Samsonite 49539

Samsonite S'Cure Spinner Suitcase XL (81 cm - 138 L)

MODEL: 49539

INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Samsonite S'Cure Spinner Suitcase. The S'Cure series is designed for durability and lightness, utilizing Flowlite™ material for robust yet lightweight construction. This deluxe version includes enhanced features such as chrome locks and a smooth pull handle. Please read these instructions carefully to ensure optimal performance and longevity of your luggage.

KEY FEATURES

- **Flowlite™ Polypropylene Material:** Engineered for exceptional lightness without compromising strength.
- **Three-Point Closure System:** Provides enhanced security and minimizes moisture penetration.
- **Smooth Double Spinner Wheels:** Designed for effortless 360-degree maneuverability.
- **Double Linkage Pull Handle:** Offers a comfortable and adjustable grip for easy transport.
- **Integrated TSA Combination Lock:** Ensures secure travel and allows airport security to inspect your luggage without damage.
- **Organized Interior:** Features low-position cross tie-down straps, a zippered room divider, and a large side pocket for efficient packing.

Close-up of the secure three-point combination lock.

Detail of the ergonomic telescopic pull handle for comfortable maneuvering.

View of the durable double spinner wheels, designed for smooth movement.

Interior compartment with adjustable cross tie-down straps to secure contents.

Interior compartment featuring a zippered room divider for organized packing.

SETUP

Setting Your TSA Combination Lock

Your Samsonite S'Cure suitcase is equipped with an integrated TSA-approved combination lock. The lock is preset to 0-0-0 at the factory. To set your personal combination, follow these steps:

1. Ensure the lock is set to the factory default (0-0-0) or your last set combination.
2. Locate the reset button, usually a small, recessed button on the side or bottom of the lock mechanism.

3. Use a pen or a pointed object to press and hold the reset button until you hear a click or feel it engage.
4. While holding the reset button, set your desired 3-digit combination by turning the dials.
5. Release the reset button. Your new combination is now set.
6. Test your new combination by scrambling the dials and then entering your new code to open the lock.

For a visual guide on how to reset your combination lock, please watch the video below:

Video demonstrating how to set or reset the combination lock on your Samsonite luggage.

OPERATING YOUR SUITCASE

Telescopic Handle Operation

To extend the telescopic handle, press the button located on the top of the handle and pull upwards. The handle can be locked at multiple heights for comfortable maneuvering. To retract, press the button again and push the handle down until it is fully nested within the suitcase.

Spinner Wheel Usage

Your S'Cure Spinner Suitcase features four double spinner wheels, allowing for 360-degree rotation and smooth gliding in any direction. This design reduces strain on your arm and shoulder, making it easy to navigate through airports and other environments. For optimal performance, keep the suitcase upright and push it alongside you rather than tilting and pulling.

Video showcasing the smooth operation and durability of Samsonite Aero-Trac Whirl Suspension Wheels.

MAINTENANCE AND CARE

- **Cleaning the Exterior:** Wipe the hard-shell exterior with a soft cloth dampened with mild soap and water. Avoid abrasive cleaners or solvents that could damage the finish.
- **Cleaning the Interior:** The interior lining can be spot cleaned with a damp cloth and mild detergent. Allow to air dry completely before closing the suitcase.
- **Wheel Maintenance:** Regularly check the wheels for any debris (hair, lint, etc.) that might hinder their smooth operation. Clean as needed.
- **Storage:** Store your suitcase in a cool, dry place away from direct sunlight when not in use. Avoid placing heavy objects on top of the suitcase during storage to prevent deformation.

TROUBLESHOOTING

- **Lock Not Opening:** Ensure you are entering the correct 3-digit combination. If you have forgotten your combination, refer to the "Setting Your TSA Combination Lock" section for reset instructions.
- **Wheels Not Rolling Smoothly:** Check for any debris or obstructions caught in the wheels. Clean them thoroughly. If the issue persists, contact Samsonite customer support.
- **Telescopic Handle Sticking:** Ensure no items are obstructing the handle mechanism inside the lining. Apply a small amount of silicone spray to the handle rails if needed, avoiding contact with fabric.
- **Damage During Travel:** For any damage incurred during air travel, report it to the airline immediately before leaving the airport. Most airlines are responsible for damage to checked luggage.

SPECIFICATIONS

Feature	Detail
Product Dimensions	31.89 x 21.65 x 13.78 inches
Item Weight	11 pounds (5 Kilograms)
Capacity	138 Liters
Item Model Number	49539

WARRANTY AND SUPPORT

Your Samsonite S'Cure Spinner Suitcase is backed by a 10-year limited global warranty, covering manufacturing defects in materials and workmanship. This warranty does not cover damage caused by misuse, neglect, accidents, abrasion, exposure to extreme temperatures, solvents, acids, water, normal wear and tear, or transport damage (by airlines, for example).

For warranty claims, replacement parts, or any product-related inquiries, please contact Samsonite customer service directly. You can find contact information and further details on the official Samsonite website:
