Goliath Domino Express Octopus Menace Construction Set User Manual

Model: 80960.004

INTRODUCTION

Welcome to the exciting world of Goliath Domino Express Octopus Menace! This construction set allows you to build intricate domino tracks and trigger thrilling chain reactions involving an octopus and a shipwreck. This manual provides essential information for assembly, operation, and care of your set, ensuring a fun and engaging experience.

Dive into the depths to discover the Captain's shipwreck and search for lost treasure! But beware of Octopus, the formidable octopus!

SAFETY INFORMATION

Please read all safety instructions before use. Failure to follow these instructions may result in injury or damage to the product.

- **Recommended Age:** This product is suitable for children aged 6 years and older.
- **Small Parts:** The set contains small parts which may pose a choking hazard for children under 3 years. Adult supervision is recommended.
- **Assembly:** Adult assistance may be required for initial assembly.
- **Material:** The components are made of plastic. Avoid exposing them to extreme temperatures or direct sunlight for prolonged periods to prevent warping or damage.
- **Usage:** Use the product on a flat, stable surface to ensure proper domino fall and mechanism activation.

PACKAGE CONTENTS

Carefully unpack all components and verify that all items are present.

- Dominoes (approximately 200 pieces)
- Octopus mechanism
- Shipwreck mechanism
- Various track pieces and accessories
- Instruction manual (Carte)

SETUP

Follow these steps to set up your Domino Express Octopus Menace course:

1. **Prepare the Play Area:** Choose a large, flat, and stable surface for your domino course.
2. **Assemble Mechanisms:**
 - **Octopus:** Position the octopus mechanism. Ensure its arms are free to move and the trigger is accessible for a falling domino.
 - **Shipwreck:** Assemble the shipwreck according to the included instructions. Place it in your desired location. Ensure any movable parts, like the treasure chest or flag, are correctly set to be activated by dominoes.
3. **Lay the Dominoes:**
 - Carefully place the dominoes upright, one after another, creating a path.
 - Ensure there is enough space between dominoes for them to fall without knocking over adjacent ones prematurely.
 - Design your course to lead dominoes towards the trigger points of the octopus and shipwreck mechanisms.
4. **Connect the Course:** Use the various track pieces and connectors to guide your dominoes and create ramps or turns as desired.

Image 3: An aerial perspective of the game board, illustrating the potential layout of the domino track and the interactive elements like the octopus and shipwreck.

OPERATING INSTRUCTIONS

Once your Domino Express course is fully set up, it's time to initiate the chain reaction!

1. **Start the Chain:** Gently push the first domino in your sequence.
2. **Observe the Reaction:** Watch as the dominoes fall, creating a continuous chain.
3. **Activate Mechanisms:**
 - When a domino hits the octopus trigger, the octopus will perform its action (e.g., spin, move arms).
 - When a domino hits the shipwreck trigger, the shipwreck mechanism will activate (e.g., open a treasure chest, raise a flag).
4. **Reset:** After the chain reaction is complete, carefully reset all dominoes and mechanisms to play again.

MAINTENANCE

Proper care will extend the life of your Domino Express set.

- **Cleaning:** Wipe components with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store all parts in their original packaging or a suitable container in a cool, dry place away from direct sunlight.

- **Inspection:** Periodically inspect all parts for wear or damage. Discontinue use if any parts are broken or compromised.

TROUBLESHOOTING

If you encounter issues with your Domino Express set, try the following solutions:

- **Dominoes Not Falling:**
 - Ensure dominoes are placed on a perfectly flat surface.
 - Check the spacing between dominoes; they should be close enough to trigger the next, but not so close they fall prematurely.
 - Verify that no obstacles are blocking the domino path.
- **Mechanisms Not Activating:**
 - Ensure the domino hitting the mechanism's trigger has enough force and is correctly aligned.
 - Check if the mechanism itself is properly assembled and its moving parts are not obstructed.
 - Some mechanisms might require a specific type or weight of domino to trigger effectively.
- **Parts Seem Fragile:**
 - Handle all plastic components with care during assembly and play.
 - Avoid excessive force when connecting pieces.

SPECIFICATIONS

Brand	Goliath
Model Number	80960.004
Product Name	Domino Express Octopus Menace
Material	Plastic
Color	Blue, White and Orange
Recommended Age	6 years and up
Number of Players	1
Educational Objective	Develop strategic thinking
Operation Mode	Manual
