DELTA SH5003-RB

Delta Faucet SH5003-RB Soothing Body Spray Sprayhead Instruction Manual

Model: SH5003-RB | Brand: DELTA

1. INTRODUCTION

This manual provides essential information for the installation, operation, and maintenance of your Delta Faucet SH5003-RB Soothing Body Spray Sprayhead. This product is designed for bathroom use, featuring H2Okinetic spray technology and automatically extends when water is turned on, providing a soothing water experience.

2. INSTALLATION AND SETUP

Follow these general guidelines for installing the SH5003-RB sprayhead. This product is designed for centerset installation.

2.1. Before You Begin

- Ensure all necessary tools are available (e.g., adjustable wrench, plumber's tape).
- Turn off the main water supply to the installation area to prevent leaks.
- Clear the installation area of any obstructions.

2.2. Installation Steps

1. Ensure the water supply is completely turned off at the main valve.
2. If replacing an existing sprayhead, carefully remove it.
3. Apply plumber's tape (PTFE tape) clockwise to the threaded connections of the water supply line where the sprayhead will attach.
4. Thread the new Delta SH5003-RB sprayhead onto the prepared water supply line by hand.

5. Using an adjustable wrench, gently tighten the sprayhead. Avoid overtightening, which can damage the threads or the product finish.
6. Slowly turn the main water supply back on and check for any leaks around the connections. If leaks occur, tighten slightly more or reapply plumber's tape.

3. OPERATION

The Delta Faucet SH5003-RB Soothing Body Spray Sprayhead is designed for simple and efficient use.

3.1. Activating the Sprayhead

- The sprayhead is designed to automatically extend when the water supply is turned on.
- Once extended, it delivers an H2Okinetic spray, which provides a unique and soothing water pattern.
- To turn off the spray, simply turn off the water supply to the unit. The sprayhead will retract when water flow ceases.

4. CARE AND MAINTENANCE

Proper care and regular maintenance will ensure the longevity and optimal performance of your Delta Faucet SH5003-RB Soothing Body Spray Sprayhead.

- **Cleaning:** Clean the sprayhead regularly with a soft, damp cloth and mild soap. Rinse thoroughly with water after cleaning.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, harsh chemicals, ammonia-based products, or scouring pads, as these can damage the finish and internal components.
- **Mineral Buildup:** In areas with hard water, mineral deposits may accumulate. To remove, gently wipe the spray nozzles with a soft cloth soaked in a 50/50 solution of white vinegar and water. For stubborn deposits, allow the solution to sit for a few minutes before wiping clean.
- **Inspection:** Periodically inspect the sprayhead for any signs of wear or damage.

5. TROUBLESHOOTING

Refer to the table below for common issues and their potential solutions.

Problem	Possible Cause	Solution
Low Water Flow	Mineral buildup in spray nozzles; partially closed water supply valve.	Clean spray nozzles as described in the Maintenance section. Ensure the water supply valve is fully open.
Leaks at Connection Point	Loose connection; damaged or improperly seated washer/gasket.	Ensure connections are tight (do not overtighten). Inspect and replace any damaged washers or gaskets. Reapply plumber's tape if necessary.

Problem	Possible Cause	Solution
Sprayhead Not Extending/Retracting Properly	Obstruction in mechanism; low water pressure.	Check for any physical obstructions preventing movement. Verify that the water pressure is adequate for proper operation.

6. PRODUCT SPECIFICATIONS

Key technical details for the Delta Faucet SH5003-RB Soothing Body Spray Sprayhead.

Feature	Detail
Brand	DELTA
Model Name	SH5003-RB
Color	Venetian Bronze
