

Tramontina 80203/006DS

Tramontina 16.5-Inch Stainless Steel Deep Roasting Pan Instruction Manual

MODEL: 80203/006DS

Product Overview

The Tramontina 16.5-inch Deep Rectangular Roasting Pan is constructed from heavy-gauge 18/10 stainless steel, designed for durability and even heat distribution. It features deep straight walls to accommodate various recipes and minimize splattering. The pan includes a removable stainless steel basting grill and a V-shaped roasting rack. Riveted cast stainless steel handles ensure secure handling. This pan is oven-safe up to 500°F (260°C) and is dishwasher-safe.

Initial Setup and First Use

Unpacking

- Carefully remove all packaging materials, labels, and tags from the roasting pan and its components.

Cleaning Before First Use

- Wash the roasting pan, basting grill, and V-rack thoroughly with warm soapy water.
- Rinse all components completely and dry them immediately to prevent water spots.

Usage Instructions

Roasting Meats and Poultry

- Place the V-rack inside the roasting pan. Position the meat or poultry on the V-rack to allow for even cooking and collection of drippings below.
- For basting, the basting grill can be used if desired, or removed to allow direct access to the roast.
- Ensure the oven temperature does not exceed 500°F (260°C).

Using the Basting Grill and V-Rack

- The V-rack elevates food, promoting air circulation for even browning and allowing fats and juices to collect below for gravies or sauces.
- The basting grill can be used to hold smaller items or provide additional support for larger roasts.

Removable Stainless Steel Basting Grill & V-Rack

Handling

- Always use oven mitts or heat-resistant gloves when handling the hot roasting pan. The riveted cast stainless steel handles are designed for a secure and comfortable grip.

Cast Stainless Steel Handles

Care and Cleaning

Daily Cleaning

- Allow the pan to cool completely before cleaning to prevent warping and thermal shock.
- Wash with warm soapy water and a non-abrasive sponge or cloth.
- For stubborn food residues, soak the pan in warm soapy water for a period before cleaning. This helps loosen baked-on food.
- Rinse thoroughly and dry immediately to maintain the pan's finish.

Dishwasher Safe

- The roasting pan, basting grill, and V-rack are all dishwasher safe for convenient cleaning.

Storage

- Store the pan and its components in a dry place to prevent moisture buildup.

Troubleshooting

Food Sticking

- Ensure adequate oil or cooking spray is used, especially when roasting directly in the pan without the rack.
- Preheating the pan slightly before adding food can help prevent sticking.
- Avoid overcrowding the pan, which can lower the temperature and lead to steaming rather than proper roasting and browning.

Discoloration

- High heat or certain acidic foods can cause slight discoloration or blue/rainbow stains on stainless steel over time. This is normal and does not affect the pan's performance or safety.
- For minor discoloration, a specialized stainless steel cleaner can be used to restore shine.

Product Specifications

Feature	Detail
Material	18/10 Stainless Steel
Finish Type	Mirror Satin
Item Weight	8.1 Pounds
Model Number	80203/006DS
UPC	016017076150
Oven Safe Temperature	Up to 500°F / 260°C
Dishwasher Safe	Yes
Included Components	Roasting Pan, Basting Grill, Roasting Rack
