SmartGames SG 450US

SmartGames Cats & Boxes Travel Game Instruction Manual

Model: SG 450US

PRODUCT OVERVIEW

The SmartGames Cats & Boxes Travel Game is a single-player logic puzzle designed to challenge players aged 7 to adult. This compact and portable game features 60 unique challenges, encouraging the development of concentration, problem-solving, and deduction skills. The objective is to strategically move the game pieces to hide all the cats inside the boxes.

60 CHALLENGES
EASY TO EXPERT

Image: A close-up of the game board with cat figures and box pieces set up for a challenge, as indicated in the challenge booklet.

The orientation of the cats does not matter for gameplay, only their position on the board. The puzzle pieces (boxes) must be placed back on the game board after being moved, and they can be rotated to fit the available space. Only the boxes will fit on top of the cats.

Image: A visual guide demonstrating the initial setup of the game pieces based on a challenge, and the subsequent steps to solve it by moving the box pieces.

GAMEPLAY

The objective of Cats & Boxes is to move the four puzzle pieces (boxes) around the game board until all five cat figures are hidden inside a box. You can only move one box piece at a time. The cats themselves cannot be moved directly. The challenges are designed with increasing difficulty, from Starter to Wizard, requiring a minimum number of moves to solve. The challenge booklet provides the solution for each puzzle, indicating the sequence of moves required to hide all the cats.

Video: An official demonstration by Smart Toys and Games on how to play the Cats & Boxes game, including setting up challenges and moving pieces to solve them.

Each challenge has a unique solution. While the booklet indicates the shortest path to the solution, players are encouraged to experiment and find their own ways to solve the puzzles.

CHALLENGES AND DIFFICULTY LEVELS

The game includes 60 challenges categorized into five difficulty levels:

Starter: Introduces basic concepts and simpler moves.

Junior: Slightly more complex, requiring a few more strategic moves.

Expert: Challenges that demand careful planning and foresight.

Master: Advanced puzzles with longer sequences of moves.

Wizard: The most difficult challenges, requiring significant logical deduction and many moves to solve.

The challenge booklet provides diagrams for each setup and the corresponding solution. The number of moves required for each solution increases with difficulty, with the hardest challenges requiring up to 33 moves.

Image: An open challenge booklet displaying various puzzle configurations and their corresponding solutions, organized by difficulty.

SPECIFICATIONS

Feature	Detail
Product Dimensions	9.45 x 1.77 x 6.69 inches
Item Weight	0.88 ounces
Item Model Number	SG 450US
Manufacturer Recommended Age	7 years and up
Country of Origin	China
Manufacturer	Smart Toys and Games

Number of Challenges	60
