KEY FEATURES

- **30,000 BTU Stainless Steel Burner:** Provides ample heat for outdoor comfort.
- **Hidden Control Panel with Electronic Ignition:** Ensures a clean look and easy, reliable startup.
- **Slate Tile Mantel with Steel Bowl and Wicker Base Design:** Offers a sophisticated aesthetic and sturdy construction.
- **Includes Lava Rock:** Enhances the flame appearance and distributes heat.
- **LP Tank Not Included:** Requires a standard liquid propane tank (sold separately).
- **Durable Construction:** Made from alloy steel with a matte finish for longevity.

SETUP AND ASSEMBLY

Assembly of the Endless Summer GAD1429SP Gas Outdoor Fireplace is designed to be straightforward. Ensure you have all components and tools before beginning. Typically, this involves attaching the legs to the main body, securing the burner assembly, and placing the lava rocks. The propane tank is housed within the base, accessible via a hinged door.

OPERATING INSTRUCTIONS

1. **Connect LP Tank:** Ensure the propane tank is securely connected to the regulator hose inside the fire pit's base.
2. **Open Gas Valve:** Slowly open the valve on the LP tank.
3. **Ignite Burner:** Locate the control knob on the hidden panel. Push the knob in and turn it counter-

clockwise to the 'HIGH' position. While holding the knob in, press the electronic igniter button repeatedly until the burner ignites.

4. **Adjust Flame:** Once lit, continue to hold the knob in for approximately 10-15 seconds to allow the thermocouple to heat up. Release the knob. If the flame goes out, repeat the ignition process. Adjust the flame height by turning the control knob between 'LOW' and 'HIGH'.
5. **Turn Off:** To turn off the fire pit, turn the control knob clockwise to the 'OFF' position. Close the valve on the LP tank.

Note: When using a new propane tank, it may take several attempts for the gas to purge air from the line and ignite.

MAINTENANCE AND CARE

- **Cleaning:** Regularly clean the exterior surfaces with a soft cloth and mild detergent. Avoid abrasive cleaners.
- **Lava Rock Care:** Ensure lava rocks are clean and free of debris. Replace if they become excessively worn or damaged.
- **Covering:** Always use a protective cover when the fire pit is not in use, especially during inclement weather or off-season storage. Ensure the unit is completely cool before covering.
- **Winter Storage:** If storing indoors, disconnect the LP tank and store it outdoors in a well-ventilated area.

The fire pit covered for protection when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Burner does not ignite	No gas flow; igniter issue; air in gas line	Check LP tank valve; ensure tank is not empty; bleed air from gas line by attempting ignition several times; check igniter battery.
Low flame	Low gas pressure; partially closed tank valve; regulator issue	Ensure LP tank valve is fully open; check for kinks in the gas hose; replace LP tank if empty.
Flame goes out after ignition	Thermocouple not heated sufficiently	Hold control knob in for 10-15 seconds after ignition to allow thermocouple to heat up.

PRODUCT SPECIFICATIONS

- **Model:** GAD1429SP
- **Brand:** Endless Summer
- **Material:** Alloy Steel
- **Product Dimensions (D x W x H):** 30"D x 30"W x 24.21"H
- **Style:** Weave Design Panels
- **Finish Type:** Matte
- **Shape:** Square
- **Item Weight:** 81.57 Pounds
- **Fuel Type:** Liquefied Petroleum Gas (LP)
- **BTU Output:** 30,000 BTU
- **UPC:** 728649750642
- **Manufacturer:** Blue Rhino Global Sourcing, Inc.
