iHome iDL43S

iHome iDL95 Dual Charging Stereo FM Clock Radio User Manual

Model: iDL43S

Introduction

This manual provides comprehensive instructions for the setup, operation, and maintenance of your iHome iDL95 Dual Charging Stereo FM Clock Radio. This device features a Lightning Dock and a USB port for charging and playing audio from compatible Apple devices, along with an integrated FM clock radio.

Product Overview

Figure 1: The iHome iDL95 unit with an iPad docked. The clock display shows "10:09 PM" and "ALM 2 7:00AM". The unit is black with front-facing speakers and a central digital display.

The iHome iDL95 is designed to serve as a bedside companion, offering audio playback, alarm clock functionality, and charging capabilities for your Apple devices. It includes a built-in Lightning dock and an additional USB port for versatile charging and audio streaming.

Setup

1. Power Connection

1. Unpack the iHome iDL95 unit and all accessories from the packaging.
2. Connect the AC adapter to the DC jack located on the back of the unit.
3. Plug the AC adapter into a standard wall outlet. The unit will power on and the clock display will illuminate.

2. Setting the Clock

- Press and hold the **Time Set** button (location may vary, refer to physical unit for exact button).
- Use the **+/-** buttons to adjust the hour. Press **Time Set** again to confirm.
- Use the **+/-** buttons to adjust the minute. Press **Time Set** again to confirm.
- The clock is now set.

3. Connecting Your Device

- **Lightning Dock:** Carefully align your iPad, iPhone, or iPod with the Lightning connector on the top of the unit and gently push down until it is securely seated. The device should begin charging.
- **USB Port:** Connect your device's USB charging cable to the USB port on the back of the iDL95. Connect the other end of the cable to your device. This port also supports charging and audio playback for compatible devices.

Operating Instructions

1. FM Radio Operation

- Press the **Radio** button to turn on the FM radio.
- Press the **Tune +/-** buttons to manually tune to a station.
- Press and hold the **Tune +/-** buttons to auto-scan for the next available station.
- To save a preset station, press and hold a **Preset** button (e.g., P1, P2). Use **Tune +/-** to select the desired preset number, then press the **Preset** button again to confirm.

2. Alarm Settings

- The iDL95 features dual alarms. Press and hold either **Alarm 1** or **Alarm 2** button.
- Use the **+/-** buttons to set the alarm time. Press the **Alarm** button again to confirm.
- Select the alarm source (e.g., FM radio, docked device, tone) using the **Alarm** button.
- Adjust the alarm volume using the **Volume +/-** buttons.
- Press the **Alarm** button one more time to activate the alarm. An alarm icon will appear on the display.
- To snooze, press the **Snooze/Dimmer** button. To turn off the alarm, press the corresponding **Alarm** button.

3. Audio Playback

- **From Docked Device:** Once your Apple device is docked, select the desired audio source on your device. Audio will play through the iDL95 speakers.
- **From USB Connected Device:** For devices connected via USB, ensure the device is set to output audio through the USB connection if applicable.
- Adjust volume using the **Volume +/-** buttons on the iDL95 unit or on your connected device.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the unit. Do not use liquid cleaners or abrasive materials.
- **Dock Connector:** Keep the Lightning dock connector free of dust and debris to ensure proper connection and charging.
- **Placement:** Place the unit on a stable, level surface away from direct sunlight, heat sources, and excessive moisture.

Troubleshooting

Problem	Possible Cause	Solution
Unit does not power on.	Power adapter not connected or outlet is not active.	Ensure AC adapter is securely plugged into the unit and a working wall outlet.
Device not charging/playing.	Device not properly docked/connected; dirty connector; device case interfering.	Re-seat the device on the dock or re-connect the USB cable. Remove any bulky cases. Clean the device's charging port and the dock connector.
No sound from radio/device.	Volume too low; incorrect source selected; device audio settings.	Increase volume on both the iDL95 and the connected device. Ensure the correct audio source is selected on the iDL95.
Alarm not sounding.	Alarm not activated; volume too low; incorrect alarm time.	Verify alarm icon is displayed. Check alarm volume. Re-set alarm time.

Specifications

- **Model Number:** iDL43S
- **Product Dimensions:** 10 x 16 x 6 inches
