

Hot Wheels CHX36

Hot Wheels Track Builder Spiral Stack-Up Track Set

Model: CHX36 | Brand: Hot Wheels

1. PRODUCT OVERVIEW

The Hot Wheels Track Builder Spiral Stack-Up Track Set offers a dynamic and customizable racing experience. This set allows for vertical, horizontal, and spiral track configurations, providing diverse play possibilities. It includes components for building a multi-level track system and one Hot Wheels car to begin play immediately.

Key Features:

- Modular design for building tracks vertically, horizontally, or in a spiral.
- Includes stackable risers and track connectors for varied construction.
- Features a car release mechanism for multi-car action.
- Compatible with other Hot Wheels Track Builder system components.
- Comes with one Hot Wheels die-cast car.

2. ASSEMBLY INSTRUCTIONS

This track set requires assembly. Follow the steps below to construct your Spiral Stack-Up Track Set.

Components:

- Base plate(s)
- Stackable risers (building blocks)
- Spiral track sections
- Straight track sections
- Track connectors
- Launch mechanism/gates
- One Hot Wheels die-cast car

Step-by-Step Assembly:

1. **Unpack Components:** Carefully remove all track pieces, connectors, risers, and the car from the packaging.
2. **Assemble the Base:** Connect any base plate sections if your configuration requires them. Ensure they are securely

interlocked.

3. **Build the Vertical Structure:** Attach the stackable risers (building blocks) to the base or to each other to create the desired height for your spiral. Ensure each riser clicks firmly into place.
4. **Connect Spiral Track:** Begin attaching the spiral track sections to the risers, working your way up or down. Use track connectors to secure each piece. The spiral should form a continuous path for cars.
5. **Integrate Launch Mechanisms:** Attach any launch mechanisms or gates to the designated points on the track, typically at the top or along the spiral, as shown in the product imagery.
6. **Add Straight Track Sections:** Connect straight track sections to the ends of the spiral or launch points to extend the raceway. Ensure all connections are tight to prevent cars from derailing.
7. **Final Check:** Inspect all connections to ensure the track is stable and securely assembled before placing cars.

3. OPERATING INSTRUCTIONS

Launching Cars:

- Place a Hot Wheels car at the designated starting point or launch gate.
- Activate the launch mechanism (if present) or gently push the car to initiate its descent down the track.

Spiral Action:

- Cars will travel down the spiral track, gaining speed.
- Some configurations include gates that can release additional cars as the first car passes, creating multi-car action.
- Be aware of the
