rack or clean surface to air dry. This method helps maintain the shape and integrity of delicate fabrics.

6. TROUBLESHOOTING

Soak Laundry Soap is formulated to be gentle and effective. If you encounter any issues:

- **Residue on Fabric:** Ensure you are using the correct dilution (1 tsp per gallon of water). Excessive soap may leave a slight residue. A quick rinse with plain water can resolve this.
- **Persistent Odors:** For very strong odors, a longer soak time (up to 30 minutes) may be beneficial. Ensure items are fully submerged.
- **Skin Sensitivity:** Although plant-derived, if skin irritation occurs, discontinue direct skin contact and use

gloves for future hand washing.

7. SPECIFICATIONS

Attribute	Detail
Product Dimensions	2.5 x 2.5 x 6.25 inches
Item Weight	14.4 ounces
Volume	12.0 Ounce (375 ml)
Scent	Celebration
