USAGE GUIDELINES

Serving Food

The plates and bowls are designed with slightly raised edges to help prevent food from spilling, making them ideal for young children learning to eat independently. The cutlery is sized for small hands, promoting ease of use.

Microwave Use

The IKEA Kalas tableware is microwave-safe. Food can be heated up to 100°C (212°F). Always exercise caution when removing items from the microwave as they may be hot. Ensure food is heated evenly and check temperature before serving to children.

- **Warping:** To prevent warping, avoid exposing the plastic to extreme heat beyond recommended temperatures (e.g., direct flame, very hot oven). Ensure items are placed correctly in the dishwasher to avoid contact with heating elements.
- **Durability:** While durable, repeated drops on hard surfaces over time may lead to cracks. Replace any damaged items to ensure safety.
