Hamzer 21537925

Hamzer Heavy Duty Single-X Shape Piano Keyboard Stand

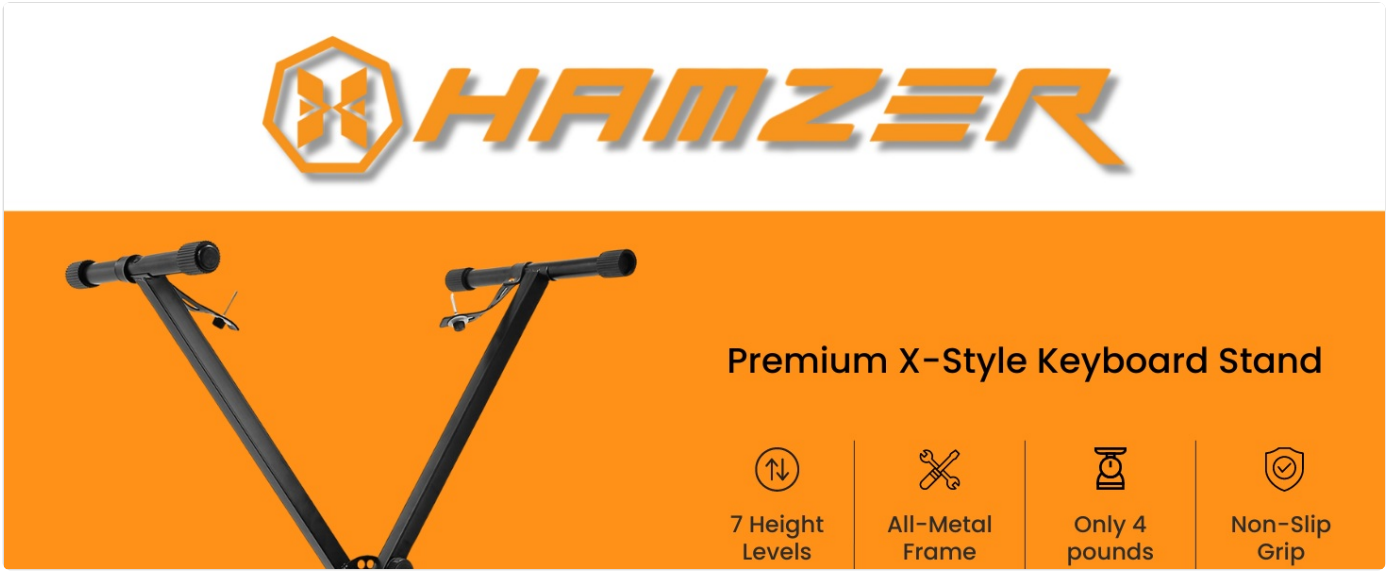

Model: 21537925

Introduction

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your Hamzer Heavy Duty Single-X Shape Piano Keyboard Stand. Designed for durability and portability, this stand offers a stable and adjustable platform for most major keyboard brands.

Product Features

- **X-Frame Design:** Heavy-duty all-metal construction ensures a sturdy and reliable platform.
- **Adjustable Height:** Features 7 different height adjustment positions to accommodate various playing styles, whether standing or sitting.
- **Secure Support:** Includes two durable straps to secure your keyboard to the stand, preventing movement during use.
- **Non-Slip Protection:** Equipped with non-slip end-caps on both the top (for the keyboard) and bottom (for the floor) to enhance stability and protect surfaces.
- **Portability:** Slim-line design allows for quick folding for transport and easy unfolding for setup.
- **Easy Assembly:** Lightweight yet solid design facilitates straightforward assembly and disassembly.

The Hamzer X-Style Keyboard Stand features 7 height levels, an all-metal frame, a lightweight design, and non-slip grip for stability.

Specifications

Attribute	Detail
Brand	Hamzer
Model Number	21537925
UPC	609728832476
Material	Metal
Color	Black
Shape	Single-X Shape
Number of Height Levels	7
Product Dimensions (L x W x H)	33 x 33 x 27 inches (fully extended)
Item Weight	3.75 pounds
Assembly Required	Yes
Country of Origin	China

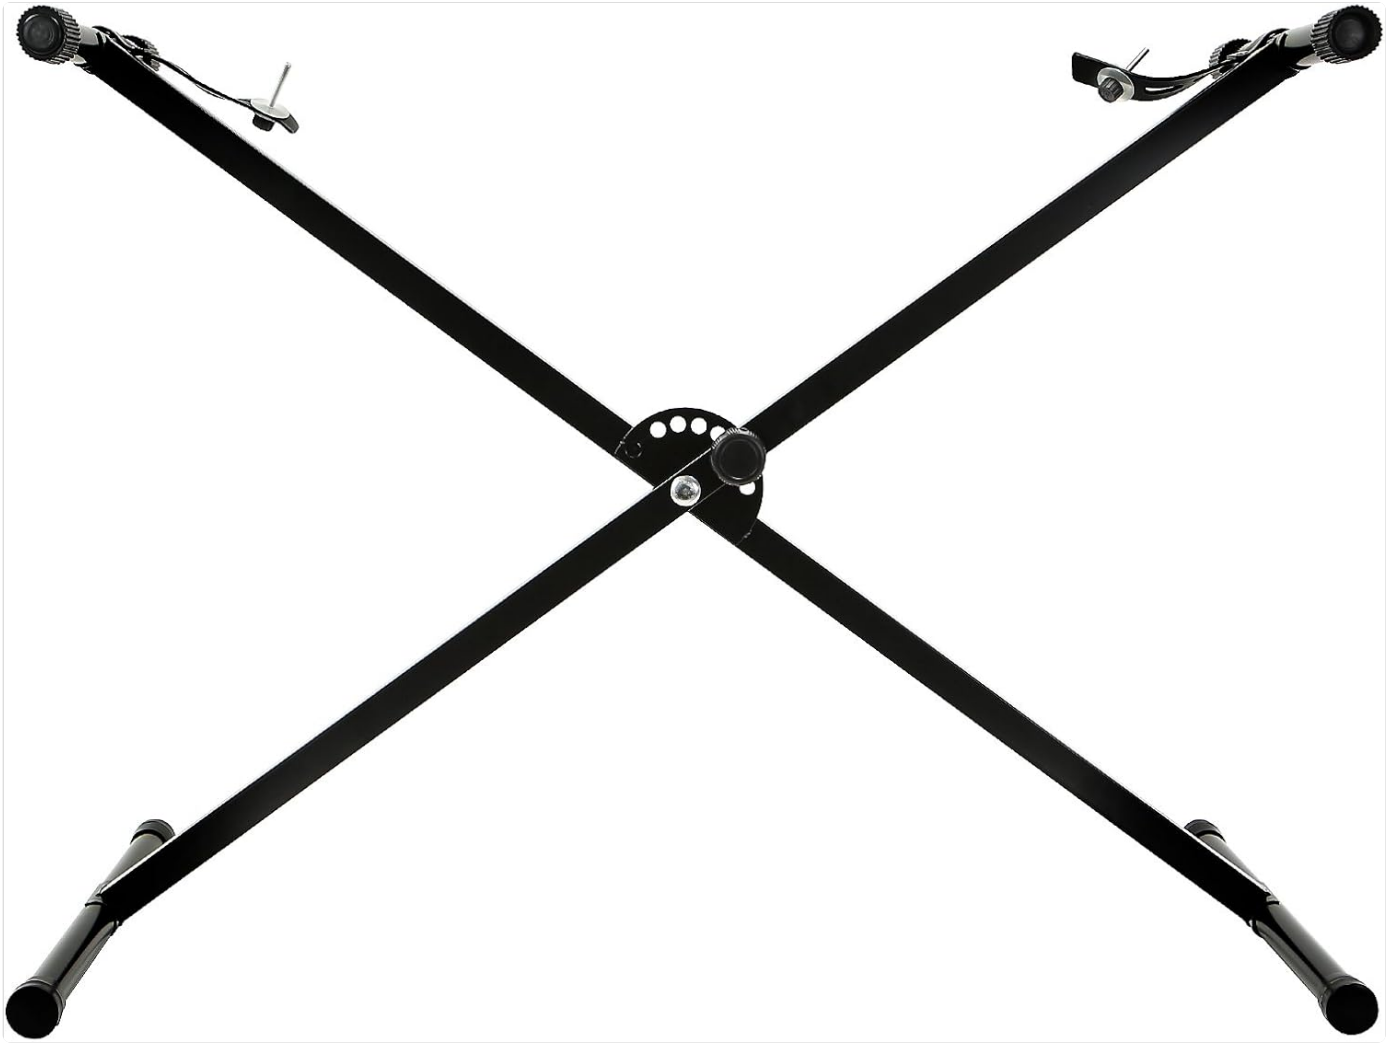

Setup and Assembly

The Hamzer Keyboard Stand requires minimal assembly. Follow these steps for quick and easy setup:

1. Unpack all components from the packaging. You should have the main X-frame, two top support bars, two bottom support bars, and a bag of screws and a wrench.
2. Identify the two bottom stands (marked with a specific identifier, usually a number or letter in the instructions) and align them with the two feet of the X-framework. Secure them using the provided screws and wrench.
3. Identify the two top support bars and align them with the two top points of the X-framework. Secure them using the provided screws and wrench.
4. Ensure all screws are tightened securely for stability.

The assembled Hamzer keyboard stand, ready for use.

The stand folds compactly for easy storage and transport.

Operating Instructions

Adjusting Height

The stand features a central adjustment mechanism to change its height. To adjust:

1. Locate the adjustment knob at the center pivot point of the X-frame.
2. Pull the knob outwards to disengage the locking pin from its current height setting.
3. While holding the knob out, adjust the X-frame to your desired height. The stand will expand or contract.
4. Once at the desired height, release the knob, ensuring the locking pin securely engages into one of the 7 available holes.
5. Gently test the stand's stability before placing your keyboard on it.

The central knob allows for quick and easy height adjustments.

Securing Your Keyboard

To ensure your keyboard remains stable and secure on the stand:

1. Place your keyboard carefully on the top support bars of the stand.
2. Utilize the two durable locking straps provided. These straps are designed to attach to your keyboard and the stand, preventing accidental dislodgement.
3. Ensure the non-slip end-caps on the top support bars are properly positioned under your keyboard for maximum grip.

The durable straps help secure your keyboard to the stand.

Maintenance

To ensure the longevity and optimal performance of your Hamzer Keyboard Stand, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the metal frame with a soft, damp cloth to remove dust and dirt. Avoid abrasive cleaners or solvents that could damage the finish.
- **Inspections:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary.
- **Lubrication:** If the height adjustment mechanism becomes stiff, apply a small amount of silicone-based lubricant to the moving parts and pivot points.
- **Storage:** When not in use, fold the stand and store it in a dry place away from extreme temperatures or humidity to prevent rust or material degradation.

Troubleshooting

Here are some common issues and their solutions:

- **Stand feels wobbly:**
  - Ensure all assembly bolts are securely tightened.
  - Verify that the height adjustment locking pin is fully engaged in one of the holes.
  - Check that the non-slip caps on the feet are intact and making full contact with the floor.
- **Keyboard slides on the stand:**
  - Ensure the non-slip end-caps on the top support bars are clean and free of debris.
  - Utilize the provided locking straps to secure the keyboard to the stand.
- **Height adjustment is difficult:**
  - Ensure the adjustment knob is pulled out completely before attempting to change height.
  - Apply a small amount of silicone lubricant to the pivot points and the locking pin mechanism.

Warranty and Support

For warranty information or technical support regarding your Hamzer Heavy Duty Single-X Shape Piano Keyboard Stand, please refer to the warranty card included with your purchase or visit the official Hamzer website. Keep your purchase receipt for warranty claims.
