A19 Lighting 1603D St. Vincent Downlight Wall Sconce Instruction Manual

Model: 1603D

INTRODUCTION

This manual provides comprehensive instructions for the safe installation, operation, and maintenance of your A19 Lighting 1603D St. Vincent Downlight Wall Sconce. Please read this manual thoroughly before proceeding with installation or use, and retain it for future reference.

PRODUCT OVERVIEW

The A19 Lighting 1603D St. Vincent Downlight Wall Sconce is a kiln-fired ceramic lighting fixture designed for both indoor and outdoor applications. Its round form features a distinctive ring of circular perforations along the bottom edge. This fixture is fully shielded and meets IDA Dark-Sky Standards, directing all light downward. The finish is Bisque.

Image: Front view of the A19 Lighting 1603D St. Vincent Downlight Wall Sconce. The sconce is a smooth, rounded, off-white ceramic fixture with a series of small, circular perforations along its lower edge, allowing light to emit downwards and create a decorative pattern.

Key Features:

- Kiln-fired ceramic construction.
- Suitable for indoor and outdoor (wet location convertible) use.
- Meets IDA Dark-Sky Standards, directing light downwards.
- Decorative circular perforations along the bottom edge.
- Made in USA.

SPECIFICATIONS

Attribute	Detail
Brand	A19
Model Number	1603D
Dimensions (W x H x D)	9.5" x 7.5" x 5"
Item Weight	6 pounds
Mounting Center	3.75"

Attribute	Detail
Number of Lights	1
Bulb Type (Not Included)	(1) 100W A19 E26 Medium Base Bulb
Material	Kiln-fired Ceramic
Finish	Bisque
Origin	Made in USA

SAFETY INFORMATION

- **WARNING:** Risk of electric shock. Disconnect power at the fuse box or circuit breaker before installation or servicing.
- All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC). Consult a qualified electrician if you are unfamiliar with proper electrical wiring connections.
- Do not install any fixture assembly closer than 6 inches from any combustible material.
- Ensure the fixture is securely mounted to a structural element.
- Use only the specified bulb type and wattage. Exceeding the maximum wattage may cause overheating and damage to the fixture or create a fire hazard.
- Do not handle the bulb with bare hands. Use a clean cloth or gloves.
- Inspect the fixture for damage before installation. Do not install if damaged.

SETUP AND INSTALLATION

Professional installation by a qualified electrician is recommended to ensure safety and compliance with electrical codes.

1. **Turn Off Power:** Locate the circuit breaker or fuse box controlling the power to the installation location. Turn off the power completely before beginning any work.
2. **Prepare Mounting Surface:** Ensure the wall surface is clean, dry, and structurally sound.
3. **Install Mounting Hardware:** Attach the mounting bracket (not explicitly detailed in product info, but standard for sconces) to the junction box using the provided screws. Ensure it is firmly secured. The mounting center is 3.75 inches.
4. **Wire the Fixture:**
 - Connect the fixture's ground wire (usually bare copper or green) to the ground wire from the junction box.
 - Connect the fixture's neutral wire (usually white) to the neutral wire from the junction box.
 - Connect the fixture's hot wire (usually black) to the hot wire from the junction box.
 - Secure all connections with approved wire connectors.
5. **Mount the Sconce:** Carefully align the sconce with the mounting bracket and secure it using the provided screws. Ensure the fixture is flush against the wall and stable.
6. **Install Bulb:** Insert one (1) 100W A19 E26 Medium Base Bulb into the socket. Do not exceed the maximum wattage. (Bulb not included).
7. **Restore Power:** Once installation is complete and all connections are secure, restore power at the circuit breaker or fuse box.

OPERATING INSTRUCTIONS

The A19 Lighting 1603D St. Vincent Downlight Wall Sconce is designed for simple operation via a standard wall switch connected to the electrical circuit. Once installed and powered, use the wall switch to turn the light fixture on or off.

MAINTENANCE

- **Cleaning:** To clean the fixture, ensure the power is turned off at the circuit breaker. Use a soft, dry, or slightly damp cloth. Avoid abrasive cleaners, solvents, or polishes as they may damage the finish.
- **Bulb Replacement:** Before replacing the bulb, turn off the power to the fixture at the circuit breaker. Allow the bulb to cool completely. Unscrew the old bulb and screw in a new 100W A19 E26 Medium Base Bulb. Do not exceed the maximum wattage.
- **Inspection:** Periodically inspect the fixture for any signs of wear, damage, or loose connections. If any issues are found, disconnect power and consult a qualified electrician.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	<ul style="list-style-type: none">◦ Power is off at the circuit breaker.◦ Bulb is loose or burned out.◦ Incorrect wiring connection.◦ Faulty wall switch.	<ul style="list-style-type: none">◦ Check the circuit breaker and ensure power is on.◦ Tighten or replace the bulb.◦ Consult a qualified electrician to check wiring.◦ Test or replace the wall switch.
Light flickers.	<ul style="list-style-type: none">◦ Loose bulb.◦ Loose wiring connection.◦ Incompatible bulb type (e.g., dimmable bulb on non-dimmable circuit).	<ul style="list-style-type: none">◦ Tighten the bulb.◦ Consult a qualified electrician to check wiring.◦ Ensure bulb compatibility with your electrical system.
