Ford EE8Z-6111600-CA

Ford Genuine EE8Z-6111600-CA Cargo Area Protector User Manual

Model: EE8Z-6111600-CA

Introduction

This manual provides instructions for the proper installation, use, and maintenance of your Ford Genuine EE8Z-6111600-CA Cargo Area Protector. This product is designed to protect the cargo area of specific Ford Fiesta 5-Door models (2015 with mini spare) from wear, tear, and spills, ensuring the longevity of your vehicle's interior.

Setup and Installation

The cargo area protector is designed for easy installation. Please follow these steps:

1. **Unpack the Protector:** Carefully remove the cargo area protector from its packaging. Due to shipping, the protector may be rolled or folded.
2. **Allow to Flatten:** If the protector is rolled or creased, especially in colder temperatures, unroll it and lay it flat in a warm environment for several hours or overnight. This will allow the material to relax and regain its intended shape, ensuring a proper fit.
3. **Prepare the Cargo Area:** Ensure the vehicle's cargo area is clean and free of debris before installation.
4. **Position the Protector:** Carefully place the protector into the cargo area of your Ford Fiesta 5-Door (2015 model with mini spare). Align it with the contours of the trunk space.
5. **Secure Placement:** Press down firmly on the protector to ensure it settles into place and conforms to the cargo area's shape.

Image 1: The Ford Genuine Cargo Area Protector correctly installed in the trunk of a compatible Ford Fiesta. The protector features a textured surface and raised edges to contain spills and debris, with the "Fiesta" logo embossed in the center.

Operating and Usage

The cargo area protector is designed for continuous use to safeguard your vehicle's trunk. Its heavy-duty material provides a durable barrier against dirt, moisture, and general wear from transported items. The raised edges help contain liquids and loose debris, preventing them from reaching the vehicle's carpeted surfaces.

Maintenance and Cleaning

To maintain the effectiveness and appearance of your cargo area protector, regular cleaning is recommended:

- **Removal:** The protector can be easily removed from the cargo area for thorough cleaning.
- **Cleaning:** Use mild soap and water to clean the surface. For stubborn dirt, a soft brush can be used.
- **Rinsing:** Rinse the protector thoroughly with water.
- **Drying:** Allow the protector to air dry completely before reinstalling it in the vehicle. Avoid using harsh chemicals or abrasive cleaners, as these may damage the material.

Troubleshooting

If you encounter issues with your cargo area protector, consider the following:

- **Improper Fit:**
    - Ensure the protector has been allowed sufficient time to flatten out after unpacking, especially if installed in cold conditions.
    - Verify that your vehicle is a Ford Fiesta 5-Door (2015 model with mini spare). This specific model number (EE8Z-

6111600-CA) is designed for this configuration. Compatibility issues may arise with other Fiesta variants (e.g., ST models) or different model years.

- **Deformation:** If the protector appears deformed, ensure it was not exposed to extreme heat or improperly stored. Allowing it to warm up and flatten on a flat surface may help restore its shape.

Specifications

Feature	Detail
Brand	Ford
Model Number	EE8Z-6111600-CA
Part Type	Cargo Area Protector
Material	Heavy-duty material (specific composition not provided)
Color	Black
Item Weight	3.79 pounds
