4. Setup

1. **Prepare the USB Drive:** Ensure the USB drive is formatted correctly for your Janome embroidery machine. Refer to your specific machine's manual for recommended formatting (e.g., FAT32).
2. **Transfer Designs:** Connect the USB drive to your computer. Transfer your embroidery design files (e.g., .JEF, .DST) to the root directory or a designated folder on the USB drive. Ensure file names are compatible with your machine's requirements.
3. **Eject Safely:** Always safely eject the USB drive from your computer before physical removal to prevent data corruption.
4. **Insert into Machine:** Locate the USB port on your Janome embroidery machine. Carefully insert the Janome 64MB USB Drive into the port.

5. Operating Instructions

Once the USB drive is inserted into your Janome embroidery machine, follow these general steps to access and use your embroidery designs:

1. **Power On:** Turn on your Janome embroidery machine.
2. **Access USB Menu:** Navigate through your machine's display menu to find the option for "USB," "External Memory," or "Design Import." The exact terminology may vary by machine model.
3. **Select Design:** Browse the files and folders on the USB drive using the machine's controls. Select the desired embroidery design.
4. **Load Design:** Confirm your selection to load the design into the machine's memory.
5. **Begin Embroidery:** Once the design is loaded, you can proceed with your embroidery project according to your machine's standard operating procedures.

Note: For detailed, model-specific instructions on accessing and using USB drives, please consult the instruction manual provided with your Janome embroidery machine.

6. Maintenance

- **Physical Care:** Keep the USB drive clean and free from dust and moisture. Store it in a protective case when not in use.
- **Data Integrity:** Always safely eject the drive from both computers and embroidery machines to prevent data corruption.
- **Avoid Extreme Conditions:** Do not expose the drive to extreme temperatures, direct sunlight, or strong magnetic fields.
- **Regular Backups:** It is recommended to keep backups of your embroidery designs on a computer or other storage devices.

7. Troubleshooting

Issue: USB drive not recognized by the machine.

Solution:

- Ensure the drive is fully inserted into the USB port.
- Verify the drive is formatted correctly (e.g., FAT32).
- Check your machine's manual for specific USB compatibility requirements.
- Try restarting the embroidery machine.

Issue: Embroidery designs not appearing on the machine's display.

Solution:

- Confirm the design files are in a compatible format for your machine.
- Check if the designs are placed in the correct directory on the USB drive (e.g., root folder or a specific machine-required folder).
- Ensure file names do not contain special characters that might not be recognized by the machine.

Issue: Data transfer errors or slow performance.

Solution:

- Always safely eject the USB drive from your computer.
- Avoid interrupting data transfer processes.
- Ensure the USB port on your computer or machine is clean and undamaged.

8. Warranty and Support
