## Key Features:

- **5-in-1 Convertible Design:** Easily converts from a baby crib to a toddler bed, daybed, and full-size bed with optional headboard and footboard. Conversion kits are sold separately.
- **Adjustable Mattress Support:** Features a 3-position adjustable mattress support base to accommodate your growing child.
- **Safety Certified:** JPMA certified and compliant with all applicable federal safety standards. Applied finish is tested to meet or exceed ASTM and CPSIA safety standards.
- **Durable Construction:** Crafted from pine wood, engineered wood, and wood composites for lasting durability.

## 2. SETUP AND CONVERSION

---

Assembly is required for the initial crib setup. Please refer to the included assembly instructions for detailed steps. The crib is designed to convert into multiple bed types as your child grows.

Conversion Options:

2.1. Baby Crib Configuration

The initial setup is for the baby crib. Ensure all parts are securely fastened according to the assembly guide. A standard full-size crib mattress (sold separately) is required.

## 2.2. Toddler Bed Conversion

To convert to a toddler bed, remove the front rail of the crib. This crib is not compatible with a toddler guardrail. The existing crib mattress is used for the toddler bed. Refer to your assembly manual for specific instructions on removing the front rail.

### 2.3. Daybed Conversion

The daybed conversion typically involves removing the front rail and adjusting the mattress support to a lower position, similar to a sofa. Consult your manual for precise steps.

## 2.4. Full-Size Bed Conversion

To convert to a full-size bed, a separate conversion kit (sold separately) is required. This kit typically includes side rails and slats to support a full-size mattress. Follow the instructions provided with the conversion kit for proper assembly.

### 3. OPERATION

---

#### 3.1. Adjusting Mattress Height

The Graco Lauren crib features a 3-position adjustable mattress support base. This allows you to lower the mattress as your child grows and becomes more mobile, ensuring their safety by preventing them from climbing out.

1. **Highest Position:** For newborns and infants who cannot push up on their hands and knees. This position allows easier access to your baby.
2. **Middle Position:** For babies who can push up on their hands and knees or sit unassisted.
3. **Lowest Position:** For active babies who can pull themselves to a standing position. This is the safest position to prevent climbing out.

Always ensure the mattress support is securely locked into place at the desired height before placing your child in the crib. Refer to your assembly manual for detailed instructions on how to adjust the mattress support base.

## 4. MAINTENANCE

---

### 4.1. Cleaning Instructions

To clean the Graco Lauren Convertible Crib, simply wipe surfaces with a damp cloth. Avoid using abrasive cleaners or strong chemicals, as these may damage the finish or materials. Regularly inspect the crib for any loose hardware or signs of wear and tear.

## 5. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your Graco Lauren Convertible Crib. For problems not listed here, please contact customer support.

Problem	Possible Cause	Solution
Crib feels wobbly or unstable.	Loose hardware.	Check all bolts and screws and tighten them securely. Do not overtighten.
Mattress support does not adjust smoothly.	Obstruction or misaligned hardware.	Ensure no bedding or foreign objects are obstructing the mechanism. Verify that all mattress support hardware is correctly installed and aligned.
Missing parts after unboxing.	Packaging error or lost during transit.	Carefully check all packaging materials. If parts are genuinely missing, contact Storkcraft customer support immediately.
