1. SETUP

Follow these steps to set up your new SONGMICS UJWB012 Watch Box:

1. **Unpacking:** Carefully remove the watch box from its packaging. Inspect for any damage during transit.
2. **Placement:** Choose a stable, dry, and dust-free surface for the watch box. Avoid direct sunlight or areas with extreme temperature fluctuations to preserve the materials.
3. **Key Retrieval:** Locate the small key provided, typically found within the bottom drawer or a small bag inside the box. This key is for the metal lock on the top lid.

2. OPERATING INSTRUCTIONS

Utilize your watch box effectively with these guidelines:

1. **Opening the Top Lid:** Gently lift the metal latch on the front of the box. The lid will open smoothly, revealing the top layer of watch slots. The lid features a sturdy hinge to keep it open without falling.
2. **Placing Watches (Top Layer):** Each of the 12 slots in the top layer contains a removable velvet pillow. Wrap your watch band around a pillow and place it securely into a slot. The slots are designed to accommodate watches with a dial size up to 48 mm.
3. **Using the Bottom Drawer:** Pull the small knob on the front of the bottom drawer to slide it open. This layer offers various compartments for different types of jewelry and accessories.
 - **Ring Rolls:** Use the padded rolls to securely store rings.
 - **Divided Sections:** Utilize the smaller divided sections for earrings, cufflinks, tie clips, or other small items.
 - **Open Sections:** The larger open sections are suitable for necklaces, bracelets, or additional watch straps.

4. **Locking the Box:** To secure your collection, close the top lid and engage the metal latch. Insert the provided key into the lock and turn it to secure the lid. Turn the key in the opposite direction to unlock.

3. MAINTENANCE

Proper care will ensure the longevity and appearance of your watch box:

- **Exterior Cleaning:** Wipe the PU leather exterior with a soft, slightly damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the material.
- **Interior Cleaning:** Gently dust the velvet lining with a soft brush or a lint roller to remove any debris. Do not use wet cloths on the velvet.
- **Glass Lid Care:** Clean the transparent glass lid with a glass cleaner and a soft, lint-free cloth to maintain clarity and prevent scratches.
- **Pillow Maintenance:** The removable velvet pillows can be gently dusted. If they become misshapen, gently reshape them by hand.
- **Lock Care:** Ensure the metal lock is kept clean and dry. Avoid applying excessive force when locking or unlocking.

4. TROUBLESHOOTING

If you encounter any issues, refer to the following common problems and solutions:

- **Lid Not Closing Properly:** Check if any watches or items in the top layer are protruding and obstructing the lid. Ensure the metal latch mechanism is clear of debris.
- **Bottom Drawer Sticking:** Verify that no items within the drawer are too tall or misplaced, preventing it from sliding smoothly. Ensure the drawer is aligned correctly with its runners.
- **Key Not Working:** Confirm you are using the correct key. Insert the key fully and turn gently. Do not force the key if it feels stuck.
- **Watches Not Fitting in Slots:** The watch slots are designed for watches with a dial size up to 48 mm. Larger watches may not fit comfortably. Try adjusting the watch on the pillow or placing it in a larger compartment if available.

5. SPECIFICATIONS
