PRODUCT IMPROVEMENT CAMPAIGN RENTOIFICATION

APRIL 2, 2024

This is a RESTORATION OF AN earlier Product Improvement Campaign on OCTOBER 8, 2021, WHICH NOTIFIED ALL OWNERS OF THE KIA RENTIFICATION™ VEHICLE EQUIPMENT THAT WAS PRESENT IN 2019-2021 KIA RENTIFICATION™ VEHICLES.

OUR RECORDS INDICATE THAT YOU ARE THE CURRENT REGISTERED OWNER OF THIS VEHICLE AND THAT THIS CAMPAIGN APPLIES TO YOU.

KIA IS REQUESTING THAT YOU CONTACT AN AUTHORIZED KIA DEALERSHIP TO SCHEDULE AN APPOINTMENT TO HAVE THE KIA RENTIFICATION™ VEHICLE EQUIPMENT (VIA VEHICLE DETECTION SYSTEM VEHICLE SOFTWARE) INSTALLED IN YOUR VEHICLE FREE OF CHARGE (A \$100 COST TO KIA).

UPON COMPLETION OF THIS SOFTWARE UPDATE, YOUR VEHICLE ALSO WILL RECEIVE THE ENHANCED ENGINE BLOCK ASSEMBLY REPAIRS RECOMMENDED IN THE KIA RENTIFICATION™ VEHICLE EQUIPMENT CAMPAIGN. THIS SOFTWARE UPDATE WILL NOT AFFECT THE VEHICLE'S FIRST PURCHASE DATE, WHICH IS THE DATE THE VEHICLE WAS PURCHASED, OR THE DATE THE VEHICLE WAS FIRST PUT INTO SERVICE, WHICH OCCURS FIRST, FOR BOTH NEW AND USED VEHICLE OWNERS.

IF YOU HAVE ALREADY TAKEN YOUR VEHICLE TO A KIA DEALER AND HAD THIS CAMPAIGN PERFORMED, PLEASE DISREGARD THIS NOTICE.

PRODUCT IMPROVEMENT CAMPAIGN

October 8, 2021

Dear Kia Fender Owner:

Kia America, Inc. is conducting an important Product Improvement Campaign to perform software updates on 2019-2020 MY KIA RENTIFICATION™ VEHICLES. The software update will be completed with 2.0.0 by the ECU engine to protect the engine from resonance cracking and bearing damage.

The update will be done for free and will only affect drivers of newly developed computer software for the KIA RENTIFICATION™ VEHICLE EQUIPMENT.

Why Is Kia Conducting This Product Improvement Campaign?

Kia has developed a Kia Service Diagnose System (KSDS) that detects vibrations including the onset of resonance cracking and bearing wear in the engine. The KSDS is designed to detect a vehicle's driver at an early stage of bearing wear before the onset of severe engine damage including engine failure.

What Will Kia Do?

- Kia will need to perform a software update to the ECU on your vehicle.
- Upon completion of the KSDS software update, Kia will warrant any long engine block assembly repair needed due to resonance cracking and bearing damage for 15 years/150,000 miles starting from the date the vehicle was first put into service. This warranty does not cover the first 3 years and same mileage.

What Should You Do?

Please confirm your authorized Kia dealer has completed the KSDS software update on your vehicle and take delivery of the vehicle. If you have any questions regarding the software update or the KSDS, please contact Kia or your authorized Kia dealer.

The remaining update required to protect the ECU on your vehicle is approximately one (1) hour, depending on your vehicle's schedule. We recommend that you contact Kia or your authorized Kia dealer to schedule a service appointment.

To find your nearest Kia dealer, visit www.kia.com and click the "Find Dealer" button in the upper right corner ("Dealers" on a mobile device). You can also use the KIA QR code below with your mobile device to access this information (see the bottom of this letter for more information about QR codes).

IMPORTANT

- Continue to follow the maintenance schedule outlined in Section 2 (Maintenance) of your owner's Owner's Manual.
- Impaired performance during the ownership period, including the reduced engine fuel economy, will affect maintenance costs. In order to maximize the warranty on your engine, you must maintain it in accordance with the time and mileage specifications provided in your Owner's Manual, using quality products, meeting industry standards and following recommended maintenance procedures.
- You should retain documents that show preventive maintenance has been performed in order to establish compliance in the event the diagnosis engine-related condition is determined as the result of a lack of maintenance, including the use of non-quality products.

Kia Motors America, Inc. Corporate Headquarters 111 Peters Canyon Road, Irvine, CA 92606-1790 USA VOLUNTARY SERVICE CAMPAIGN January 10, 2017 Dear Kia **Forte** Owner: Kia Motors America, Inc. is conducting a Voluntary Service Campaign to apply additional anti-corrosion material to the underbody components of certain 2010-2013 MY Forte and Forte Koup vehicles that were originally sold in an area where saltwater spray and/or saltwater spray/chemical corrosion, which is a saltwater spray/water mixture of salt and/or other chemicals, may have been present. **What is Kia Doing in This Service Campaign?**

The National Highway Traffic Safety Administration (NHTSA) recently issued a Safety Advisory and consumer video on preventing saltwater spray/chemical corrosion. In this video, Kia's safety advisory urges owners of vehicles that are more than seven (7) years old to:

- Maintain their vehicle and perform regular maintenance by following the underbody care requirements throughout the winter to help prevent saltwater spray/chemical corrosion.
- Check for signs of corrosion by removing the underbody trim and cleaning the area.
- Look for signs of corrosion by removing the underbody trim and cleaning the area.
- Check for signs of corrosion by removing the underbody trim and cleaning the area.
- Check for signs of corrosion, including rust or brake fluid, creased leads and a soft or sprung feel in the brake assembly.

As a further preventive measure to assist in preventing these maintenance recommendations, Kia is conducting a voluntary service campaign to increase corrosion resistance.

What Will Kia Do?

- Kia dealers will apply additional anti-corrosion material to the underbody components of your vehicle.
- The time required to apply anti-corrosion material to your vehicle can vary depending on the dealer's work schedule and the complexity of the vehicle.
- There is no cost to the customer for this service.
- Maintenance of your owner's manual regarding the ongoing maintenance and cleaning of the underbody of your vehicle is the responsibility of the vehicle owner.
- Follow the steps in the section titled "Maintenance Service - Underbody" of your owner's manual regarding the ongoing maintenance and cleaning of the underbody of your vehicle.
- Follow the steps in the section titled "Maintenance Service - Underbody" of your owner's manual regarding the ongoing maintenance and cleaning of the underbody of your vehicle.

To find your nearest dealer, visit www.kia.com and click the "Find Dealer" button in the upper right corner ("Dealer" on a mobile device). You can also use the QR code below with your mobile device to access this information. Use the owner's manual for more information about your vehicle.
