Troubleshooting

If you encounter issues with your cabinet, consider the following common solutions:

- **Wobbly Cabinet:** Ensure all cam locks and screws are fully tightened. Verify the cabinet is on a level surface.
- **Misaligned Doors:** The metal hinges are adjustable. Use a screwdriver to make small adjustments to the hinge screws until the doors align properly and close smoothly. Refer to the assembly instructions for detailed hinge adjustment steps.
- **Shelves Not Level:** Check that all four shelf pins are fully inserted into the corresponding holes at the same height.
