UPBRIGHT UPBRIGHT USB Charging Cable

UPBRIGHT USB Charging Cable Instruction Manual

For Duralast DL-800L and DL-1200AC Jump Starters

Brand: UPBRIGHT | **Model:** USB Charging Cable

1. Introduction

This instruction manual provides essential information for the safe and effective use of your UPBRIGHT USB Charging Cable. This cable is designed to charge compatible Duralast lithium-ion jump starters and power packs, specifically the DL-800L and DL-1200AC series. Please read this manual thoroughly before use and retain it for future reference.
The package includes both Micro USB and USB-C charging cables to support various versions of Duralast jump starters.

Image: The UPBRIGHT USB-C charging cable, featuring a USB-A connector on one end and a USB-C connector on the other, designed for charging compatible devices.

2. Safety Information

Observe the following safety precautions to prevent damage to the cable, your device, or personal injury:

- Do not expose the cable to water, moisture, or extreme temperatures.
- Avoid bending or twisting the cable excessively, as this can damage internal wires.
- Do not use the cable if it appears damaged (frayed, cut, or exposed wires).
- Ensure the cable connectors are clean and free of debris before plugging them in.
- Only use with compatible devices and power sources as specified in this manual.
- Keep out of reach of children.

3. Package Contents

Verify that all items are present in your package:

- 1 x UPBRIGHT Micro USB Charging Cable
- 1 x UPBRIGHT USB-C Charging Cable

Image: Both the Micro USB and USB-C charging cables included in the package, showing their distinct connector types.

4. Setup

Follow these steps to prepare your charging cable for use:

1. **Identify the Correct Cable:** Determine whether your Duralast jump starter requires a Micro USB or a USB-C charging cable. Refer to your jump starter's manual or inspect its charging port.
2. **Connect to Power Source:** Insert the standard USB-A end of the charging cable into a compatible 5V/2A USB power adapter (not included) or a powered USB port (e.g., on a computer or car charger).
3. **Connect to Jump Starter:** Insert the Micro USB or USB-C end of the cable into the corresponding charging port on your Duralast jump starter.

Image: An illustration showing various Duralast jump starter models, indicating the types of devices compatible with the UPBRIGHT charging cables.

5. Operating Instructions

Once connected, the charging process will typically begin automatically. The cable facilitates power transfer; the jump starter itself manages the charging cycle and indicates its status.

- **Charging Indication:** Observe the charging indicators on your Duralast jump starter. These usually include LED lights or a digital display that show the charging progress or battery level.
- **Charging Time:** Charging time will vary depending on the jump starter's battery capacity and its current charge level. Refer to your Duralast jump starter's manual for specific charging duration estimates.
- **Disconnection:** Once the jump starter is fully charged, disconnect the cable from both the jump starter and the power source.

Image: The UPBRIGHT Micro USB charging cable, featuring a standard USB-A connector and a Micro USB connector, used for charging compatible Duralast jump starters.

6. Maintenance

Proper maintenance ensures the longevity and performance of your charging cables:

- **Cleaning:** Use a soft, dry cloth to wipe the cables and connectors. Do not use liquid cleaners or solvents.
- **Storage:** Store the cables in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling or kinking the cables.
- **Inspection:** Periodically inspect the cables for any signs of wear, fraying, or damage. Replace damaged cables immediately to prevent electrical hazards.

7. Troubleshooting

If you encounter issues with your charging cable, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Cable not charging device.	Incorrect cable type, loose connection, faulty power source, damaged cable.	◦ Ensure you are using the correct Micro USB or USB-C cable for your device. ◦ Check that both ends of the cable are securely plugged in. ◦ Try a different USB power adapter or port. ◦ Inspect the cable for visible damage; replace if necessary.
Slow charging.	Low power output from source, background processes on device (if applicable), cable resistance.	◦ Use a 5V/2A USB power adapter for optimal charging speed. ◦ Ensure the power source is providing sufficient current. ◦ Avoid using excessively long USB extension cables.

8. Specifications

Brand	UPBRIGHT
Model Name	USB Charging Cable (Compatible with Duralast DL-800L, DL-1200AC)
Connector Type	USB-A to Micro USB, USB-A to USB-C
Cable Type	USB
Input Voltage/Current	5V DC / 2A (when connected to a compatible power adapter)
Compatible Devices	Duralast DL-800L, DL-1200AC series Lithium-Ion Jump Starters and Power Packs
Color	Black
Material	Plastic
Item Weight	Approximately 2 Ounces (for the packaged item)
Special Feature	Portable
Certification	CE

9. Warranty and Support

UPBRIGHT products are designed for reliability and performance. This product comes with the following warranty and support:

- **Refund Policy:** 30 days refund period from the date of purchase.

- **Exchange Policy:** 24 months exchange period for defective units.

For technical support or warranty claims, please contact UPBRIGHT customer service through the retailer where the product was purchased or visit the official UPBRIGHT store page: UPBRIGHT Store.

Ask a question about this manual
