Sluban M38-B5700 Attack Helicopter Building Block Set

Instruction Manual

1. Product Overview

The Sluban M38-B5700 Attack Helicopter is a construction toy set designed for building an army special forces helicopter. This set is part of the Sluban Army collection and includes 51 pieces, allowing for the assembly of a detailed helicopter model with a pilot figure.

- **High-Quality Components:** Constructed from durable plastic for lasting play.
- **Compatibility:** Fully compatible with other major building block brands.
- **Complete Set:** All components necessary to build the helicopter as depicted are included.

Recommended Age: Suitable for children aged 6 years and older.

2. Setup and Assembly

Follow these general guidelines for assembling your Sluban M38-B5700 Attack Helicopter. Refer to the diagrams provided in the physical instruction booklet included with your set for detailed step-by-step instructions.

1. **Unpack Components:** Carefully open the packaging and lay out all 51 pieces on a clean, flat surface. Verify that all pieces are present according to the parts list in your physical manual.
2. **Identify Key Sections:** Begin by identifying the main body, cockpit, rotor assembly, and landing gear components.
3. **Assemble Base Structure:** Connect the larger base plates and structural elements to form the core of the helicopter.
4. **Build Cockpit:** Assemble the cockpit section, including the transparent canopy. The canopy is designed to be foldable for easy placement of the pilot figure.
5. **Attach Pilot:** Place the pilot figure into the cockpit seat. Ensure the pilot's goggles and helmet are correctly

positioned.

6. **Construct Rotor and Tail:** Assemble the main rotor and tail section, attaching them securely to the helicopter body.
7. **Add Details:** Attach smaller details such as the two rocket launchers and landing skids.
8. **Final Check:** Ensure all connections are firm and the helicopter is stable.

3. Operating Instructions

Once assembled, the Sluban M38-B5700 Attack Helicopter is ready for imaginative play. This model is designed for interactive scenarios within the Sluban Army universe.

- **Pilot Placement:** The cockpit features a single seat for the included pilot figure. The transparent canopy can be opened to place or remove the pilot.
- **Rotor Movement:** The main propeller can be manually rotated, simulating flight.
- **Rocket Launchers:** The helicopter is equipped with two non-firing rocket launchers for role-play scenarios.
- **Maneuverability:** Use the helicopter in various play scenarios, simulating attack missions or reconnaissance flights.

4. Maintenance

Proper care will ensure the longevity and appearance of your Sluban M38-B5700 Attack Helicopter.

- **Cleaning:** To clean the building blocks, gently wipe them with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the plastic.
- **Storage:** Store the assembled helicopter or individual pieces in a cool, dry place away from direct sunlight to prevent discoloration or warping.
- **Disassembly:** If disassembling, do so carefully to avoid stressing or breaking the connection points of the blocks.

5. Troubleshooting

If you encounter any issues with your Sluban M38-B5700 Attack Helicopter set, consider the following:

- **Missing Pieces:** If you believe a piece is missing, first double-check the packaging and surrounding area. If a piece is genuinely missing, contact Sluban customer support for assistance.
- **Difficulty Assembling:** Ensure you are following the steps in the instruction manual precisely. Sometimes, a piece may appear similar to another but has a slightly different connection point.
- **Loose Connections:** If parts feel loose, ensure they are fully pressed together. Building blocks require firm connections for stability.
