Duravit VE621302222

Duravit VE621302222 Vero Wall-Mounted Vanity Unit Instruction Manual

Brand: Duravit | **Model:** VE621302222

1. INTRODUCTION

Thank you for choosing the Duravit VE621302222 Vero Wall-Mounted Vanity Unit. This unit is designed to provide a modern and functional storage solution for your bathroom. Featuring two spacious drawers and a sleek design, this vanity unit is intended for wall-mounted installation. This manual provides essential information for the safe installation, operation, and maintenance of your new vanity unit.

2. SAFETY INFORMATION

- Always read and understand all instructions before beginning installation or use.
- Ensure all mounting hardware is securely fastened to a structurally sound wall. Professional installation is highly recommended to prevent injury or damage to the unit.
- Do not overload drawers. Distribute weight evenly to maintain stability.
- Keep small children away from the installation area.
- Use appropriate personal protective equipment (e.g., safety glasses, gloves) during installation.
- If any parts are missing or damaged, do not proceed with installation. Contact customer support immediately.

3. PACKAGE CONTENTS

Please verify that all components are present and undamaged before proceeding with installation:

- Duravit VE621302222 Vero Wall-Mounted Vanity Unit (pre-assembled)
- Shelves (if applicable, for internal drawer organization)
- Mounting hardware (screws, wall anchors, brackets)
- Installation template (if provided)

4. SETUP AND INSTALLATION

This vanity unit is designed for wall-mounted installation and comes pre-assembled, meaning no internal assembly of the cabinet itself is required. Professional installation is strongly recommended.

4.1 Tools Required (Not Included)

- Drill
- Level
- Measuring Tape
- Pencil
- Stud Finder
- Screwdriver

4.2 Installation Steps

1. **Unpack and Inspect:** Carefully remove the vanity unit from its packaging. Inspect all components for any signs of damage.
2. **Prepare the Wall:** Use a stud finder to locate wall studs where the vanity will be mounted. Mark the desired height and position for the vanity unit on the wall, ensuring it is level.
3. **Mark Mounting Points:** Using the provided installation template (if any) or by measuring directly from the unit, mark the precise drilling points for the mounting brackets.
4. **Drill Pilot Holes:** Drill pilot holes at the marked locations. Ensure the drill bit size is appropriate for the wall anchors and screws provided.
5. **Install Mounting Brackets:** Securely attach the mounting brackets to the wall using the provided screws and wall anchors. Ensure they are level and firmly fixed.
6. **Mount the Vanity Unit:** Carefully lift the vanity unit and align its pre-installed hanging mechanisms with the wall-mounted brackets. Gently lower the unit onto the brackets until it is securely seated.
7. **Secure the Unit:** Use any additional securing screws or fasteners provided to firmly attach the vanity unit to the wall brackets, preventing any movement.
8. **Install Sink and Faucet (Sold Separately):** If installing a sink and faucet, follow their respective manufacturer's instructions. Ensure all plumbing connections are watertight.

5. OPERATION

The Duravit VE621302222 Vero Vanity Unit features two soft-closing drawers for convenient storage. To operate:

- **Opening Drawers:** Gently pull the drawer handles to open. The smooth runners ensure easy access

[to contents.](#)

- **Closing Drawers:** Push the drawers back into the unit. The soft-closing mechanism will engage, ensuring a quiet and gentle close, preventing slamming.
- **Weight Distribution:** Distribute items evenly within the drawers to maintain balance and prevent strain on the runners.

6. MAINTENANCE

Proper care will ensure the longevity and appearance of your Duravit vanity unit.

- **Cleaning Surfaces:** Wipe exterior and interior surfaces with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner specifically designed for bathroom furniture. Avoid harsh chemicals, abrasive pads, or solvents.
- **Spills:** Immediately wipe up any spills, especially water, to prevent moisture damage to the unit's finish.
- **Drawer Runners:** Periodically check drawer runners for smooth operation. If they become stiff, a small amount of silicone spray can be applied, but avoid over-lubrication.
- **Hardware:** Periodically check all screws and fasteners for tightness. Tighten if necessary, but do not overtighten.

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Drawers not closing smoothly:** Check for obstructions within the drawer or on the runners. Ensure the unit is level. If the issue persists, inspect the drawer runners for damage or misalignment.
- **Unit appears wobbly:** Re-check all wall mounting screws and brackets for tightness. Ensure the wall structure is sound. If necessary, consult a professional installer.
- **Surface marks/stains:** Refer to the cleaning instructions in Section 6. For persistent stains, consult a professional cleaning service or the manufacturer's recommendations for specific finish types.

8. SPECIFICATIONS
