## Millennium Lighting 253-BG

# Millennium 253-BG Adapter Plate Instruction Manual

Model: 253-BG | Brand: Millennium Lighting

## 1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of the Millennium 253-BG Adapter Plate. This adapter plate is designed to facilitate the installation of lighting fixtures, specifically pendants and lanterns, by providing a stable and aesthetically pleasing mounting surface. It is a traditional style adapter plate, measuring 36.00 inches in length, 4.50 inches in width, and 36.00 inches in height (when considering its potential use with a fixture). The product is finished in Bronze/Dark.

Figure 1.1: Millennium 253-BG Adapter Plate, showcasing its Bronze/Dark finish and elongated design. This plate serves as a mounting base for various lighting fixtures.

## 2. SAFETY INFORMATION

Before proceeding with installation or maintenance, please read and understand all safety warnings. Failure to follow these instructions may result in electric shock, fire, or other injuries.

- **Electrical Safety:** This product operates at 120 Volts. Always disconnect power at the circuit breaker or fuse box before installing, servicing, or cleaning the adapter plate or any connected lighting fixture.
- **UL Listed:** The adapter plate is UL listed, indicating compliance with safety standards. Ensure all connected components also meet relevant safety standards.
- **Dry Location Use:** This product is rated for dry locations only. Do not install in areas exposed to moisture or water.
- **Local Codes:** Always check and comply with local electrical codes and regulations before installation. If unsure, consult a qualified electrician.
- **Weight Capacity:** Ensure the mounting surface and hardware can safely support the combined weight of the adapter plate and any attached lighting fixture.

## 3. SETUP AND INSTALLATION

The Millennium 253-BG Adapter Plate is designed for straightforward installation. Professional installation is recommended for electrical components.

### 3.1. Tools and Materials Required (Not Included)

- Screwdriver (Phillips and/or Flathead)
- Wire strippers (if connecting electrical wires)
- Electrical tape
- Voltage tester
- Mounting hardware appropriate for your ceiling/wall type (screws, anchors, etc.)

### 3.2. Installation Steps

1. **Prepare the Area:** Turn off power to the installation area at the main circuit breaker. Use a voltage tester to confirm power is off.
2. **Remove Existing Fixture (if applicable):** Carefully remove any existing lighting fixture or cover plate from the electrical box.
3. **Position the Adapter Plate:** Align the Millennium 253-BG Adapter Plate over the electrical box or desired mounting location. The plate has pre-drilled holes for mounting.
4. **Secure the Plate:** Using appropriate mounting hardware (not supplied), securely fasten the adapter plate to the ceiling or wall. Ensure it is level and firmly attached.
5. **Connect Wiring (if applicable):** If the adapter plate is part of an electrical connection, follow the wiring instructions for your specific lighting fixture. Typically, this involves connecting the fixture's wires to the house wiring (black to black, white to white, ground to ground) using wire nuts. Ensure all connections are secure and insulated with electrical tape.
6. **Mount Lighting Fixture:** Once the adapter plate is securely installed, attach your pendant or lantern fixture to the adapter plate according to the fixture's instructions.
7. **Restore Power:** Once installation is complete and all connections are secure, restore power at the circuit breaker. Test the lighting fixture.

Figure 3.1: Millennium 253-BG Adapter Plate in Burnished Gold finish. This image illustrates an alternative finish option for the adapter plate.

## 4. OPERATION

The Millennium 253-BG Adapter Plate itself does not have operational controls. Its function is to provide a stable and secure mounting point for lighting fixtures. Once installed, the operation of your lighting system will depend on the specific fixture attached to the adapter plate and its associated controls (e.g., wall switch, dimmer).

Ensure that the adapter plate is always clean and free from obstructions to maintain its aesthetic and structural integrity.

## 5. MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your adapter plate.

- **Cleaning:** To clean the adapter plate, wipe it gently with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth. Do not use abrasive cleaners, solvents, or polishes as these may

damage the finish.

- **Inspection:** Periodically inspect the adapter plate and its mounting hardware for any signs of loosening, damage, or wear. Ensure all screws remain tight.
- **Electrical Connections:** If you notice any flickering or issues with the connected fixture, ensure power is off and check the electrical connections for tightness. If problems persist, consult a qualified electrician.

## 6. TROUBLESHOOTING

---

This section addresses common issues you might encounter with the adapter plate.

Problem	Possible Cause	Solution
Adapter plate is loose or wobbly.	Mounting screws are not tight enough or incorrect mounting hardware used.	Turn off power. Tighten all mounting screws. Ensure appropriate anchors/screws are used for the mounting surface.
Connected fixture is not working.	No power to the circuit, loose electrical connections, faulty fixture.	Check circuit breaker. Turn off power, inspect and tighten electrical connections. Test the fixture separately if possible. Consult an electrician if issues persist.
Finish appears dull or damaged.	Improper cleaning agents used, exposure to moisture, or physical damage.	Clean only with a soft, dry or slightly damp cloth. Avoid abrasive cleaners. Damage from improper cleaning or physical impact is not typically covered by warranty.

## 7. SPECIFICATIONS

---

Attribute	Detail
Model Number	253-BG
Brand	Millennium Lighting
Style	Traditional
Color	Bronze/Dark
Material	Glass, Metal
Product Dimensions	1" L x 4.5" W x 36" H
Item Weight	3 Pounds
Voltage	120 Volts
Safety Rating	UL Listed, Dry Location
Mounting Type	Protruding
UPC	842639004703

## 8. WARRANTY AND SUPPORT

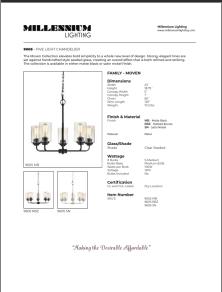

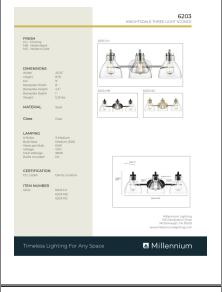

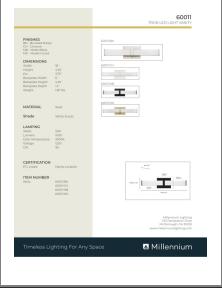

The product specifications indicate "Warranty Description: Na." This suggests that a formal manufacturer's warranty may not be explicitly provided or is not detailed in the product information. For any specific warranty inquiries or support needs, please contact Millennium Lighting directly.

For technical assistance or questions regarding your Millennium 253-BG Adapter Plate, please visit the official Millennium Lighting website or contact their customer service department. When contacting support, please have your model number (253-BG) and purchase information readily available.
