## Energizer HCSP6

# Energizer HCSP6 LED Spotlight User Manual

Model: HCSP6 | Brand: Energizer

## INTRODUCTION

---

Welcome to the user manual for your Energizer HCSP6 LED Spotlight. This manual provides essential information for the safe and effective use of your new spotlight. Please read it thoroughly before operation and retain it for future reference.

## WHAT'S IN THE BOX

---

- Energizer HCSP6 LED Spotlight
- 6 Energizer MAX AA Batteries

## SETUP

---

### Battery Installation

The Energizer HCSP6 LED Spotlight requires 6 AA batteries. To install or replace batteries:

1. Locate the battery compartment at the rear of the spotlight.
2. Twist the cap counter-clockwise to open the compartment.
3. Insert 6 AA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the cap and twist clockwise until securely fastened.

## OPERATING INSTRUCTIONS

---

### Power On/Off and Mode Selection

The spotlight features a large push-button switch for easy operation, even when wearing gloves.

- Press the switch once for High mode (600 lumens, 425m beam distance, 6.25-hour runtime).
- Press the switch a second time for Low mode (22-hour runtime).
- Press the switch a third time to turn the spotlight off.

### Hands-Free Operation

The design allows for hands-free use by placing the spotlight on a flat surface, directing the beam as needed. It also includes a built-in lanyard loop for hanging.

## MAINTENANCE

---

### Cleaning

To clean the spotlight, wipe it with a soft, damp cloth. Do not use abrasive cleaners or solvents.

### Storage

Store the spotlight in a cool, dry place. If storing for extended periods, remove the batteries to prevent leakage.

## TROUBLESHOOTING

---

### Light Does Not Turn On

- Check battery installation: Ensure batteries are inserted with correct polarity.
- Replace batteries: If batteries are old or depleted, replace all 6 AA batteries with new ones.
- Secure battery cap: Ensure the battery compartment cap is fully twisted and secured.

## Dim Light Output

- Replace batteries: Dim light often indicates low battery power.
- Check mode: Ensure the spotlight is not in Low mode if maximum brightness is desired.

## SPECIFICATIONS

Feature	Detail
Light Output	600 Lumens (High)
Beam Distance	425 meters (High)
Runtime	6.25 hours (High), 22 hours (Low)
Power Source	6 AA Batteries
Water Resistance	IPX4 (Water Resistant)
Impact Resistance	Withstands impact up to 7 meters
Material	Plastic
Dimensions	10"D x 4.3"W x 5.5"H
Weight	1.8 Pounds
Model Number	HCSP6
Brand	Energizer
