nanoblock Arc de Triomphe de l'Étoile NBH_075 Instruction Manual

Brand: KAWADA | Model: NBH_075

1. Introduction

This manual provides detailed instructions for assembling the nanoblock Arc de Triomphe de l'Étoile (Model NBH_075) building set. Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

The nanoblock Arc de Triomphe de l'Étoile is a miniature building set that allows you to construct a detailed replica of the iconic French monument. This set is designed for builders aged 12 years and up, with a difficulty level of 2 (on a scale where 1 is easiest and 5 is hardest).

2. Safety Information

- **Choking Hazard:** This product contains small parts and is not suitable for children under 3 years of age. Keep all parts away from infants and young children.
- **Adult Supervision:** Adult supervision is recommended for younger builders (12-14 years old) due to the small size of the blocks.
- **Handling:** Handle blocks carefully to avoid loss. Store unused blocks in a secure container.
- **Intended Use:** This product is a building toy. Do not use it for any other purpose.

3. Package Contents

Verify that all components are present before starting assembly. The nanoblock Arc de Triomphe de l'Étoile NBH_075 set includes:

- Approximately 490 nanoblock pieces (various colors and shapes)
- Detailed instruction sheet (visual guide)
- One nanoblock Arc de Triomphe de l'Étoile model (when assembled)

If any parts are missing or damaged, please contact KAWADA customer support.

4. Assembly Instructions

Follow the step-by-step visual instructions provided in the included instruction sheet. The assembly process involves connecting the micro-sized blocks to form the Arc de Triomphe.

1. **Preparation:** Open the package and carefully sort the nanoblock pieces by color and shape. This will make the assembly process easier.

2. **Foundation:** Begin by constructing the base of the Arc de Triomphe as shown in the first steps of the instruction sheet. Ensure the foundation is stable.
3. **Layer by Layer:** Proceed with building layer by layer, following the diagrams precisely. Pay close attention to the placement of each block, as nanoblocks are very small (minimum size 4x4mm).
4. **Archway Construction:** Carefully assemble the archway sections, ensuring they align correctly to form the central opening.
5. **Detailing:** Add the decorative elements and the top structure as indicated in the later steps.
6. **Completion:** Once all blocks are placed, gently press down on the entire model to ensure all connections are secure.

Tip: Use tweezers (not included) for precise placement of smaller blocks if needed.

5. Display and Handling

Once assembled, your nanoblock Arc de Triomphe de l'Étoile is ready for display.

- **Placement:** Place the model on a flat, stable surface away from direct sunlight, excessive heat, or moisture.
- **Handling:** When moving the model, support it from the base to prevent accidental disassembly. Avoid dropping or applying excessive force.
- **Interaction:** While durable, nanoblock models are not designed for rough play. They are primarily for display and light handling.

6. Maintenance

To keep your nanoblock model looking its best:

- **Cleaning:** Dust the model regularly with a soft, dry brush or a can of compressed air.
- **Deep Cleaning:** For more thorough cleaning, gently wipe with a slightly damp cloth. Do not immerse the model in water or use harsh cleaning agents.
- **Storage:** If disassembling for storage, keep all blocks organized in a sealed container to prevent loss.

7. Troubleshooting

- **Missing Pieces:** If you believe pieces are missing, double-check the packaging and your work area. nanoblocks are very small and can be easily overlooked. If still missing, contact KAWADA customer support.
- **Difficulty Assembling:** Refer to the instruction sheet carefully. Ensure blocks are oriented correctly and pressed firmly into place. Sometimes, a small error in an earlier step can affect later assembly.
- **Model Instability:** Ensure all blocks are securely connected. If parts feel loose, gently press them together.
