## Fetco F00400000

# Fetco F00400000 Coffee/Tea Filter Instruction Manual

## INTRODUCTION

---

This manual provides essential information for the proper use and handling of Fetco F00400000 20 x 8 inch Coffee/Tea Filters. These filters are designed for use with specific Fetco brewing equipment to ensure optimal beverage extraction.

## COMPATIBLE EQUIPMENT

---

The Fetco F00400000 filters are specifically designed for use with Fetco 6000 series brewers, including models CBS-61H and CBS-62H. Ensure your brewing equipment is compatible before use.

## USAGE INSTRUCTIONS

---

Follow these steps for proper filter placement and brewing:

1. **Preparation:** Ensure the filter basket of your Fetco 6000 series brewer is clean and free from previous coffee or tea grounds.
2. **Filter Placement:** Carefully place one Fetco F00400000 filter into the designated filter basket. Ensure the filter is fully open and seated correctly, covering the entire bottom and sides of the basket to prevent grounds from entering the brew.
3. **Add Grounds:** Add the appropriate amount of coffee or tea grounds into the filter. Refer to your brewer's specific instructions for recommended quantities.
4. **Brewing:** Initiate the brewing cycle according to your Fetco brewer's operational guidelines.
5. **Disposal:** After brewing is complete and the filter has cooled, carefully remove the filter containing the used grounds from the basket and dispose of it responsibly. These are single-use disposable filters.
