Emerio IC-201930

Emerio IC-201930 Ice Cream Maker User Manual

Model: IC-201930 | Brand: Emerio

INTRODUCTION

Thank you for purchasing the Emerio IC-201930 Ice Cream Maker. This manual provides important information regarding the safe operation, assembly, use, and maintenance of your appliance. Please read these instructions carefully before first use and keep them for future reference.

Important Safety Instructions

- Always unplug the appliance from the power outlet before cleaning or when not in use.
- Do not immerse the motor unit in water or any other liquid.
- Keep hands and utensils out of the freezer bowl during operation to reduce the risk of injury to persons or to the appliance itself.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- This appliance is for household use only.

PRODUCT OVERVIEW AND COMPONENTS

Familiarize yourself with the parts of your Emerio IC-201930 Ice Cream Maker:

- Freezer Bowl (1 Liter capacity)
- Mixing Paddle
- Transparent Lid with Ingredient Opening
- Motor Unit with On/Off Switch
- Recipe Booklet (included)

Figure 1: Fully assembled Emerio IC-201930 Ice Cream Maker.

Figure 2: Individual components of the ice cream maker, including the freezer bowl, mixing paddle, transparent lid, and motor unit.

SETUP

1. **Prepare the Freezer Bowl:** Before making ice cream, the freezer bowl must be thoroughly frozen. Place the empty, clean, and dry freezer bowl in the freezer for at least 8-12 hours, or until it is completely frozen. The colder the bowl, the better the results. Ensure your freezer is set to -18°C (0°F) or colder.
2. **Assemble the Unit:**
 - Once the freezer bowl is frozen, remove it from the freezer.
 - Place the mixing paddle inside the freezer bowl, ensuring it sits correctly on the central pin.
 - Position the motor unit on top of the transparent lid, aligning the drive shaft with the opening in the lid.
 - Place the assembled lid and motor unit onto the freezer bowl, twisting slightly to secure it in place.
3. **Position the Appliance:** Place the assembled ice cream maker on a stable, flat, and dry surface.

OPERATING INSTRUCTIONS

Follow these steps to make delicious homemade ice cream, yogurt, or sorbet:

1. **Prepare Your Ingredients:** Prepare your desired ice cream, yogurt, or sorbet mixture according to a recipe. Ensure the mixture is chilled in the refrigerator for at least 2 hours before churning. This helps achieve a better consistency.
2. **Start the Machine:** Ensure the ice cream maker is fully assembled with the frozen bowl, mixing paddle, lid, and motor unit in place. Plug the appliance into a suitable power outlet. Turn the On/Off switch to the 'On' position. The mixing paddle will begin to rotate.

3. **Add Ingredients:** Slowly pour your chilled mixture through the ingredient opening in the transparent lid while the machine is running.
4. **Churning Process:** Allow the machine to churn the mixture for approximately 20-40 minutes. The exact time will depend on the recipe and desired consistency. The mixture will thicken as it churns.
5. **Check Consistency:** Once the mixture reaches your desired consistency (soft-serve for immediate consumption, or firmer for freezing), turn the On/Off switch to the 'Off' position and unplug the appliance.
6. **Serve or Store:** Remove the lid and mixing paddle. Use a plastic or wooden utensil to scoop the ice cream from the bowl. For firmer ice cream, transfer it to an airtight container and place it in the freezer for 2-4 hours.

Tip: The included recipe booklet provides various recipes for ice cream, yogurt, and sorbet to get you started.

MAINTENANCE AND CLEANING

Proper cleaning and maintenance will ensure the longevity of your ice cream maker.

1. **Unplug Before Cleaning:** Always ensure the appliance is unplugged from the power outlet before cleaning.
2. **Disassemble:** Remove the motor unit, lid, and mixing paddle from the freezer bowl.
3. **Wash Parts:** Wash the freezer bowl, mixing paddle, and transparent lid in warm, soapy water. Rinse thoroughly and dry

completely before storing. These parts are not dishwasher safe.

- 4. **Clean Motor Unit:** Wipe the motor unit with a damp cloth. Do NOT immerse the motor unit in water or any other liquid.
- 5. **Storage:** Store the clean and dry ice cream maker in a cool, dry place.

TROUBLESHOOTING

If you encounter any issues with your ice cream maker, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Machine does not turn on.	Not plugged in; power switch off; power outage.	Ensure the appliance is securely plugged into a working outlet. Check the On/Off switch. Verify power supply.
Ice cream mixture is not freezing or thickening.	Freezer bowl not sufficiently frozen; mixture not chilled; too much mixture; ambient temperature too high.	Ensure freezer bowl is frozen for at least 8-12 hours. Chill mixture thoroughly before adding. Do not exceed the 1-liter capacity. Operate in a cool environment.
Mixing paddle stops during operation.	Mixture is too thick; too much mixture; motor overheating.	Ensure mixture is not too thick. Do not overfill the bowl. Unplug and let the motor cool down before restarting.

SPECIFICATIONS

Feature	Detail
Brand	Emerio
Model Number	IC-201930
Color	Green
Capacity	1 Liter
Product Dimensions	20 x 20 x 20 cm
Item Weight	2.81 Kilograms
