WMF Miami 60-Piece Cutlery Set Instruction Manual

Model: 12.8144.9000

1. INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your WMF Miami 60-Piece Cutlery Set. Crafted from high-quality Cromargan 18/10 polished stainless steel, this set is designed for durability and elegance. Please read these instructions carefully to ensure the longevity and optimal performance of your cutlery.

2. PACKAGE CONTENTS

Your WMF Miami 60-Piece Cutlery Set includes the following items:

- 12 x Dinner Knives
- 12 x Dinner Forks
- 12 x Dinner Spoons
- 12 x Teaspoons
- 12 x Pastry Forks

3. INITIAL USE AND CLEANING

Before using your new cutlery set for the first time, it is recommended to wash all pieces thoroughly. This removes any manufacturing residues and prepares them for food contact.

3.1. Hand Washing

1. Wash each piece individually with warm water and a mild dish soap.
2. Use a soft sponge or cloth to avoid scratching the polished surface.
3. Rinse thoroughly under running water.
4. Dry immediately with a soft, lint-free cloth to prevent water spots.

3.2. Dishwasher Use

The WMF Miami cutlery set is dishwasher-safe. Follow these guidelines for optimal results:

1. Load cutlery with handles facing down in the dishwasher basket to ensure thorough cleaning of the eating surfaces. Knives should be placed with the blade down for safety.
2. Avoid contact between different metal types (e.g., silver and stainless steel) in the dishwasher, as this can cause chemical reactions and stains.
3. Use a high-quality dishwasher detergent and rinse aid.
4. Remove cutlery promptly after the wash cycle is complete and dry any remaining water spots with a soft cloth.

4. CARE AND MAINTENANCE

Proper care ensures your WMF Miami cutlery retains its shine and quality for years.

4.1. Daily Cleaning

After each use, rinse cutlery immediately to remove food residues, especially acidic foods like fruit, vinegar, or mustard, which can cause corrosion if left on the surface for extended periods.

4.2. Preventing Water Spots

Water spots are often caused by mineral deposits in hard water. To minimize these, ensure cutlery is completely dry after washing. Using a rinse aid in the dishwasher or hand-drying immediately after washing is effective.

4.3. Polishing

While the 18/10 stainless steel is highly resistant to tarnishing, occasional polishing with a specialized stainless steel cleaner can restore its original luster. Always follow the product instructions for the cleaner.

5. STORAGE

Store your cutlery in a dry environment. Using a cutlery tray or a dedicated storage box can prevent scratches and keep the pieces organized. Avoid storing cutlery in damp conditions or in direct contact with other metals that may cause reactions.

6. TROUBLESHOOTING

6.1. Rust Spots

Small rust spots can sometimes appear on stainless steel cutlery. These are usually not actual rust from the cutlery itself, but rather 'flash rust' transferred from other items in the dishwasher (e.g., rusty screws on old pots or pans, or damaged dishwasher racks). To remove these spots, use a stainless steel cleaner or a non-abrasive polish. Ensure all other items in the dishwasher are free of rust.

6.2. Dullness or Streaks

If your cutlery appears dull or has streaks after washing, it may be due to hard water deposits or insufficient drying. Re-wash the cutlery, ensuring proper drying, or use a stainless steel polish to restore shine.

7. PRODUCT SPECIFICATIONS

Brand	WMF
Model Number	12.8144.9000
Material	Cromargan 18/10 Stainless Steel
Number of Pieces	60
Finish Type	Polished
Color	Silver
Dishwasher Safe	Yes
Item Weight	1.87 pounds
Product Dimensions (Packaging)	19.09 x 15.16 x 2.09 inches
