MAINTENANCE

To keep your LEGO set in optimal condition:

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the bricks. For deeper cleaning, wash bricks by hand in lukewarm water (not exceeding 40°C or 104°F) with a mild detergent. Rinse thoroughly and air dry. Do not use hot water, harsh chemicals, or abrasive materials, as these can damage the plastic.
- **Storage:** Store the assembled model or individual bricks in a cool, dry place away from direct sunlight to prevent discoloration and warping. Keep small pieces in sorted containers to avoid loss.

TROUBLESHOOTING

- **Missing Pieces:** If you discover any missing pieces during assembly, please visit the official LEGO Customer Service website for assistance. They offer a service to replace missing bricks.
- **Assembly Difficulties:** If you encounter difficulty connecting pieces, ensure you are using the correct bricks as indicated in the instruction manual. Sometimes, applying gentle, firm pressure is necessary. If a piece does not fit, do not force it, as this may cause damage. Double-check previous steps.
- **Loose Connections:** If parts feel loose, ensure they are fully pressed together. LEGO connections are designed to be secure.
