

StarTech BOX4HDECP

StarTech.com BOX4HDECP Conference Table Connectivity Box User Manual

Model: BOX4HDECP

1. INTRODUCTION

The StarTech.com BOX4HDECP is a conference table connectivity pop-up box designed to integrate various audio/video and data ports into a conference room table. This device allows users to connect a VGA, Mini DisplayPort, HDMI, or composite video source to an HDMI display, providing a centralized and concealed connectivity solution. It automatically converts any attached audio/video source device into a single HDMI output.

Key features include:

- Support for HDMI, VGA, Mini DisplayPort (mDP), and composite video inputs.
- Automatic conversion of input signals to a single HDMI output.
- Integrated USB charging port for mobile devices.
- Ethernet (RJ45) pass-through port for network connectivity.
- Concealed, in-table design with a hideaway panel for a clean aesthetic.

2. PACKAGE CONTENTS

Verify that your package contains the following items:

- 1x StarTech.com BOX4HDECP Conference Table Connectivity Box
- 1x Universal Power Adapter (NA/EU/UK)
- Mounting hardware (screws, clamps)
- Instruction Manual (this document)

Conference Room / Boardroom Example

Figure 2.1: Package Contents. This image displays the main unit, power adapter with various regional plugs, mounting clamps, and the printed instruction manual.

3. INSTALLATION AND SETUP

Proper installation is crucial for the functionality and aesthetics of the BOX4HDECP. This device is designed for in-table mounting.

3.1 Site Preparation

1. Ensure the chosen location on the conference table has sufficient clearance beneath for the device and cable routing.
2. Measure and mark the cutout area on the table surface according to the dimensions provided in the product specifications or the included template. A typical cutout size is approximately 6.7 inches (17 cm) in length and 3.9 inches (10 cm) in width.
3. Carefully cut the opening in the table using appropriate tools. Ensure clean edges.

3.2 Device Mounting

1. Insert the BOX4HDECP unit into the prepared cutout from the top of the table.
2. From underneath the table, secure the unit using the provided mounting clamps and screws. Tighten the screws until the unit is firmly seated and flush with the table surface.

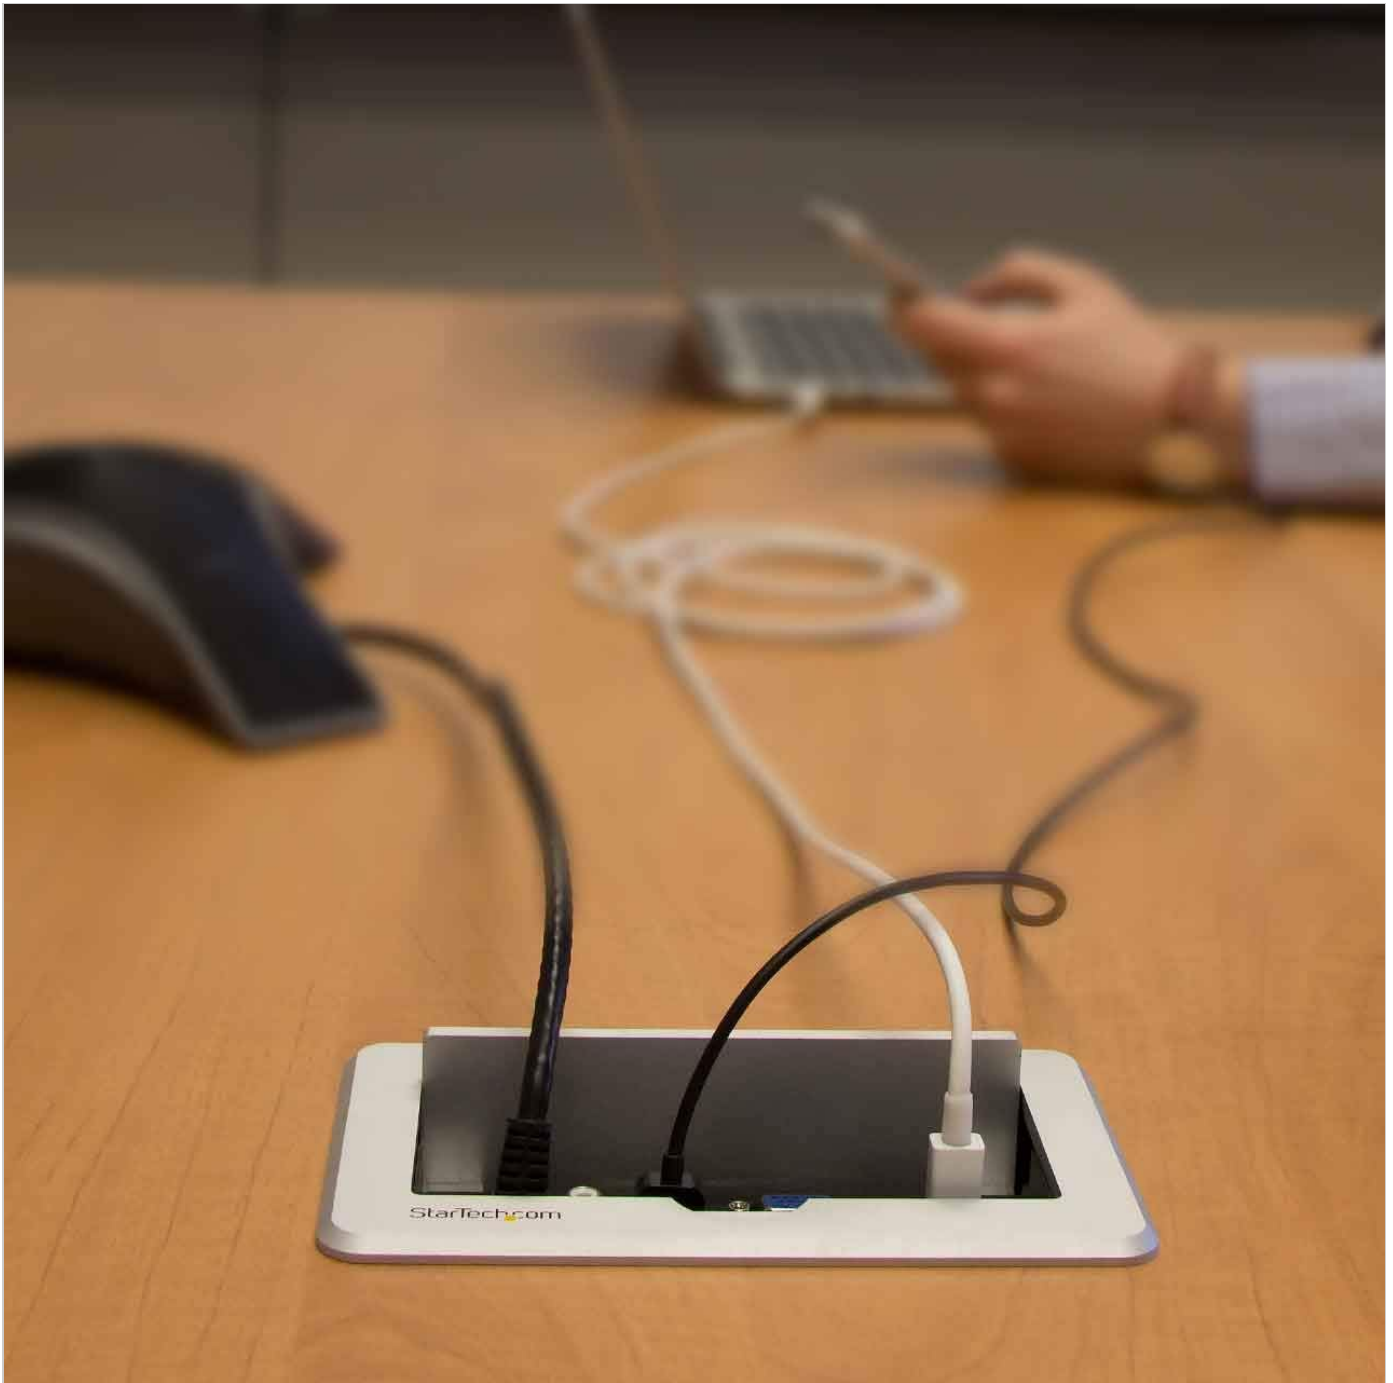

Figure 3.1: Installed Unit in a Conference Table. This image illustrates the connectivity box seamlessly integrated into a table, with various cables connected.

3.3 Cable Connections

1. **Power Connection:** Connect the universal power adapter to the DC 12V input port on the rear of the BOX4HDECP. Plug the adapter into a suitable power outlet.
2. **HDMI Output:** Connect an HDMI cable from the HDMI Out port on the rear of the BOX4HDECP to your display device (e.g., projector, monitor).
3. **Ethernet Pass-through:** If network connectivity is desired, connect an Ethernet cable from your network source to the Ethernet port on the rear of the BOX4HDECP.

Figure 3.2: Rear Panel Connections. This image highlights the Ethernet, HDMI Out, and DC 12V power input ports.

Figure 3.3: Typical Conference Room Setup. This diagram shows how to connect a source device to the connectivity box and then to a display.

4. OPERATING INSTRUCTIONS

The BOX4HDECP is designed for ease of use in a conference environment.

4.1 Accessing Ports

To access the input ports, gently press the top panel of the unit. The panel will pop up, revealing the various connectivity options.

Figure 4.1: Top Panel with Input Ports. This image shows the available input connections when the lid is open.

4.2 Connecting Source Devices

Connect your laptop or mobile device to the appropriate input port:

- **HDMI:** Use the HDMI In port for devices with HDMI output.
- **VGA:** Use the VGA port for devices with VGA output, along with the 3.5mm audio input for sound.
- **Mini DisplayPort (mDP):** Use the Mini DP In port for devices with mDP output.
- **Composite Video:** Use the Video (yellow RCA) and Audio-L/R (white/red RCA) ports for composite video sources.
- **USB Charging:** Connect your mobile device to the USB Charge port for power.
- **Ethernet:** Connect your device to the Ethernet port for wired network access.

The BOX4HDECP automatically detects the most recently connected video source and outputs it to the connected HDMI display. No manual switching is required.

4.3 Concealing Ports

When not in use, gently push down the top panel until it clicks into place, concealing the ports within the table for a tidy appearance.

5. MAINTENANCE

To ensure the longevity and proper functioning of your BOX4HDECP, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the exterior surfaces. Avoid abrasive cleaners or solvents.
- **Dust Removal:** Periodically inspect the ports for dust accumulation. Use compressed air to gently clear any debris.
- **Cable Management:** Ensure that cables connected to the unit are not excessively strained or bent, which can lead to damage.
- **Environmental Conditions:** Operate the device within its specified temperature and humidity ranges to prevent damage.

6. TROUBLESHOOTING

If you encounter issues with your BOX4HDECP, refer to the following troubleshooting steps:

- **No Video Output:**
 - Ensure the power adapter is securely connected to the unit and a working power outlet.
 - Verify that the HDMI output cable is securely connected to both the BOX4HDECP and the display device.
 - Check the input source cable (HDMI, VGA, mDP, Composite) is firmly connected to the BOX4HDECP and the source device.
 - Confirm the display device is set to the correct HDMI input.
 - Try connecting a different source device or cable to isolate the problem.
- **No Audio Output:**
 - If using VGA or Composite inputs, ensure the 3.5mm audio or RCA audio cables are correctly connected.
 - Check the audio settings on your source device and display.
 - Verify the volume levels on both the source and display.
- **USB Charging Not Working:**
 - Ensure the BOX4HDECP is powered on.
 - Try a different USB cable or device to confirm the issue is not with the cable or device.
- **Ethernet Connectivity Issues:**
 - Verify that the Ethernet cable is securely connected to both the BOX4HDECP and your network source.
 - Check network settings on your connected device.
 - Confirm the network source is active and functioning.
- **Unit Not Popping Up/Down Smoothly:**
 - Ensure no obstructions are preventing the mechanism from moving freely.
 - Check for any debris around the edges of the pop-up panel.

If these steps do not resolve the issue, please contact [StarTech.com](https://www.startech.com) technical support.

7. SPECIFICATIONS

Feature	Detail
Model Number	BOX4HDECP

Feature	Detail
Input Ports	1x HDMI In, 1x VGA In, 1x Mini DisplayPort In, 1x Composite Video In (RCA), 1x 3.5mm Audio In (for VGA/Composite), 1x USB Charge, 1x RJ45 Ethernet Pass-through
Output Ports	1x HDMI Out, 1x RJ45 Ethernet Pass-through
Supported Resolutions	Up to 1080p (1920x1080)
Product Dimensions (L x W x H)	9.06 x 6.3 x 7.09 inches (23 x 16 x 18 cm)
Item Weight	3.66 pounds (1.66 kg)
Color	Black & Silver
Power Supply	DC 12V (Universal Power Adapter included)

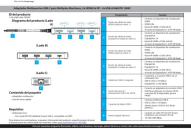

8. WARRANTY AND SUPPORT

The StarTech.com BOX4HDECP is backed by a StarTech.com warranty (details available on the official website) and free lifetime technical support.

For technical assistance, visit the [StarTech.com Support website](#) or contact their technical support team directly.

Conference Table Connectivity Box – HDMI / VGA / Mini DisplayPort to HDMI Output with Fast Charge USB Port.

StarTech ID: BOX4HDECP

The BOX4HDECP Automatic Conference Table Connectivity Box features a concealed, in-table design that lets you connect a VGA, Mini DisplayPort, HDMI or composite video source device to a single HDMI display or projector. When the video switch is in use, you can simply slide the stylish cover panel over the connectors, hiding them inside the table or podium surface.

Convenient Accessibility

Presenters can conveniently share content from their own device with the table top switch automatically converting any attached audio/video source device source into a single HDMI output. The switch box also offers stylish integration into your modern boardroom or classroom with a discreet highway panel. For added convenience the BOX4HDECP features a USB charging port to charge your mobile device and an Ethernet pass-through port for Internet connectivity in boardrooms where WiFi is not available.

Connectivity Options

With support for different video inputs including HDMI, VGA, Mini DisplayPort, and composite, the video switch ensures support for almost any laptop, Ultrabook™ or mobile device such as MacBook®, Microsoft Surface™ Pro 2 & 3, and Lenovo X1™. The switch panel even works with legacy audio/video devices such as DVD player, and supports the use of video adapters for your iPhone® or iPad®.

Collaborate Easily

The A/V switch makes your large display accessible to any presenter's video source device, by installing directly into the surface of your table or podium, and automatically outputs the most recently connected video source. Plus, support for high-definition video resolutions up to 1920x1080 (1080p) ensures the quality of your presentation is maintained.

Boîtier de connexion pour table de réunion - HDMI® / VGA / Mini DP® vers sortie HDMI avec port USB à charge rapide

StarTech ID: BOX4HDECP

Cette boîte de connectivité pour table de conférence est discrète, intégrée à la table et vous permet de connecter un appareil VGA, Mini DisplayPort, HDMI ou vidéo composite à un écran ou un vidéoprojecteur HDMI. Lorsque le commutateur vidéo n'est pas en cours d'utilisation, vous pouvez simplement faire glisser l'élégant panneau protecteur sur les connecteurs pour les dissimuler à l'intérieur de la surface de la table ou du podium.

Accès pratique

Les présentateurs peuvent facilement partager le contenu de leur propre appareil avec le commutateur de la table et ainsi convertir automatiquement toute source d'un périphérique audiovisuel connecté en une sortie HDMI. Le boîtier de commutation permet également une intégration élégante à votre salle de conférence ou de classe moderne grâce à son panneau discret. Pour plus de commodité, le BOX4HDECP comporte un port de charge USB permettant de charger votre appareil mobile ainsi qu'un port Ethernet Pass-Through assurant une connectivité Internet dans les salles de conférence où le WiFi n'est pas disponible.

Spec Sheet

Konferenzisch Tischanschlussfeld - HDMI / VGA / Mini DisplayPort auf HDMI mit Schnelllade USB Port
StarTech ID: BOX4HDECP

Diese Konnektivitäts-Box für Konferenzische kann verdeckt in einem Tisch installiert werden und dient zum Anschließen eines VGA-, Mini DisplayPort-, HDMI- oder Composite Videoquellen an ein HDMI-Display oder einen HDMI-Projektor an. Wenn der Video-Switch nicht verwendet wird, können Sie die elegante Abdeckblende über die Anschlusskabel schieben und sie im Inneren des Tisches oder Podiums elegant verstecken.

Praktischer Zugriff

Präsentatoren können Inhalte von ihrem eigenen Gerät ganz bequem teilen, wobei der Tisch-Switch automatisch jede angeschlossene Audio-/Videoquelle für einen einzigen HDMI-Ausgang konvergiert. Die Switchbox kann dank der diskreten, verschobenen Blende auch elegant in einem modernen Konferenzraum oder Unterrichtssaum integriert werden. Praktischerweise verfügt der BOX4HDECP über einen USB-Ladeanschluss zum Laden von Mobilgeräten und einen Ethernet-Passthrough-Anschluss für eine Internetverbindung in Konferenzräumen, in denen kein WiFi verfügbar ist.

Anschlussgeräte für Konferenzisch - HDMI/VGA/Mini DisplayPort till HDMI-utgång med USB-laddningsport

Produkt-ID: BOX4HDECP

Denna anslutningsbox för konferensbord har en diskret design som låter dig ansluta en VGA-, Mini DisplayPort-, HDMI- eller komposit-videokälla till en enda HDMI-utgång. När video inte används kan du enkelt dra den eleganta bländpanelen över portarna för att dölja dem och för att göra dem mindre synliga.

Präsentationer kan enkelt delas med alla från din egen enhet, med bildskärmen och automatiskt konvergera alla inkommande audio- eller video till en enda HDMI-utgång. Den diskreta designen gör att den moderna konferensrummet eller klassrummet inte ser ut som ett tekniskt utrustningsrum. För extra bekvämlighet har BOX4HDECP en USB-laddningsport för att ladda din mobiltelefon eller en Ethernet-genereringspunkt för Internet-anslutning i styrelserum utan WiFi.

Allt du behöver göra är att ansluta din presentation till BOX4HDECP och alla videokällor genom installation. Det är så enkelt som att ansluta och sedan automatiskt den senaste videon visas. Enkelheten, praktiskheten och den diskreta designen gör BOX4HDECP till en perfekt lösning för moderna mötesrum och klassrum.

Med stöd för alla videomängder inklusive HDMI, VGA, Mini DisplayPort och komposit ger den diskreta designen dig en diskret lösning för konferensrum, klassrum eller utbildningsrum. Den diskreta designen gör att den moderna konferensrummet eller klassrummet inte ser ut som ett tekniskt utrustningsrum. För extra bekvämlighet har BOX4HDECP en USB-laddningsport för att ladda din mobiltelefon eller en Ethernet-genereringspunkt för Internet-anslutning i styrelserum utan WiFi.

BOX4HDECP från StarTech.com är ett komplett och praktiskt lösningssätt på teknisk support.

Certifikat, rapporter och kompatibilitet

StarTech.com BOX4HDECP Conference Table Connection Box - HDMI, VGA, Mini DisplayPort to HDMI
