## DELTA WDMT

# DELTA Canopies 10'x30' PE Party Tent Instruction Manual

## 1. INTRODUCTION

This manual provides detailed instructions for the safe and efficient assembly, operation, and maintenance of your DELTA Canopies 10'x30' PE Party Tent. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

The DELTA Canopies 10'x30' PE Party Tent is designed to provide temporary shelter for various outdoor events, including parties, corporate gatherings, and other social functions. Its robust galvanized steel frame and durable polyethylene cover offer protection from sun and light rain.

Image 1.1: Fully assembled DELTA Canopies 10'x30' PE Party Tent.

## 2. IMPORTANT SAFETY WARNINGS

---

Your safety and the safety of others are paramount. Failure to follow these instructions may result in serious injury or property damage.

- **Anchoring:** Always ensure the tent is securely anchored to the ground using appropriate stakes, ropes, or weights, especially in windy conditions. Inadequate anchoring can lead to the tent lifting or collapsing.
- **Weather Conditions:** This tent is designed for temporary use and is not intended for extreme weather conditions such as heavy winds, snow, or severe thunderstorms. Disassemble the tent if adverse weather is anticipated.
- **UV Exposure:** While the tent offers some UV protection, prolonged exposure to direct sunlight under the tent should be minimized. Take appropriate precautions against UV radiation.
- **Fire Hazard:** Keep all sources of ignition, including open flames, heaters, and cooking equipment, away from the tent fabric. The material is not fireproof.
- **Assembly:** Assembly requires at least two adults. Do not attempt to assemble the tent alone. Follow all assembly steps carefully.
- **Site Selection:** Choose a level, clear area free from overhead obstructions (e.g., power lines, tree branches) and sharp objects on the ground.

## 3. PACKAGE CONTENTS

---

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

- Galvanized Steel Frame Poles (various lengths and types)
- Metal Connectors (for frame assembly)
- Polyethylene (PE) Roof Cover
- Polyethylene (PE) Side Walls (with windows)
- Ropes and Stakes (for anchoring)
- Storage Bag

# 10'x30' Tent with Metal Connectors

## Storage Bag Included

Image 3.1: Tent components including metal connectors.

### 4. SETUP AND ASSEMBLY

Follow these steps carefully for proper assembly. It is recommended to have at least two people for assembly.

1. **Unpack Components:** Lay out all frame poles, connectors, and fabric parts on a clean, flat surface. Identify each component.
2. **Assemble the Roof Frame:** Connect the roof poles using the metal connectors. Ensure all connections are secure.

Image 4.1: Assembled galvanized steel frame structure.

3. **Attach the Roof Cover:** Carefully drape the polyethylene roof cover over the assembled roof frame. Secure it to the frame using the provided fasteners or bungee balls.

Image 4.2: Tent frame with roof cover installed.

4. **Install Legs:** Attach the leg poles to the roof frame connectors. Gradually raise the tent structure, ensuring stability as you go.
5. **Attach Side Walls:** Secure the polyethylene side walls to the frame using the integrated fasteners. The side walls with windows can be positioned as desired.

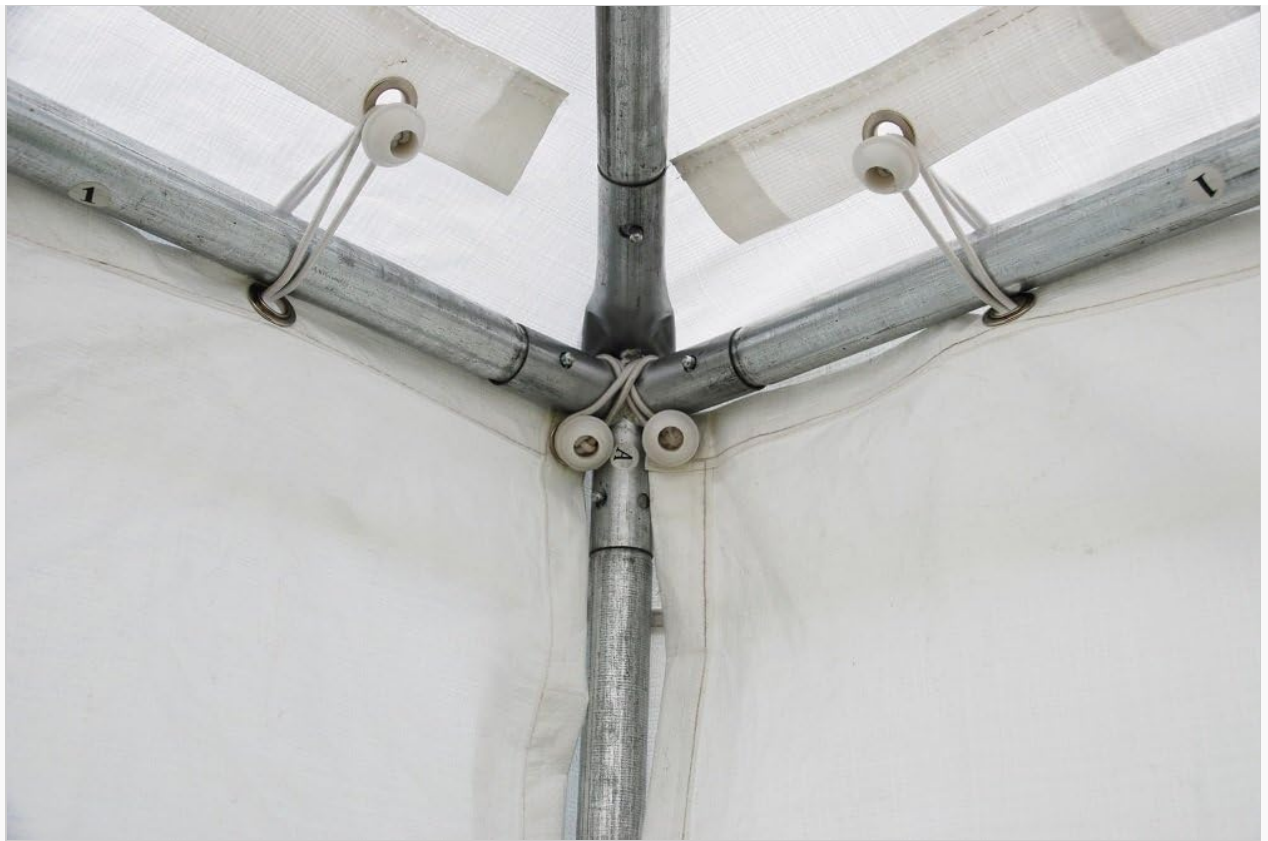

Image 4.3: Tent with side walls being attached.

6. **Anchor the Tent:** Use the provided ropes and stakes to firmly anchor the tent to the ground at all designated points. This step is critical for stability.

Image 4.4: Detail of a metal connector for the frame.

## 5. OPERATING AND USE GUIDELINES

To ensure the longevity and safe operation of your DELTA Canopies tent, observe the following guidelines:

- **Ventilation:** Ensure adequate ventilation, especially if using the tent in warm weather or with many occupants.
- **Weather Monitoring:** Regularly check weather forecasts. Disassemble the tent if strong winds, heavy rain, or snow are predicted.
- **Weight Distribution:** Avoid hanging heavy objects from the tent frame, as this can compromise its structural integrity.
- **Entry/Exit:** Use designated entry and exit points. Avoid forcing entry or exit, which could damage zippers or fabric.

Image 5.1: Interior view of the tent, suitable for various events.

## 6. MAINTENANCE AND CARE

Proper maintenance will extend the life of your tent.

- **Cleaning:** Clean the polyethylene fabric with mild soap and water. Do not use harsh chemicals or abrasive cleaners, as these can damage the material. Rinse thoroughly and allow to air dry completely before storage.
- **Frame Inspection:** Periodically inspect the galvanized steel frame for any signs of rust, bending, or damage. Replace any compromised parts immediately.
- **Storage:** Ensure the tent fabric and frame components are completely dry before packing them into the storage bag. Store in a cool, dry place away from direct sunlight and extreme temperatures.

Image 6.1: Included storage bag for tent components.

Image 6.2: Carrying the tent in its storage bag.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter.

- **Tent Instability:** If the tent feels unstable, re-check all frame connections and ensure all anchoring points (stakes, ropes) are securely fastened to the ground. Add additional weights if necessary.
- **Water Accumulation/Condensation:** Ensure the roof cover is taut to prevent water pooling. Condensation can occur due to temperature differences; ensure adequate ventilation to minimize this.
- **Difficulty Assembling Frame:** Verify that you are using the correct poles and connectors as per the assembly diagram (not included in this text, refer to product packaging for specific diagrams). Ensure no parts are bent or damaged.
- **Damaged Fabric:** Small tears in the polyethylene fabric can often be repaired with a suitable repair kit or strong waterproof tape. For significant damage, contact customer support for replacement parts.

## 8. SPECIFICATIONS

Feature	Detail
Brand	DELTA
Model Number	WDMT
Dimensions	10'x30' (Length x Width)
Floor Area	300 Square Feet
Frame Material	Galvanized Steel
Cover Material	Polyethylene (PE)
Color	White
Water Resistance Level	Water Resistant
UV Protection	Yes
Assembly Required	Yes
Item Weight	106 Pounds
UPC	799418233789

## 9. WARRANTY AND SUPPORT

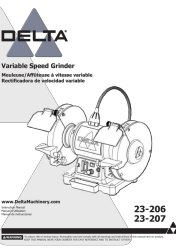

This product comes with a manufacturer's warranty. For specific warranty details, please refer to the documentation included with your purchase or contact the seller directly. If you require assistance with assembly, missing parts, or have any questions regarding your DELTA Canopies tent, please contact WPIC-Store customer support.

**Manufacturer/Seller:** WPIC-Store

For support, please visit the DELTA store on Amazon or contact the seller through your purchase platform.
