2. **Inflate the Tube:** Locate the valve on the inflatable tube. Squeeze the valve with your fingers to open the anti-leaking slit and blow air into it until it is fully inflated.

where you intend to roll the puzzle.

4. Operating Instructions

1. **Assemble Your Puzzle:** Begin assembling your jigsaw puzzle directly on the felt mat. The black color of the mat provides excellent contrast for sorting and identifying puzzle pieces.
2. **Rolling the Puzzle:** When you need to store your puzzle, ensure all pieces are within the boundaries of the mat. Carefully roll the felt mat around the inflated tube, keeping the roll as tight and even as possible to prevent pieces from shifting.
3. **Securing the Roll:** Once the mat is fully rolled around the tube, use the two elastic bands to secure both ends of the roll. This keeps the puzzle compact and prevents it from unrolling.
4. **Unrolling the Puzzle:** To resume puzzling, unfasten the elastic bands and slowly unroll the mat onto a flat surface. Minor adjustments to displaced pieces may be necessary.
