DELTA 51567

Delta H2Okinetic Single-Spray Slide Bar Hand Shower

Model: 51567

PRODUCT OVERVIEW

The Delta H2Okinetic Single-Spray Slide Bar Hand Shower (Model 51567) is designed to provide an enhanced showering experience with its unique water delivery system. This chrome-finished unit includes a hand shower, a slide bar for adjustable height, and a flexible hose.

Image: The Delta H2Okinetic Single-Spray Slide Bar Hand Shower installed in a shower, showcasing its design and water spray.

The H2Okinetic technology sculpts water into a unique wave pattern, delivering a drenching spray with increased coverage, warmth, and intensity compared to standard shower heads. This product is WaterSense labeled, indicating it uses at least 20% less water than the industry standard while maintaining performance.

H2OKINETIC[®] TECHNOLOGY

3X

MORE COVERAGE THAN A STANDARD SHOWER HEAD*

*Coverage measured in accordance with
EPA WaterSense[®] Specification for
shower heads, March 4, 2010

Image: An illustration highlighting the H2Okynamic technology, which provides three times more water coverage than a standard shower head.

SETUP AND INSTALLATION

This hand shower system is designed for wall-mounted installation. For optimal performance and proper setup, it is recommended to consult a qualified plumber or refer to the detailed installation instructions provided with the product packaging.

Components Included:

- Hand Shower
- Slide Bar (24 inches in length)
- 60-inch Stretchable Metal Hose

A recommended wall elbow (Model 50570-PR) may be required for complete installation, depending on your existing plumbing setup.

OPERATING INSTRUCTIONS

The hand shower features a single spray setting, optimized for the H2Okinetic PowerDrench spray. To operate, simply turn on your shower's water supply. The hand shower can be removed from its holder on the slide bar for flexible use.

Adjusting Hand Shower Height:

The hand shower holder can be easily adjusted up or down along the 24-inch slide bar to accommodate different user heights and preferences. Gently loosen the knob on the side of the holder, slide it to the desired position, and then tighten the knob to secure it.

MAINTENANCE AND CARE

To maintain the chrome finish and ensure the longevity of your Delta hand shower, clean regularly with a

soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish. For stubborn water spots, a mild soap solution can be used, followed by rinsing and drying.

Cleaning the Spray Face:

Mineral deposits can accumulate on the spray face over time. To clean, gently rub the rubber nozzles with your finger or a soft brush to dislodge any buildup. For heavier deposits, a solution of equal parts white vinegar and water can be applied, allowed to sit for a few minutes, then rinsed thoroughly.

TROUBLESHOOTING

If you experience issues such as low water pressure, inconsistent spray, or leaks, first ensure that the water supply is fully open and that all connections are securely tightened. Check the spray face for any mineral buildup that might be obstructing water flow and clean as described in the Maintenance section.

For persistent problems or issues not resolved by basic troubleshooting, please refer to the warranty and support information provided in this manual.

SPECIFICATIONS

Feature	Detail
Brand	DELTA
Model Number	51567
Finish Type	Chrome
Material	Metal (Slide Bar, Hose)
Installation Type	Wall Mounted
Flow Rate	2.0 GPM (Gallons Per Minute)
