## PRODUCT OVERVIEW

Familiarize yourself with the camera's components and controls.

**Figure 1:** Front view of the Coleman Bravo CX10WP camera enclosed in its transparent waterproof housing. The lens is prominent in the center, surrounded by a black ring, with a yellow top latch visible.

**Figure 2:** Side view of the Coleman Bravo CX10WP camera without its waterproof housing. The silver-colored camera body shows the lens on the front, a control button on the side, and ports on the rear side.

### Key Features:

- Full HD 1080p Video Recording (30 fps)
- 960p Video Recording (30 fps)
- 720p Video Recording (60 fps)
- 5 Megapixel Still Image Capture
- 170-degree Ultra-Wide Angle Lens
- Integrated OLED Screen
- Waterproof up to 61 meters with included housing
- Mini HDMI and USB Connectivity

## SETUP

### 1. Battery Installation

1. Locate the battery compartment cover on the camera.
2. Open the cover and insert the Li-ion battery, ensuring correct polarity.
3. Close the battery compartment cover securely.

### 2. Memory Card Installation

The camera supports SDHC memory cards (not included). A high-speed card (Class 10 or higher) is recommended for optimal video recording performance.

1. Locate the memory card slot.

2. Insert the SDHC card with the contacts facing the correct direction until it clicks into place.
3. To remove, gently push the card until it springs out.

### 3. Charging the Battery

Before first use, fully charge the battery.

1. Connect the camera to a USB power source (e.g., computer, USB wall adapter) using the provided USB cable.
2. The charging indicator light will illuminate. It will turn off or change color when charging is complete.

### 4. Mounting the Camera

The Coleman Bravo CX10WP comes with various mounts for different applications.

- **Waterproof Case:** Always use the waterproof case when operating the camera underwater or in wet conditions. Ensure the case is properly sealed before submersion.
- **Adhesive Mounts:** Use the curved or flat adhesive mounts for attaching the camera to helmets or other smooth surfaces. Ensure the surface is clean and dry before applying.
- **Handlebar/Bike Mount:** Attach the camera to handlebars or similar cylindrical objects using the provided mount.
- **T-Tip Adapter:** This adapter allows compatibility with various mounting accessories.

## OPERATING INSTRUCTIONS

---

### 1. Power On/Off

- To power on, press and hold the Power/Mode button until the screen illuminates.
- To power off, press and hold the Power/Mode button until the screen turns off.

### 2. Mode Selection

Press the Power/Mode button repeatedly to cycle through available modes: Video Recording, Photo Capture, and Playback.

### 3. Recording Video

1. Select Video Recording mode.
2. Press the Shutter/OK button to start recording. A red indicator light will flash, and the recording icon will appear on the screen.
3. Press the Shutter/OK button again to stop recording. The indicator light will stop flashing.

### 4. Taking Photos

1. Select Photo Capture mode.
2. Press the Shutter/OK button to take a photo. The screen may briefly flash.

### 5. Playback

1. Select Playback mode.
2. Use the navigation buttons (if available, or Power/Mode and Shutter/OK for selection) to browse through your recorded videos and photos.
3. Press the Shutter/OK button to play a video or view a photo.

### 6. Menu Navigation

Access the camera settings menu to adjust video resolution, photo resolution, date/time, and other parameters. Refer to the on-screen prompts for specific menu options and navigation using the available buttons.

## MAINTENANCE

### 1. Cleaning the Camera

- Use a soft, lint-free cloth to clean the camera body.
- For the lens, use a specialized lens cleaning cloth and solution. Avoid touching the lens with fingers.
- Do not use harsh chemicals or abrasive cleaners.

### 2. Waterproof Case Care

- After each use in water, rinse the waterproof case with fresh water to remove salt, sand, or chlorine.
- Allow the case to air dry completely before storing.
- Inspect the O-ring seal regularly for any debris, cracks, or damage. Clean the O-ring and apply silicone grease if necessary to maintain its waterproof integrity.

### 3. Storage

Store the camera and accessories in a cool, dry place away from direct sunlight and extreme temperatures. Remove the battery if storing for extended periods.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Camera does not power on.	Battery is depleted or incorrectly installed.	Charge the battery. Ensure the battery is inserted with correct polarity.
Cannot record video or take photos.	Memory card is full, not inserted, or corrupted.	Insert a memory card. Delete unnecessary files. Format the memory card (this will erase all data).
Poor video/photo quality.	Lens is dirty. Incorrect settings. Low light conditions.	Clean the lens. Adjust video/photo resolution settings. Ensure adequate lighting.
Water leakage into case.	Waterproof case not properly sealed. Damaged O-ring.	Ensure case is securely latched. Inspect O-ring for damage or debris and clean/replace if necessary.
