Hometrends Juice Extractor

MODEL: B00IQSBE30

Important Safety Instructions

Please read all instructions carefully before operating your Hometrends Juice Extractor. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always unplug the appliance from the power outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Do not immerse the motor base in water or any other liquid. Wipe clean with a damp cloth only.
- Keep hands and utensils out of the feed chute during operation to prevent personal injury or damage to the juicer.
- Ensure all parts are correctly assembled and locked into place before operating the appliance.
- Do not operate the juicer with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- This appliance is for household use only. Do not use outdoors.
- Supervise children closely when the appliance is in use or stored near them.

Product Overview

The Hometrends Juice Extractor is a compact and efficient appliance designed for extracting juice from fruits and vegetables. Its simple design ensures ease of use and cleaning.

Image: The Hometrends Juice Extractor, showing its compact design and main components including the motor base, juicing assembly, and pulp collector.

Key Components:

- **Pusher:** Used to guide fruits and vegetables into the feed chute.
- **Feed Chute:** Opening for inserting ingredients.
- **Cover:** Secures the juicing assembly.
- **Filter Basket / Juicing Screen:** Separates pulp from juice.
- **Juice Spout:** Where extracted juice exits.
- **Pulp Container:** Collects discarded pulp.
- **Motor Base:** Contains the motor and control switch.

Setup Instructions

1. **Unpack:** Carefully remove all parts from the packaging. Retain packaging for future storage or transport.
2. **Clean Before First Use:** Wash all removable parts (pusher, cover, filter basket, pulp container) in warm, soapy water. Rinse thoroughly and dry. Wipe the motor base with a damp cloth.
3. **Assemble:**
 - Place the motor base on a stable, flat, and dry surface.
 - Position the pulp container securely onto the motor base.
 - Insert the filter basket firmly into the motor base, ensuring it is properly seated.
 - Place the cover over the filter basket and pulp container, aligning it correctly and locking it

into place.

- Ensure the juice spout is positioned to direct juice into a collection glass or pitcher.

4. **Power Connection:** Plug the power cord into a standard 120V AC electrical outlet.

Operating Instructions

Follow these steps for efficient juicing with your Hometrends Juice Extractor.

1. **Prepare Ingredients:** Wash fruits and vegetables thoroughly. Cut larger items into pieces that fit easily into the feed chute. Remove pits from fruits like peaches or cherries, and hard seeds from melons. Peeling is generally not necessary for most fruits and vegetables, but you may peel citrus fruits to avoid a bitter taste.
2. **Place Container:** Position a glass or pitcher under the juice spout to collect the extracted juice.
3. **Start Juicer:** Turn the juicer ON using the switch on the motor base. Allow the motor to reach full speed before adding ingredients.
4. **Add Ingredients:** Gradually feed the prepared fruits and vegetables into the feed chute. Use the pusher to gently guide them down. Do not force ingredients, as this can strain the motor and reduce juice yield.
5. **Continuous Juicing:** The 200-watt motor efficiently extracts juice. Continue adding ingredients until desired amount of juice is obtained or the pulp container is full.
6. **Stop Juicer:** Once finished, turn the juicer OFF and unplug it from the power outlet.

Tips for Best Results:

- Juice firm fruits and vegetables first, followed by softer ones.
- For leafy greens, roll them into a tight ball before inserting into the chute.
- Consume fresh juice immediately for maximum nutritional benefits.

Cleaning and Maintenance

Regular cleaning ensures optimal performance and extends the life of your juicer. Always unplug the appliance before cleaning.

1. **Disassemble:** Turn off and unplug the juicer. Carefully remove the pusher, cover, filter basket, and pulp container.
2. **Empty Pulp:** Discard the pulp from the pulp container.
3. **Clean Removable Parts:** Wash the pusher, cover, filter basket, and pulp container in warm, soapy water. Use a brush to clean the mesh of the filter basket thoroughly to remove any trapped pulp. Rinse all parts under running water.
4. **Motor Base:** The motor base is **not** dishwasher safe and should never be immersed in water. Wipe the exterior of the motor base with a damp cloth. For stubborn stains, use a mild detergent on the cloth, then wipe with a clean, damp cloth.
5. **Dry and Store:** Ensure all parts are completely dry before reassembling or storing the juicer. Store in a clean, dry place.

Troubleshooting

If you encounter issues with your Hometrends Juice Extractor, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Juicer does not turn on.	Not plugged in; parts not assembled correctly; power outage.	Ensure power cord is securely plugged in. Check that all parts are correctly assembled and locked. Verify power supply.
Low juice yield or excessive pulp.	Filter basket clogged; ingredients too soft or overripe; forcing ingredients.	Clean the filter basket thoroughly. Use fresh, firm produce. Feed ingredients slowly and gently.
Motor stops during operation.	Overload protection activated; too much pressure on pusher.	Turn off and unplug the juicer. Remove excess ingredients. Let the motor cool down for 15-20 minutes before restarting. Avoid forcing ingredients.
Loud noise or vibration.	Parts not assembled correctly; juicer not on a stable surface.	Check that all parts are securely locked into place. Ensure the juicer is on a flat, stable surface.

Specifications

Detailed technical specifications for the Hometrends Juice Extractor Model B00IQSBE30.

Feature	Detail
Brand	hometrends
Model	B00IQSBE30
Wattage	200 watts
Voltage	120 Volts
Power Source	Corded Electric
Material	Plastic (body), Stainless Steel (blade)
Color	White
Item Weight	5.8 Pounds
Special Feature	Portable

Feature	Detail
Product Care	Hand wash removable parts; wipe motor base clean. Not dishwasher safe.
