Logitech G 910-004068

Logitech G402 Hyperion Fury Wired Gaming Mouse User Manual

Model: 910-004068

1. INTRODUCTION

The Logitech G402 Hyperion Fury is a high-performance wired gaming mouse designed for speed and precision. It features Fusion Engine sensor technology for reliable tracking, multiple programmable buttons, and on-the-fly DPI adjustment. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Hyperion Fury gaming mouse.

2. KEY FEATURES

The Logitech G402 Hyperion Fury offers a range of features to enhance your gaming experience:

- **High-Speed Tracking:** Equipped with Fusion Engine technology, capable of tracking speeds up to 500 IPS (Inches Per Second).
- **Eight Programmable Buttons:** Customize button functions for various commands and macros using the Logitech G HUB software.
- **On-The-Fly DPI Shifting:** Instantly switch between up to four DPI settings, ranging from 250 DPI for precise targeting to 4000 DPI for rapid maneuvers.
- **Advanced Response Rate:** A 1ms report rate ensures that your mouse movements are communicated to your computer with minimal delay.
- **Comfortable and Lightweight Design:** Constructed with lightweight materials, rubber grips, and low-friction feet for extended comfortable use.

3. SETUP GUIDE

Setting up your Logitech G402 Hyperion Fury mouse is a straightforward process:

1. **Connect the Mouse:** Plug the USB connector of the Logitech G402 Hyperion Fury into an available USB port on your computer. The mouse is plug-and-play compatible with most operating systems.
2. **Install Logitech G HUB Software (Optional but Recommended):** For full customization of buttons, DPI settings, and profiles, download and install the Logitech G HUB software from the official Logitech website (www.logitechg.com/ghub). Follow the on-screen instructions for installation.
3. **Restart (If Necessary):** In some cases, a system restart may be required after software installation for optimal performance.

4. OPERATING YOUR MOUSE

The Hyperion Fury is designed for intuitive use with advanced customization options:

4.1. Basic Movement and Clicks

Use the mouse on a suitable surface for accurate tracking. The left and right click buttons function as standard mouse buttons. The scroll wheel allows for vertical scrolling and also acts as a clickable button.

4.2. DPI Switching

The G402 features dedicated DPI (Dots Per Inch) shift buttons, typically located near the left-click button. Pressing these buttons allows you to cycle through pre-set DPI levels, instantly adjusting cursor sensitivity. The default DPI settings range from 250 DPI to 4000 DPI.

4.3. Programmable Buttons

The mouse includes eight programmable buttons. These buttons can be assigned various functions, including keyboard commands, macros, media controls, and more, using the Logitech G HUB software. Refer to the G HUB software interface for detailed instructions on button assignment and profile management.

5. MAINTENANCE

Proper care will extend the life and performance of your gaming mouse:

- **Cleaning:** Use a soft, lint-free cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.
- **Sensor Care:** Ensure the optical sensor on the bottom of the mouse remains clean and free of dust or debris for optimal tracking performance. Use a cotton swab or compressed air if necessary.
- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage.
- **Storage:** Store the mouse in a clean, dry environment away from extreme temperatures.

6. TROUBLESHOOTING

If you encounter issues with your Logitech G402 Hyperion Fury, try the following solutions:

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
Mouse is not recognized or unresponsive.	◦ Try plugging the mouse into a different USB port on your computer. ◦ Restart your computer. ◦ Ensure the USB cable is securely connected.
Erratic cursor movement.	◦ Clean the optical sensor on the bottom of the mouse. ◦ Use the mouse on a clean, uniform surface (e.g., a mouse pad). ◦ Check for any software conflicts or background applications.
Programmable buttons are not working.	◦ Ensure Logitech G HUB software is installed and running. ◦ Verify that the buttons are correctly assigned within G HUB. ◦ Check if the correct profile is active in G HUB for the application you are using.
DPI settings are not changing.	◦ Confirm that DPI shifting is enabled in Logitech G HUB. ◦ Ensure the DPI shift buttons are functioning correctly.

If the problem persists after trying these steps, please refer to the Logitech support website for further assistance.

7. SPECIFICATIONS

Feature	Detail
Brand	Logitech G
Model Name	G402 Hyperion Fury FPS
Item Model Number	910-004068
Connectivity Technology	USB Wired
Movement Detection Technology	Optical (Fusion Engine)
DPI Range	250 - 4000 DPI (Adjustable)
Programmable Buttons	8
Report Rate	1ms
Item Weight	5.1 ounces (approx. 145g)
Product Dimensions (LxWxH)	5.35 x 2.83 x 0.1 inches (approx. 13.6 x 7.2 x 0.25 cm)
Operating System Compatibility	PC, Mac

Feature	Detail
Color	Monotone (Black)
