UGREEN 10532

UGREEN 3.5mm Audio Headphone Splitter (Model 10532) Instruction Manual

Your guide to setting up and using your UGREEN audio splitter.

1. Introduction

The UGREEN 3.5mm Audio Headphone Splitter (Model 10532) is designed to allow two users to share audio from a single 3.5mm auxiliary port. This device enables simultaneous connection of two headphones or speakers to a single audio source, facilitating shared listening experiences.

This manual provides detailed instructions for the proper setup, operation, and maintenance of your audio splitter, along with troubleshooting tips and product specifications.

2. Product Overview

The UGREEN 3.5mm Audio Headphone Splitter features a male 3.5mm TRS connector that splits into two female 3.5mm audio output ports. It is constructed with durable materials to ensure reliable audio transmission.

Key Features:

- **Audio Sharing:** Connects dual headphones or speakers to a single 3.5mm auxiliary port.
- **High-Fidelity Stereo Sound:** Features 24K gold-plated connectors and oxygen-free copper wire for clear audio.
- **Durable Construction:** Aluminum alloy casing and TPE outer jacket for enhanced longevity.
- **Compact Design:** Measures 20cm (7.87 inches) for portability.

3. Setup

Follow these steps to connect your UGREEN 3.5mm Audio Headphone Splitter:

1. **Identify the Audio Source:** Locate the 3.5mm auxiliary (AUX) output port on your device (e.g., smartphone, tablet, laptop, MP3 player, game console).
2. **Connect the Splitter:** Insert the male 3.5mm connector of the UGREEN splitter into the 3.5mm AUX port of your audio source device.
3. **Connect Headphones/Speakers:** Plug your two headphones or speakers into the two female 3.5mm ports on the splitter. Ensure connections are secure.

4. Operating Instructions

Once connected, the UGREEN 3.5mm Audio Headphone Splitter operates automatically. Simply play audio from your source device, and it will be transmitted to both connected headphones or speakers.

Important Considerations:

- This splitter is designed for audio output only. It **does not support microphone input**
- The splitter **does not support inline volume control** from connected headphones. Adjust volume directly on your audio source device.
- Ensure your audio source device's volume is set appropriately before connecting headphones to avoid sudden loud sounds.

5. Maintenance

To ensure the longevity and optimal performance of your UGREEN 3.5mm Audio Headphone Splitter, follow these simple maintenance guidelines:

- **Cleaning:** Gently wipe the cable and connectors with a dry, soft cloth to remove dust or debris. Avoid using liquid cleaners.
- **Storage:** When not in use, store the splitter in a cool, dry place, away from direct sunlight and extreme temperatures. The compact design allows for easy storage in a pouch or bag.
- **Handling:** Avoid excessive bending, twisting, or pulling of the cable, especially near the connectors, to prevent internal damage. Always grasp the connector housing when plugging or unplugging.
- **Protection:** Keep the splitter away from moisture and corrosive substances.

6. Troubleshooting

If you encounter issues with your UGREEN 3.5mm Audio Headphone Splitter, refer to the following common problems and solutions:

- **No Sound or Intermittent Audio:**
  - Ensure all connectors are fully inserted into their respective ports.
  - Check the volume level on your audio source device.
  - Test the headphones/speakers directly with the audio source to confirm they are working.
  - Try using a different audio source device or different headphones/speakers to isolate the problem.
  - Inspect the cable for any visible damage or kinks.
- **Distorted or Low-Quality Sound:**

- Ensure the connectors are clean and free of debris.
- Verify that the audio source device's output is clean and not distorted.
- Adjust the volume on the source device; very high or very low volumes can sometimes cause distortion.

- **Only One Headphone/Speaker Works:**
  - Confirm that both headphones/speakers are fully plugged into the splitter.
  - Test each headphone/speaker individually to ensure both are functional.
  - The splitter is designed for stereo audio. If your source device or media is mono, only one channel may produce sound.

7. Specifications

Feature	Detail
Model Number	10532
Connector Type	3.5mm Male TRS to 2x 3.5mm Female TRS
Cable Length	20 cm (7.87 inches)
Material	Aluminum Alloy Casing, 24K Gold-Plated Connectors, TPE Jacket, Oxygen-Free Copper Wire
Color	Black
Item Weight	0.704 ounces
