Laurastar Lift White Steam Iron User Manual

Model: 000.0603.511

Brand: Laurastar

1. INTRODUCTION

The Laurastar Lift White Steam Iron is a versatile 3-in-1 appliance designed for ironing, steaming, and textile purification. Its compact and lightweight design, featuring a convenient handle, allows for easy portability and use on various surfaces, from traditional ironing boards to hanging garments. The professional soleplate delivers ultra-fine, powerful steam suitable for all fabric types, ensuring perfect results with ease.

This manual provides essential information for the safe and effective operation, maintenance, and troubleshooting of your Laurastar Lift White Steam Iron.

2. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the appliance and retain them for future reference.

- Always unplug the appliance from the electrical outlet when not in use, before filling or emptying the water tank, and before cleaning.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Keep the appliance out of reach of children and pets.
- Use the appliance only on a stable, heat-resistant surface.
- Do not touch hot surfaces. Use handles or knobs. Steam is hot and can cause burns.
- Never direct steam towards people or animals.
- Do not operate the appliance with a damaged cord or plug, or if it has been dropped or damaged. Contact authorized service personnel for repair.
- Use only distilled or demineralized water in the water tank to prevent mineral buildup.

4. SETUP

4.1 Unpacking

Carefully remove all components from the packaging. Ensure all parts are present and undamaged. Keep packaging for future storage or transport.

4.2 Filling the Water Tank

1. Remove the water tank from the main unit.
2. Fill the tank with distilled or demineralized water. The Laurastar Lift includes an anti-scale filter to help maintain water quality.
3. Replace the water tank securely into the unit.

4.3 Positioning the Unit

Place the Laurastar Lift on a stable, flat, and heat-resistant surface, such as an ironing board or a dedicated stand. Ensure adequate space around the unit for ventilation and safe operation.

4.4 Connecting to Power

Plug the power cord into a grounded electrical outlet. The unit is now ready for operation.

5. OPERATING INSTRUCTIONS

5.1 Powering On and Heating Up

Press the power button. The Laurastar Lift will be ready to iron and steam in approximately 3 minutes.

5.2 Ironing

For traditional ironing on a board, glide the professional iron over your garments. The continuous steam pressure and ultra-fine DMS (Dry Microfine Steam) ensure perfect results on all fabrics and colors in a single movement.

5.3 Steaming Hanging Garments

The Laurastar Lift is also effective for steaming fabrics directly on a hanger. Simply hold the iron near the garment and activate the steam. This is ideal for quick touch-ups or delicate items.

5.4 Textile Purification (DMS Steam)

The Laurastar DMS (Dry Microfine Steam) purifies fabrics by eliminating dust mites, bacteria, and fungi that are resistant to lower temperature washing cycles. This feature contributes to a healthier environment for your textiles.

5.5 Dual-Shut-Off Mode

The appliance features a dual-shut-off mode: a 10-minute auto-shut-off for safety and energy saving, or a continuous-on mode for extended use. Refer to the control panel for mode selection.

5.6 Using the Protective Soleplate

A protective soleplate is included for use with delicate fabrics that require lower heat or no direct contact with the iron's metal soleplate. Attach it to the iron as per the instructions provided with the accessory.

6. MAINTENANCE

6.1 Anti-Scale Filter

The anti-scale filter helps prevent mineral buildup. Replace the filter periodically as indicated by the appliance or when steam output decreases. Refer to the filter packaging for specific replacement instructions.

6.2 Draining the Water Tank

After each use, or before storing for an extended period, empty any remaining water from the tank to prevent stagnation and mineral deposits.

6.3 Cleaning the Soleplate

Allow the iron to cool completely. Wipe the soleplate with a damp cloth. For stubborn residue, use a specialized iron soleplate cleaner, following the product's instructions. Do not use abrasive cleaners or scouring pads.

6.4 Storage

Thanks to its unique ergonomics, the Laurastar Lift is portable and easy to move around and put away. Ensure the unit is cool and empty before storing. Wrap the cord neatly and store the iron securely on its base.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No steam output	Water tank empty; unit not heated; anti-scale filter clogged.	Refill water tank; wait for unit to heat up (approx. 3 min); replace anti-scale filter.
Water leaking from iron	Iron not hot enough; excessive steam use at low temperature.	Allow iron to reach full temperature before use; reduce steam output for delicate fabrics.
Unit does not power on	Not plugged in; power outlet issue; auto-shut-off activated.	Check power connection; test outlet with another appliance; press power button to reactivate.

If the problem persists after attempting these solutions, please contact Laurastar customer support for assistance.
