Logitech G 920-006385

Logitech G910 Orion Spark RGB Mechanical Gaming Keyboard

Model: 920-006385

Brand: Logitech G

INTRODUCTION

The Logitech G910 Orion Spark is a high-performance RGB mechanical gaming keyboard engineered for competitive gaming. It features exclusive Romer-G mechanical switches designed for rapid actuation and enhanced durability. This manual provides comprehensive instructions for setting up, operating, maintaining, and troubleshooting your keyboard to ensure optimal performance.

SETUP GUIDE

Connecting Your Keyboard

To set up your Logitech G910 Orion Spark keyboard, connect the integrated USB cable to an available USB port on your computer. The keyboard is plug-and-play compatible, but for full functionality, including customizable RGB lighting and programmable G-keys, it is recommended to install the Logitech G HUB software.

Software Installation (Logitech G HUB)

For advanced customization and optimal performance, download and install the Logitech G HUB software from the official Logitech G website. This software allows you to:

- Customize RGB illumination for individual keys from a palette of 16 million colors.
- Program 9 G-keys with custom macros and commands.
- Manage game profiles and synchronize lighting effects with supported games.
- Utilize the Arx Control App for in-game data and device configuration on your smartphone or tablet.

KEY FEATURES

- **Romer-G Mechanical Switches:** Exclusive switches offering up to 25% faster actuation and enhanced durability.
- **Customizable RGB Illumination:** Personalize individual key lighting from a palette of 16 million colors.
- **9 Programmable G-keys:** Create custom game macros to execute complex commands with speed and accuracy.
- **Dedicated Media Controls:** One-touch control panel for quick access to play, pause, mute, volume, and skip.
- **Arx Control App and Smartphone Dock:** Instantly access in-game data on your smartphone or tablet without interrupting gameplay.

Arx Control App Integration

The G910 Orion Spark integrates with the Logitech Arx Control App, allowing you to monitor system performance, view in-game statistics, and control media playback directly from your mobile device. The keyboard features a built-in dock to securely hold your smartphone or tablet.

ARX CONTROL APP

Access real-time in-game stats on your smartphone or tablet—without interrupting the game.

OPERATING INSTRUCTIONS

Customizing RGB Illumination

Using the Logitech G HUB software, you can customize the RGB lighting of your G910 keyboard. Navigate to the "Lighting" tab within the software to:

- Select from preset lighting effects (e.g., Color Wave, Breathing, Star Effect).
- Create custom lighting profiles for specific games or applications.
- Assign individual key colors or create lighting zones.
- Synchronize lighting with other Logitech G devices.

Programming G-keys

The 9 programmable G-keys (G1-G9) on the left side and above the F-keys can be assigned various functions through the Logitech G HUB software. To program a G-key:

1. Open Logitech G HUB.
2. Select your G910 keyboard.
3. Go to the "Assignments" tab.
4. Drag and drop commands, macros, or system actions onto the desired G-key.
5. Save your profile.

Using Dedicated Media Controls

The G910 features dedicated media controls located in the upper right corner of the keyboard. These controls allow for quick access to audio and video playback functions:

- **Volume Roller:** Adjusts system volume.
- **Mute Button:** Mutes/unmutes audio.
- **Play/Pause, Stop, Previous, Next Buttons:** Control media playback.

MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Logitech G910 Orion Spark keyboard, regular cleaning and proper care are recommended:

- **Cleaning Keycaps:** Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Removing Debris:** Use compressed air to remove dust and debris from between the keycaps.
- **Spill Prevention:** The keyboard is not liquid resistant. Avoid spilling liquids on the keyboard as this can cause permanent damage.
- **Cable Management:** Ensure the USB cable is not kinked or strained to prevent damage.

TROUBLESHOOTING

If you encounter issues with your Logitech G910 Orion Spark keyboard, try the following steps:

- **Keyboard Not Responding:**

- Ensure the USB cable is securely connected to your computer.
- Try connecting the keyboard to a different USB port.
- Restart your computer.

• **RGB Lighting Issues:**

- Verify that the Logitech G HUB software is installed and up to date.
- Check lighting settings within the G HUB software.
- Ensure the lighting toggle button on the keyboard (usually near media controls) is active.

• **G-keys Not Functioning:**

- Confirm that G-key assignments are correctly configured in Logitech G HUB.
- Ensure the correct profile is active for the application or game you are using.

• **Software Not Detecting Keyboard:**

- Reinstall Logitech G HUB software.
- Temporarily disable any firewall or antivirus software that might be interfering.

For further assistance, refer to the official Logitech G support website or contact customer service.
