## Swiffer 3936069

# Swiffer Sweeper 2-in-1 Dry and Wet Mop Starter Kit Instruction Manual

Model: 3936069

Brand: Swiffer

## INTRODUCTION

The Swiffer Sweeper is designed for both sweeping and mopping your floors, offering a versatile cleaning solution. This starter kit includes everything you need to begin, with thick dry sweeping cloths that conform to floor surfaces to trap dirt, and wet mopping cloths that dissolve grime for a thorough clean. This manual provides detailed instructions for assembly, operation, and maintenance to ensure optimal performance.

## PACKAGE CONTENTS

- 1 Swiffer Sweeper Mop
- 7 Dry Sweeping Refill Cloths
- 3 Wet Mopping Pads

## SETUP: ASSEMBLING YOUR SWIFFER SWEEPER

Assembly of your Swiffer Sweeper is quick and straightforward. The mop handle comes in several interlocking pieces that snap together securely.

1. Take the handle sections and align the push-button connectors with the corresponding holes.
2. Push the buttons and insert one section into the next until they click into place. Ensure all sections are firmly connected.
3. Attach the assembled handle to the mop head by aligning the connector and pushing until it clicks.

## OPERATING INSTRUCTIONS: DRY SWEEPING

Use dry sweeping cloths to trap and lock dirt, dust, and hair from your floors.

1. Lay a dry sweeping cloth flat on the floor.
2. Place the Swiffer Sweeper mop head onto the center of the cloth.
3. Fold the edges of the cloth over the sides of the mop head and tuck them into the grippers on top.
4. Begin sweeping your floors in long, even strokes. The cloth's textured surface will attract and hold debris.

## OPERATING INSTRUCTIONS: WET MOPPING

For a deeper clean, use wet mopping pads to dissolve and lock away dirt and grime.

1. Remove a wet mopping pad from its packaging.
2. Lay the wet pad flat on the floor with the scrubbing strip facing up.
3. Place the Swiffer Sweeper mop head onto the center of the pad.
4. Fold the edges of the pad over the sides of the mop head and tuck them into the grippers. Ensure the scrubbing strip is positioned along one edge of the mop head for tough spots.
5. Mop your floors, applying gentle pressure. For stubborn spots, flip the mop head to use the scrubbing strip.

**ULTRATHICK PAD GETS DEEP IN GROOVES**  
PICKS UP DIRT, DUST & HAIR

**HEAVY DUTY WET PADS**  
EASILY FIX YOUR TOUGH MESSSES

**GREAT ON ALL FLOOR TYPES**

Figure 7: The Swiffer Sweeper is effective on virtually all finished floor types.

## MAINTENANCE: REPLACING PADS

After use, simply remove the dirty pad and dispose of it. Replace with a fresh dry or wet pad as needed.

1. Untuck the used pad from the grippers on the mop head.
2. Carefully remove the pad, avoiding contact with trapped dirt or cleaning solution.
3. Dispose of the used pad in the trash.
4. Attach a new dry or wet pad following the instructions in the 'Dry Sweeping' or 'Wet Mopping' sections.

## TROUBLESHOOTING & IMPORTANT WARNINGS

- **Wet Cloths Usage:** Do not use Swiffer Sweeper wet cloths on unfinished, oiled, or waxed wooden boards, non-sealed tiles, or carpeted floors. These surfaces may be sensitive to moisture or cleaning solutions.
- **Pad Drying Out:** If wet pads dry out too quickly, ensure they are stored in their sealed packaging until ready for use. For larger areas, multiple wet pads may be required.
- **Ineffective Dirt Pickup (Dry):** Ensure the dry cloth is properly tucked into all four grippers on the mop head. For heavily soiled areas, pre-sweep with a broom or vacuum before using the Swiffer Sweeper.

## SPECIFICATIONS

<b>Product Dimensions</b>	4.86 x 2.96 x 12.4 inches
<b>Item Weight</b>	1.5 Pounds
<b>Head Material</b>	Polyester
<b>Surface Recommendation</b>	Floor
<b>Item Model Number</b>	3936069
