# Emtek 86151US10B Modern Finger Pull Instruction Manual

Model: 86151US10B

## 1. INTRODUCTION

This instruction manual provides detailed guidance for the installation, proper use, and maintenance of your Emtek 86151US10B Modern Finger Pull. Please read this manual thoroughly before installation and retain it for future reference to ensure optimal performance and longevity of your product.

## 2. PRODUCT OVERVIEW

The Emtek 86151US10B is a modern finger pull designed for cabinet hardware applications. It features a contemporary design and is constructed from durable brass with an Oil Rubbed Bronze finish. This pull is intended to provide a functional and aesthetic enhancement to your cabinetry.

### Key Features:

- Contemporary design suitable for modern interiors.
- Constructed from high-quality brass for durability.
- Oil Rubbed Bronze finish for a sophisticated appearance.
- Designed for cabinet applications.
- Includes necessary fasteners for installation.

**Figure 1:** Emtek 86151US10B Modern Finger Pull. This image displays the cylindrical shape of the finger pull with a crescent-shaped cutout for gripping, finished in a dark, oil-rubbed bronze.

### 3. INSTALLATION INSTRUCTIONS

Proper installation ensures the functionality and appearance of your finger pull. The Emtex 86151US10B includes all necessary fasteners.

#### Tools Required (Not Included):

- Measuring tape or ruler
- Pencil
- Drill with appropriate drill bit (typically 3/16" or 5mm for cabinet hardware screws)
- Screwdriver (Phillips or flathead, depending on screw type)

#### Installation Steps:

1. **Determine Placement:** Carefully measure and mark the desired location for the finger pull on your cabinet door or drawer. Ensure consistent placement for multiple pulls.
2. **Drill Pilot Hole:** Using a drill bit slightly smaller than the screw diameter, carefully drill a pilot hole through the marked location. Ensure the hole is straight and clean to prevent wood splitting.
3. **Attach Finger Pull:** Align the finger pull with the drilled hole. Insert the provided screw from the inside of the cabinet door/drawer through the pilot hole and into the threaded receiver on the finger pull.
4. **Secure Tight:** Using a screwdriver, tighten the screw until the finger pull is firmly secured against the cabinet surface. *Do not overtighten*, as this can damage the cabinet or the pull's finish.
5. **Test Functionality:** Gently pull on the installed hardware to ensure it is securely attached and functions as intended.

For best results, consider using a cabinet hardware jig for precise and repeatable hole drilling, especially when installing multiple pulls.

### 4. OPERATION

The Emtex 86151US10B Modern Finger Pull is designed for simple and intuitive operation. To open a cabinet door or drawer, place your finger into the recessed area of the pull and apply gentle outward force. The ergonomic design allows for comfortable gripping and smooth operation.

### 5. CARE AND MAINTENANCE

To maintain the finish and functionality of your Emtex finger pull, follow these simple care instructions:

- **Cleaning:** Wipe the pull regularly with a soft, damp cloth. For stubborn marks, a mild soap solution can be used, followed by rinsing with a clean, damp cloth and drying thoroughly.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, ammonia-based products, or solvents, as these can damage the finish.
- **Periodic Inspection:** Periodically check the tightness of the mounting screw. If the pull feels loose, gently tighten the screw with a screwdriver.
- **Protect Finish:** Avoid direct contact with sharp objects or abrasive materials that could scratch the surface.

### 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Finger pull feels loose.	Mounting screw is loose.	Gently tighten the mounting screw with a screwdriver. Do not overtighten.
Finish appears dull or stained.	Accumulation of dirt, grime, or residue from harsh cleaners.	Clean with a soft, damp cloth and mild soap. Avoid abrasive cleaners.
Difficulty gripping the pull.	Incorrect installation or obstruction.	Ensure the pull is installed flush and there are no obstructions. Re-check installation steps.

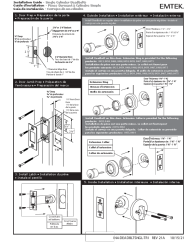

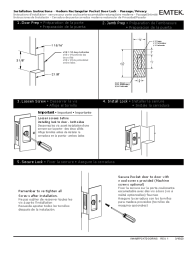

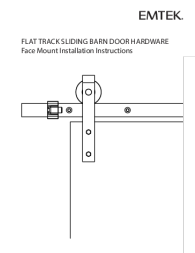

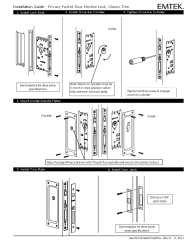

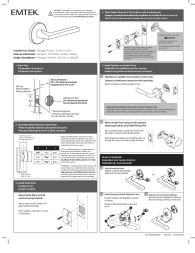

## 7. PRODUCT SPECIFICATIONS

Brand	Emtek
Model Number	86151US10B
Item Weight	3.99 ounces
Product Dimensions	1 x 3 x 1 inches
Color	Oil Rubbed Bronze
Style	Finger
Finish	Aluminum
Material	Brass, Bronze
Shape	Arch & Bow
Item Package Quantity	1
Number Of Pieces	1
Special Features	Fasteners Included
Usage	Cabinets
Included Components	Screw
