

## First Alert P910

# First Alert P910 10-Year Maximum Protection Photoelectric Smoke and Fire Detector

Model: P910 | Brand: First Alert

## INTRODUCTION

---

The First Alert P910 Photoelectric Smoke and Fire Detector is designed to provide continuous protection against smoke and fire hazards in your home. Featuring a 10-year sealed lithium battery, this alarm eliminates the need for battery replacements for the life of the unit, offering hassle-free operation and peace of mind. Its photoelectric sensing technology is optimized to detect slow, smoldering fires and reduce nuisance alarms from cooking smoke or steam.

## IMPORTANT SAFETY INFORMATION

---

Please read this manual thoroughly before installation and use. Keep this manual for future reference. This smoke alarm is designed for residential use only. It is not intended for use in non-residential buildings or for commercial or industrial applications.

- **Do not paint** the smoke alarm. Paint can clog the openings and interfere with the sensor's ability to detect smoke.
- **Do not install** in locations where the temperature is below 40°F (4.4°C) or above 100°F (37.8°C).
- **Do not install** in locations where humidity is below 10% or above 95% relative humidity (non-condensing).
- **Test the smoke alarm weekly** to ensure proper operation.
- **Never ignore a smoke alarm.** Investigate the cause of any alarm and take appropriate action.

## PRODUCT FEATURES

---

- **10-Year Sealed Battery:** Eliminates battery replacements for the life of the alarm.
- **Photoelectric Sensor:** Optimized for detecting slow, smoldering fires and reducing nuisance alarms.
- **Patented Smoke Entry System:** Allows for a direct path to the photoelectric smoke sensor, enhancing detection efficiency.
- **Sleek, Compact Design:** Modern aesthetic that blends seamlessly with home decor.
- **Compliance:** Meets current 10-year legislation requirements in applicable states/cities.

# Patented Smoke Entry System

Allows for direct path  
to smoke sensor to reduce false alarms.

## PACKAGE CONTENTS

---

Your First Alert P910 package includes:

- 1 x First Alert P910 Photoelectric Smoke and Fire Detector
- Mounting Bracket
- Mounting Hardware (screws and anchors)
- User Manual (this document)

## SETUP AND INSTALLATION

---

Proper placement and installation are crucial for the effective operation of your smoke alarm. Follow these guidelines:

1. **Choose the Right Location:** Install at least one smoke alarm on every level of your home, including basements and in every bedroom. For best protection, install alarms in hallways outside of sleeping areas.
2. **Avoid Problem Areas:** Do not install near windows, doors, or forced-air vents where drafts could interfere with smoke reaching the alarm. Keep alarms at least 20 feet (6 meters) away from appliances that produce combustion particles (furnaces, water heaters, space heaters) and cooking appliances.
3. **Mounting:**
  - For ceiling mounting, place the alarm in the center of the ceiling.
  - For wall mounting, the top of the alarm should be between 4 and 12 inches (10 and 30 cm) from the ceiling.
4. **Installation Steps:**

- Attach the mounting bracket to the ceiling or wall using the provided screws and anchors.
- Align the alarm with the mounting bracket and twist clockwise until it locks into place.
- The alarm will activate automatically once mounted.

## OPERATING INSTRUCTIONS

---

## Testing the Alarm

Test your smoke alarm weekly to ensure it is functioning correctly.

1. Press and hold the Test/Silence button on the alarm cover.
2. The alarm will sound a loud, pulsating alarm. This indicates the alarm is working.
3. Release the button. The alarm will stop.

If the alarm does not sound during testing, refer to the Troubleshooting section.

## Silencing a Nuisance Alarm

If a non-emergency situation (e.g., cooking smoke) causes the alarm to sound, you can temporarily silence it:

1. Press the Test/Silence button.
2. The alarm will enter a temporary silence mode for approximately 10 minutes.
3. The alarm will automatically reset after the silence period if the smoke has cleared. If smoke is still present, the alarm will reactivate.

**Caution:** Do not use the silence feature for actual fire conditions. Always evacuate immediately if a real fire is suspected.

## MAINTENANCE

### Cleaning Your Smoke Alarm

Clean your smoke alarm at least once a month to remove dust and debris that can interfere with its operation.

- Use a soft brush attachment on your vacuum cleaner to gently vacuum the alarm's cover and vents.
- Do not use water, cleaners, or solvents, as they may damage the unit.
- Do not paint the alarm.

### Battery Information

The First Alert P910 is equipped with a sealed 10-year lithium battery. This battery is designed to power the alarm for its entire lifespan under normal operating conditions. The battery is not replaceable. When the alarm reaches the end of its 10-year life, it will chirp periodically to indicate it needs to be replaced. Replace the entire unit at this time.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Alarm sounds frequently without apparent smoke.	Nuisance alarms from cooking, steam, or humidity. Dust or debris in the alarm.	<ul style="list-style-type: none"><li>• Relocate the alarm further from cooking areas or bathrooms.</li><li>• Clean the alarm as described in the Maintenance section.</li><li>• Use the silence feature if appropriate.</li></ul>

Problem	Possible Cause	Solution
Alarm does not sound during testing.	Unit not properly activated or faulty.	<ul style="list-style-type: none"><li>• Ensure the alarm is correctly twisted onto its mounting bracket.</li><li>• If still unresponsive, the unit may be faulty and needs replacement.</li></ul>
Alarm chirps periodically (e.g., once every 30-60 seconds).	End-of-life warning.	<ul style="list-style-type: none"><li>• The alarm has reached the end of its 10-year lifespan. Replace the entire unit immediately.</li></ul>

## SPECIFICATIONS

---

Model Number	P910
Sensor Type	Photoelectric
Power Source	Sealed 10-Year Lithium Battery (3V)
Alarm Type	Audible
Operating Temperature	40°F (4.4°C) to 100°F (37.8°C)
Operating Humidity	10% to 95% Relative Humidity (non-condensing)
Dimensions (LxWxH)	12.5 x 2.44 x 12.5 cm (approx.)
Weight	204 g (approx.)
Color	White
Manufacturer	Jarden Safety
UPC	029054012203

## WARRANTY AND SUPPORT

---

### 10-Year Limited Warranty

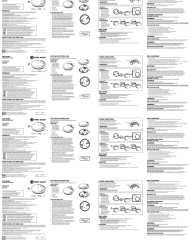

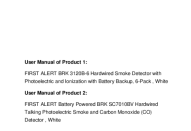

First Alert provides a 10-year limited warranty on this smoke alarm from the date of purchase. This warranty covers defects in materials and workmanship under normal use and service. The warranty does not cover damage resulting from accident, misuse, abuse, or lack of reasonable care of the product. For full warranty details, please refer to the documentation included with your product or contact customer support.

### Customer Support

For technical assistance, warranty claims, or general inquiries, please contact First Alert Customer Support. Contact information can typically be found on the product packaging or the official First Alert website.
