

Electro-Voice ETX-12P

Electro-Voice ETX-12P 12-inch 2000W Powered Loudspeaker User Manual

1. INTRODUCTION

This manual provides essential information for the safe and effective operation of your Electro-Voice ETX-12P 12-inch 2000W 2-Way Full Range Powered Loudspeaker. Please read this manual thoroughly before setup and use to ensure proper functionality and to prevent damage to the unit or injury to personnel. The ETX-12P is a high-performance, portable powered loudspeaker designed for a variety of sound reinforcement applications, offering robust power and advanced digital signal processing.

2. SAFETY INFORMATION

Adherence to the following safety guidelines is crucial for preventing electrical shock, fire, or damage to the loudspeaker.

- **Power Supply:** Connect the loudspeaker only to a power source that matches the voltage and frequency specified on the unit. Ensure the power cord is undamaged and properly grounded.
- **Ventilation:** Do not block ventilation openings. Ensure adequate airflow around the unit to prevent overheating.
- **Moisture:** Do not expose the loudspeaker to rain or moisture. Avoid placing liquids on or near the unit.
- **Placement:** Position the loudspeaker on a stable, level surface or use appropriate mounting hardware. If pole-mounting, ensure the pole and stand are rated for the loudspeaker's weight.
- **Servicing:** Do not attempt to service the unit yourself. Refer all servicing to qualified service personnel.
- **Hearing Protection:** Prolonged exposure to high sound pressure levels can cause permanent hearing damage. Use appropriate hearing protection when operating the loudspeaker at high volumes.

3. PRODUCT OVERVIEW

The Electro-Voice ETX-12P is a versatile 12-inch, 2000W powered loudspeaker featuring a 2-way design for full-range audio reproduction. It incorporates advanced technologies for optimal sound quality and user control.

Key Features:

- **High Power Output:** Up to 2000 watts of peak power for robust sound.

- **Integrated DSP:** Digital Signal Processing with a single-knob interface and LCD for precise control over EQ, boundary compensation, limiting, and delay.
- **SST Waveguide:** Signal Synchronized Transducers waveguide design ensures uniform coverage and directivity, optimizing time-alignment between high and low-frequency drivers.
- **SMX Woofer Technology:** Utilizes composite cone materials, flux stabilizing rings, and thermal management for lower distortion and smooth response.
- **DH3-B Compression Driver:** High-efficiency driver with a convex diaphragm for extended frequency response up to 20 kHz.
- **Versatile Mounting:** Suitable for floor monitor use, tripod mounting, or suspension.

Components:

Figure 3.1: Front View. This image displays the front of the ETX-12P loudspeaker, highlighting the protective grille and the Electro-Voice logo. The robust grille protects the internal components while allowing sound to project clearly.

Figure 3.2: Angled Side View. This view shows the side of the loudspeaker at an angle, featuring one of the integrated handles for easy transport

and positioning. The textured finish of the cabinet is also visible.

Figure 3.3: Rear Panel. This image details the rear control panel of the ETX-12P, including input/output connectors (XLR), the power switch, AC inlet, and the LCD screen with the single-knob DSP control. This is where all audio and power connections are made and where sound parameters are adjusted.

4. SETUP

Proper setup ensures optimal performance and safety. Follow these steps for initial installation.

4.1 Unpacking

- Carefully remove the loudspeaker from its packaging.
- Inspect the unit for any signs of damage during transit. Contact your dealer immediately if damage is found.
- Retain the original packaging for future transport or storage.

4.2 Placement and Mounting

The ETX-12P offers flexible placement options:

- **Floor Mount:** Place the loudspeaker directly on a stable floor surface. The cabinet design allows for use as a floor monitor.
- **Tripod Mount:** Utilize the integrated pole cup on the bottom of the unit for mounting on a standard speaker tripod stand. Ensure the stand is rated for the loudspeaker's weight (approximately 60 lbs).

Figure 4.1: Bottom View with Pole Mount.

This image shows the underside of the ETX-12P, clearly displaying the receptacle for pole mounting on a tripod stand. This feature allows for elevated sound projection.

- **Suspension:** The loudspeaker can be suspended using appropriate rigging hardware. Consult a qualified professional for suspended installations to ensure safety and compliance with local regulations.

4.3 Connections

- **Audio Input:** Connect your audio source (mixer, instrument, etc.) to the XLR input connectors on the rear panel. The ETX-12P supports balanced XLR connections.
- **Audio Output:** Use the XLR output connector to link multiple ETX series loudspeakers or send the signal to another audio device.
- **Power:** Connect the supplied power cord to the AC inlet on the rear panel, then plug it into a suitable grounded electrical outlet. Ensure the power switch is in the OFF position before connecting to power.

5. OPERATING INSTRUCTIONS

The ETX-12P features an intuitive DSP interface for precise sound control.

5.1 Powering On/Off

- To power on, ensure all audio connections are made and input levels are at minimum. Flip the power switch on the rear panel to the ON position.
- To power off, reduce input levels, then flip the power switch to the OFF position.

5.2 DSP Control

The integrated DSP is controlled via the single-knob interface and LCD screen on the rear panel. Rotate the knob to navigate menus and press to select options.

- **Mode Selection:** Choose from various presets optimized for different applications (e.g., Music, Speech, Live).
- **Location Settings:** Adjust for placement (e.g., Pole, Monitor, Suspend) to optimize frequency response.
- **Subwoofer Integration:** Select appropriate crossover settings when used with an ETX series subwoofer.
- **EQ:** Fine-tune the frequency response to suit your environment or preference.
- **Delay:** Apply delay for proper time alignment in multi-speaker setups.

- **Limiting:** The DSP includes an intelligent limiting function to protect the drivers from excessive signal levels.

5.3 Input Level Adjustment

Adjust the input level knob on the rear panel to achieve the desired volume without clipping. Monitor the signal indicator lights on the LCD to avoid distortion.

6. MAINTENANCE

Regular maintenance helps prolong the life and performance of your ETX-12P loudspeaker.

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the loudspeaker. Do not use abrasive cleaners, solvents, or waxes.
- **Grille:** Periodically check the front grille for dust or debris accumulation. A soft brush or vacuum cleaner can be used to gently remove particles.
- **Connections:** Ensure all cables are securely connected and free from damage.
- **Storage:** When not in use for extended periods, store the loudspeaker in a dry, temperature-controlled environment, ideally in its original packaging or a protective cover.

7. TROUBLESHOOTING

If you encounter issues with your ETX-12P, refer to the following common troubleshooting steps.

Problem	Possible Cause	Solution
No sound output	No power; Input level too low; Faulty cable; Muted source.	Check power connection and switch; Increase input level; Test cables; Verify audio source is active.
Distorted sound	Input signal too high (clipping); DSP settings incorrect; Damaged driver.	Reduce input level from source or on loudspeaker; Check DSP EQ/mode settings; Contact service if driver damage is suspected.
Loudspeaker not powering on	No power to outlet; Faulty power cord; Internal fuse blown.	Check power outlet with another device; Inspect power cord for damage; Contact service for fuse replacement.
Unexpected noise/hum	Ground loop; Unshielded cables; Interference.	Ensure all equipment is on the same electrical circuit; Use balanced, shielded cables; Isolate from other electronic devices.

If the problem persists after attempting these solutions, please contact Electro-Voice customer support or a qualified service technician.

8. SPECIFICATIONS

Detailed technical specifications for the Electro-Voice ETX-12P powered loudspeaker.

Feature	Specification
Model Name	ETX-12P

Feature	Specification
Speaker Type	Portable, 2-Way Full Range Powered Loudspeaker
Woofer Diameter	12 Inches
Tweeter Diameter	1.25 Inches
Speaker Maximum Output Power	2000 Watts
Frequency Response	Up to 20 KHz
Connectivity Technology	XLR
Audio Output Mode	Mono
Mounting Type	Floor Mount, Tripod Mount, Freestanding
Product Dimensions (D x W x H)	15" x 16" x 24"
Item Weight	60 Pounds
Power Source	Corded Electric
Included Components	Loudspeaker
UPC	800549769303, 800549738897

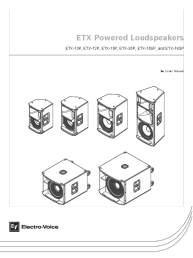

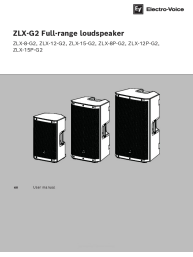

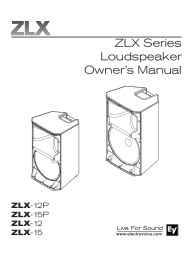

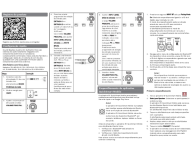

Figure 8.1: Dimensions. This image provides a rear view of the ETX-12P loudspeaker with its key dimensions (height, width, depth) clearly indicated, aiding in planning for placement and transport.

9. WARRANTY AND SUPPORT

The Electro-Voice ETX-12P loudspeaker comes with a limited warranty. Please refer to the warranty card included with your product or visit the official Electro-Voice website for detailed terms and conditions.

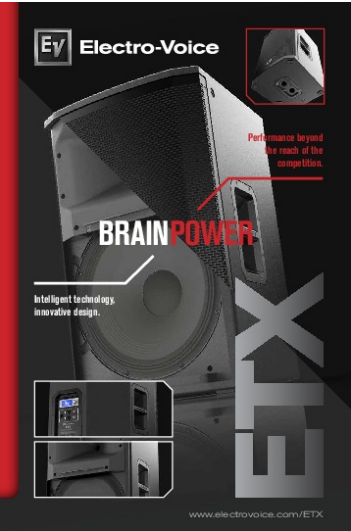

For technical support, service inquiries, or further assistance, please contact Electro-Voice customer service through their official website or the contact information provided in your product documentation. When contacting support, please have your product model number (ETX-12P) and serial number available.
