Vidal Sassoon Titanium Ionic Round Thermal Brush User Manual

Introduction

Thank you for choosing the Vidal Sassoon Titanium Ionic Round Thermal Brush. This manual provides essential information for the safe and effective use, maintenance, and care of your new styling tool. Please read these instructions thoroughly before first use and retain them for future reference.

Product Features

The Vidal Sassoon Titanium Ionic Round Thermal Brush is designed to assist in achieving various hair styles with enhanced shine and faster drying times when used with a blow dryer. Key features include:

- **Titanium Ionic Technology:** Helps to reduce frizz and enhance shine for a smooth finish.
- **Round Thermal Barrel:** Designed to distribute heat evenly from a blow dryer, aiding in styling and shaping hair.
- **Faster Drying:** The thermal properties contribute to quicker drying of hair.
- **Versatile Styling:** Suitable for creating loose curls, waves, or straightening hair.
- **Ergonomic Handle:** Provides comfortable grip during use.

Setup

1. **Unpack:** Carefully remove the brush and any accessories from the packaging.
2. **Inspect:** Examine the brush for any signs of damage. If any damage is found, do not use the product and contact customer support.
3. **Familiarize:** Take a moment to familiarize yourself with the brush's design and bristles.

Operating Instructions

This thermal brush is designed to be used in conjunction with a blow dryer to achieve desired hair styles. It is not a self-heating appliance.

General Use for Styling:

1. **Prepare Hair:** Ensure hair is towel-dried and detangled. For best results, apply a heat protectant or compatible styling product.
2. **Section Hair:** Divide hair into manageable sections using clips.
3. **Position Brush:** Place the brush under a section of hair, close to the roots.
4. **Apply Heat:** Direct the airflow from your blow dryer onto the section of hair wrapped around the brush. Move the blow dryer and brush simultaneously down the hair shaft.
5. **For Volume/Curls:** Roll the hair section around the brush, direct heat, and hold briefly before gently unwinding.
6. **For Straightening/Smoothing:** Pull the brush smoothly through the hair section while directing heat from the blow dryer.
7. **Repeat:** Continue with remaining sections until desired style is achieved.

Safety Precautions:

- Do not use the brush on excessively wet hair that is dripping.
- Avoid direct contact of the hot blow dryer nozzle with the brush bristles for extended periods to prevent damage.

- Keep out of reach of children.

Maintenance and Care

Cleaning the Brush:

1. **Remove Hair:** Regularly remove loose hair from the bristles using a comb or your fingers.
2. **Wash (Optional):** If necessary, gently wash the bristles with mild soap and lukewarm water. Avoid submerging the entire brush handle.
3. **Rinse and Dry:** Rinse thoroughly and allow the brush to air dry completely with the bristles facing down to prevent water from collecting in the base.

Storage:

Store the brush in a clean, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

- **Hair Tangling in Brush:** Ensure hair is thoroughly detangled before use. Work with smaller sections of hair. Do not pull hair too forcefully.
- **Brush Not Performing as Expected:** Ensure you are using the brush with an adequately powerful blow dryer. Check that hair is not excessively wet.
- **Bristles Damaged:** Avoid excessive heat from the blow dryer directly on the bristles. Do not use the brush if bristles are severely damaged, as this can harm hair.
