Joseph Joseph 20005

Joseph Joseph Can-Do Compact Can Opener Instruction Manual

Model: 20005

Introduction

The Joseph Joseph Can-Do Compact Can Opener is designed for efficient and clean can opening with a space-saving design. This manual provides instructions for its proper use and care.

Key Features:

- Compact manual can opener with unique, circular, space-saving design.
- Opener automatically grips can edge as you twist.
- Large easy-twist mechanism cuts cleanly through the can lid.
- Easy-Press lid-release button removes opener from can.

Setup

The Joseph Joseph Can-Do Compact Can Opener requires no assembly and is ready for immediate use upon unboxing. Ensure the cutting mechanism is clean before first use.

Operating Instructions

Step-by-Step Guide:

1. **Position the Opener:** Place the Can-Do opener on top of the can, ensuring the cutting wheel aligns with the can's rim. The opener is designed to sit securely on the can.
2. **Engage the Mechanism:** Begin twisting the large green mechanism on top of the opener clockwise. The opener will automatically grip the can's edge as you twist, initiating the cutting process.
3. **Cut the Lid:** Continue twisting the mechanism until the lid has been cut all the way around the can. You may feel a slight change in resistance when the cut is complete.
4. **Release the Lid:** Once the lid is fully cut, press the easy-press lid-release button (the small green button on the side) to disengage the opener from the can. The lid will remain attached to the opener for safe disposal.

Image: Place the opener on the can and twist the top mechanism to begin cutting.

Image: After cutting, press the side button to release the lid cleanly.

Maintenance

To ensure the longevity and hygiene of your Joseph Joseph Can-Do Compact Can Opener, follow these simple maintenance steps:

- **Cleaning:** Wipe the can opener clean with a damp cloth after each use.
- **Drying:** Ensure the opener is thoroughly dry before storing to prevent rust on metal components.
- **Storage:** Store in a dry place, such as a kitchen drawer. Its compact design allows for easy storage.

Troubleshooting

If you encounter any issues with your can opener, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Opener does not grip the can.	Not positioned correctly; cutting wheel is dirty.	Ensure the opener is centered on the can and the cutting wheel is aligned with the rim. Clean the cutting wheel if necessary.
Lid is not fully cut.	Not enough rotations; dull cutting wheel.	Continue twisting the mechanism until you feel the cut is complete. If the issue persists, the cutting wheel may be worn.
Lid does not release easily.	Release button not fully pressed; debris.	Press the lid-release button firmly. Check for any food debris obstructing the mechanism and clean if necessary.

Specifications

Feature	Detail
Model Number	20005
Brand	Joseph Joseph
Color	White/Green
